The Tale of Partnership

Modhumoti Bank stepped to 12 in last June, which brought forward long lasting partnerships with its stakeholders that we able to build over time, which inspired to tread ahead together.

The Bank obtained license in June 2013 and started its operations in September to create *Access to Success*, which was not for promoters alone, but for all stakeholders, and in the course of its operations in the last decade or so, it might not sound rhetoric if we claim achieving of remarkable position in the banking industry and among its stakeholders by forging partnerships, since be able to acquire more than a half million happy customers!

The Bank witnessed significant progress in deposits and loans and advances through its growing branch present at various locations in all eight divisions of the country, while achieved impressive growth in import, export and other businesses, since the inception we were sincere in customer delivery through insight empowered employees and smart use of technology for offering well diverse range of customized products and services for valued customers from all segments of the society, from corporates and CMSMEs to even for specific part of community like senior citizens, freedom fighter etc.

For serving the unbanked & rural population, the Bank continues to expand its service footprint by establishing agent centers throughout the country. The Bank always focused on compliance for partnering with regulator by adhering and adopting best practices of corporate governance, participated in many corporate social responsibility projects in the past years, believes in financing environmentally friendly projects and has partnered for financing infrastructure development projects of the country thus contributing to the overall development of the economy.

All these efforts have earned the Bank trust and confidence as a financial partner of choice among stakeholders and we are confident to continue to create stronger positive impact in days ahead. Let's continue partnership for the best!

Our Approach to Integrated Report

Integrated Reporting aims to improve the quality of information available to various stakeholders of the Bank and to support integrated thinking, decision-making and actions that focus on the creation of value over the short, medium and long term. Integrated Reporting primarily focus on establishing a correlation between a Bank's business activities and its impact on society in terms of 'value creation'.

We are gradually moving towards presenting our Annual Report in the form of an 'Integrated Report' for our stakeholders. The main objective of our integrated reporting approach is to enable our stakeholders, including investors, to make a more informed assessment of the value created by our Bank and its prospects as this report is organized around our story of value creation.

Modhumoti Bank follows the principles of good governance, responsible banking and values-based financial intermediation while operating its business which ultimately help for attaining sustainable growth on behalf of the stakeholders of the Bank. The key aspects of our value creation process starts with different forms of capital that provide the inputs; the business domains and the value creating activities that result outputs, outcomes and impacts. It also covers risk and the aspect of conformance. In totality, this report ensures accurate measurement of operational, financial and sustainable performance against our strategy and the matters we consider to be most material to the sustainability of our Bank, in a concise manner that ensures comparability with the industry and beyond.

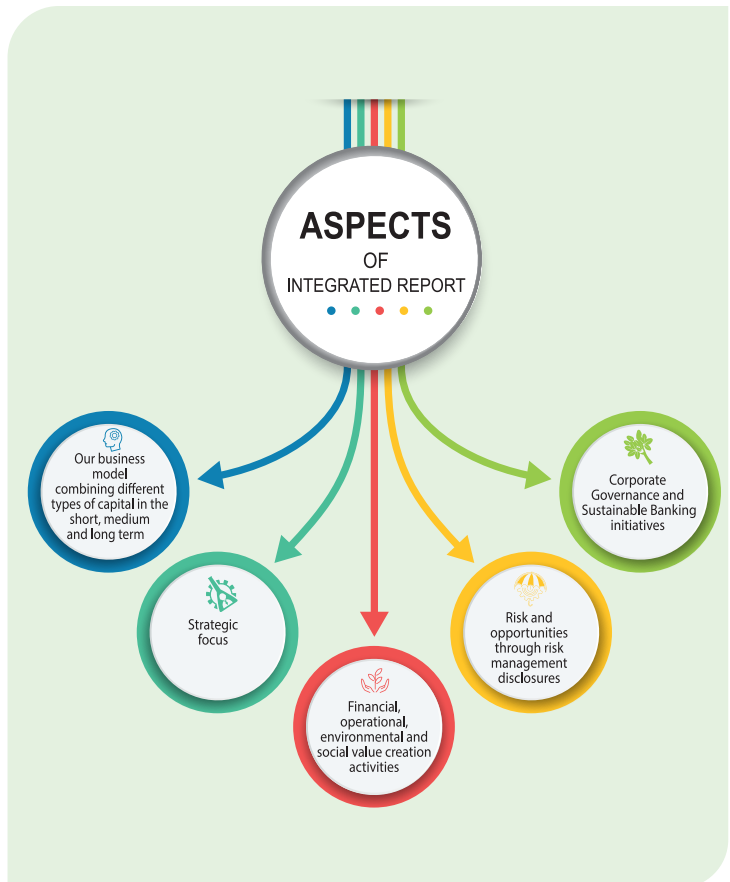

Scope and Boundaries of this Report

The report covers the period from January 01, 2023 to December 31, 2023, which encompasses the activities that have been carried out within the geographical boundaries of Bangladesh, as Modhumoti Bank does not have operation or subsidiary in other countries. We have referred to the Guidelines of Integrated Reporting, issued by the Institute of Chartered Accountants of Bangladesh (ICAB) in the form of 'Integrated Reporting Checklist; which is in congruence with the integrated reporting framework prototype issued by International Integrated Reporting Council (IIRC).

We are continuously expanding our sustainable business model to develop a value-based culture that enables us to serve our customers, to make a significant contribution to society, to reward shareholders and to protect the Bank from the reputational damage associated with both systematic & unsystematic risks.

In clarifying the Company's operations and financial performance we have extracted the financial information from the Audited Financial Statements for the calendar year ended 2023 with relevant comparative information. The financial statements consistently comply with the mandated requirements of the laws applicable in Bangladesh. There is no significant change regarding scope, boundary and reporting basis. The data & information presented in this report is on the same basis as the 2022 in terms of measurement methods, explanation of any restatement of information, time frames and entities.

Our Integrated Report gives a clear indication of the following aspects:

Standards, Relevant Laws & Regulations we follow

- ▶ **Integrated Reporting**
 - ✓ Integrated Reporting Framework of the International Integrated Reporting Council (IIRC).
- ▶ **Governance, Risk Management and Operations**
 - ✓ Bank Companies Act 1991 (as Amended up to the date)

 - ✓ Corporate Governance Code by BSEC in 2018
 - ✓ Bangladesh Bank Guidelines
- ▶ **Financial Reporting**
 - ✓ International Financial Reporting Standards (IFRSs)
 - ✓ International Accounting Standards (IASs)
 - ✓ Bangladesh Bank Circular & Guidelines

Guiding Principles of Integrated Report

- ⊕ **Strategic Focus and Future Orientation:** This Integrated Report (Annual Report) provides insight into the Bank's strategy, how it relates to the Bank's ability to create value in the short, medium and long term, and to its use of and effects on the capitals (financial and human capital).
- ⊕ **Connectivity of information:** The Integrated Report of the Bank shows a holistic picture of the combination, interrelatedness and dependencies between the factors that affect the Bank's ability to create value over time.
- ⊕ **Stakeholder relationships:** The Report provides insight into the nature and quality of the Bank's relationships with its key stakeholders, including how and to what extent the organization understands, takes into account and responds to their legitimate needs and interests.
- ⊕ **Materiality:** The Report discloses information about matters that substantively affect the Bank's ability to create value over the short, medium and long term.
- ⊕ **Conciseness:** The Integrated Report has been kept concise and avoided unnecessary detail information which are not relevant for the users of this report.
- ⊕ **Reliability and Completeness:** The Report includes all material matters, both positive and negative, in a balanced way and without material error.
- ⊕ **Consistency and Comparability:** Modhumoti Bank PLC. has maintained the consistency and comparability of data/information throughout the report which will enables comparison with other organizations to the extent it is material to the organization's own ability to create value over time.

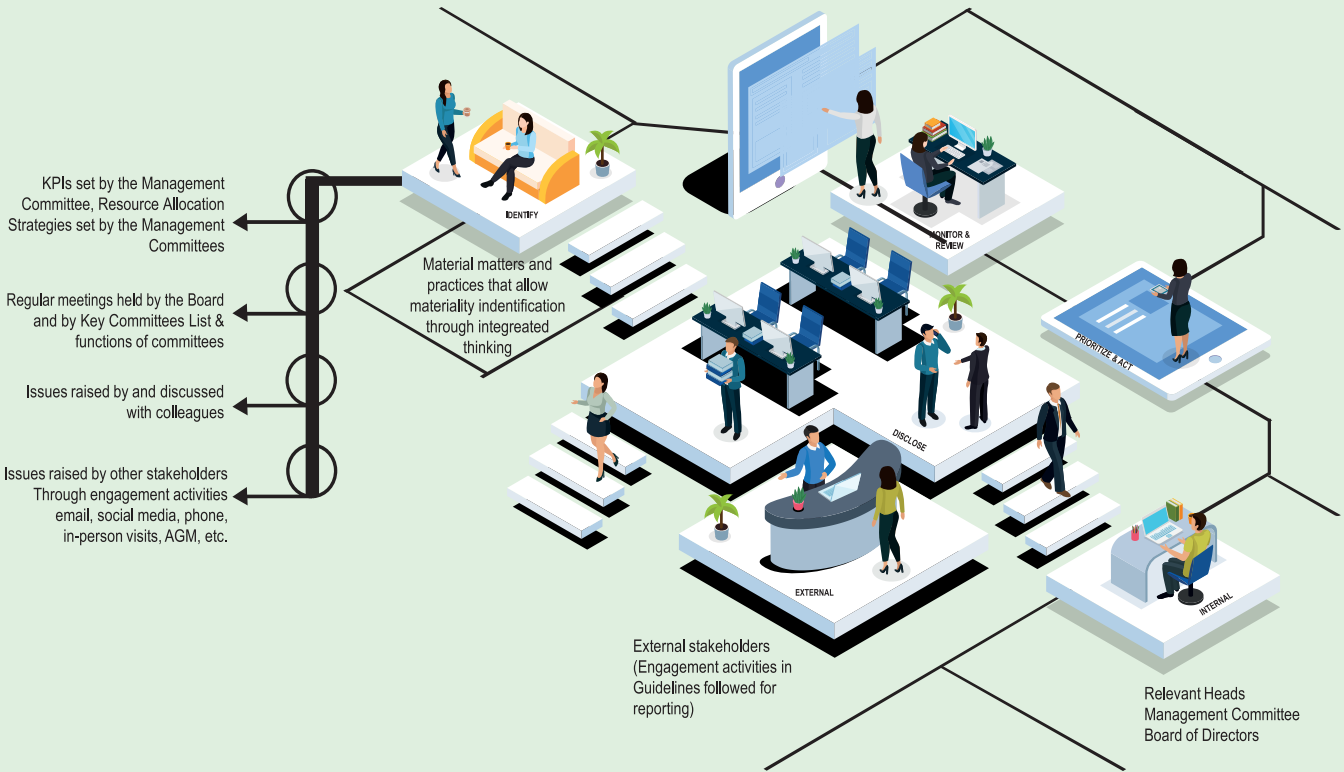

External Assurance

The Bank has obtained external assurance on the following reports in the reporting period under consideration:

SL No	Description of Report	External Assurance

MESSAGE TO THE SHAREHOLDERS

Chairman's Message

Bismillahir Rahmanir Rahim
Dear Distinguished Shareholders,
Assalamu Alaikum,

It is my honor and privilege to welcome you to the 11th Annual General Meeting of Modhumoti Bank PLC. and to present the Annual Report and Audited Financial Statements of the Bank for the year 2023.

Our beloved institution has reached a milestone in 2023 by completing 10 years of banking operation a decade of sustained growth. You would be pleased to know that as we stepped into the 11th year, we continued to maintain a fairly good growth momentum and trajectory to achieve what we set out in the beginning of the year. We achieved progress in all key business areas and performance indicators. The progress would not have been possible without the able leadership of our Board of Directors and its Committees and the Management Team for their valuable and consistent support and involvement. I would like to say thank you for your confidence and your support in helping accomplishment of the goals of 2023.

Let me take this opportunity to share with you a few thoughts on the challenges and accomplishment of last year.

Global Economy

In 2023, global trade volume declined by an average of around 2.2 per cent year-on-year between January to October having an impact for world industries with production increasing below potential at a rate of only 0.7 per cent year-on-year from January – October 2023. In 2023, global economy experienced deteriorating investment climate, high interest rates and persisting uncertainties. However, inflationary pressures eased due to adjustments of energy prices and implementation of monetary policy by the central banks. Unemployment rates have come down to record low levels in the US and EU. Major Western economies such as USA, EU experienced growth and the Chinese economy rebounded in 2023. However, the effects of Russia-Ukraine war continued to be felt around the world.

Bangladesh Economy

The Bangladesh economy faced multipronged challenges stemming from aftershocks of the pandemic and Russia-Ukraine War. The government and Bangladesh Bank have taken several well timed decisions to tackle the problems and adapt to the changing economic scenario.

Slowing the economy has been turning around. One sign of such turnaround is reflected in the performance of the country's export sector. In 2023, for the second consecutive year, Bangladesh's merchandise export earnings crossed the milestone of USD 50 billion. In fact, in FY2022-23, exports fetched a record USD 55.6 billion, a year-on-year increase of 6.67 per cent. The GDP growth is forecast to be around 6 per cent.

Performance of Modhumoti Bank in 2023

Modhumoti Bank PLC. has been performing consistently in the last 10 years. Despite macro-economic challenges, its balance sheet continued to grow reflecting growth of business. It is to be pointed out that the Bank's asset quality has remained excellent compared to industry average, since NPL stood at 1.67 per cent at the end of year, while its capital base has continued to provide high confidence among the customers and stakeholders. The Bank's credit rating has been improving every year. Its liquidity management has also been very ably handled in 2023. During the year the Bank's foreign exchange transactions have been under immense pressure and subject to uncertainties. However, due to very professional handling of these businesses, the Bank has not faced any significant crisis in this area. The Bank has also continued to expand its reach to customers through branch openings, agent outlet expansion and e-KYC product. It should be said that the Bank's Management has handled the period extremely professionally, as such the Bank has a far better standing than its peers.

Now, I would like to share with you some key points of our achievements in 2023.

- ④ Total deposits stood at BDT 78,172.13 million registering growth of 8.76%.
- ④ Total Loans and Advances grew significantly to BDT 63,282.60 million, an increase of 13.31%.

- ④ NAV per share stood at BDT 17.14 compared to BDT 16.27 of 2022.
- ④ The Bank opened 2 new branches taking the total to 50 at the end of the year and total agent points spread across the country stood at 611 at the end of the year.
- ④ The Bank's Credit Rating by Credit Rating Agency of Bangladesh (CRAB) has been continued as AA3 in Long Term in 2023. This superior rating reflects improved resilience, innate strength and stability of the fundamentals of the Bank.
- ④ At the end of 2023, the Capital of the Bank stood at BDT 10,061.72 million against risk weighted assets of BDT 62,587.93 million. Thus, the Bank has successfully maintained the Capital Adequacy Ratio of 16.08% against requirement of 12.50%.
- ④ Amongst the fourth generation banks, Modhumoti Bank is able to distribute the highest dividend to the shareholders in the last eleven years of its operation. As a result of our superior achievements in 2023, I am quite pleased to inform you that the declared dividend is 13.50% cash compared to previous year's 12.50% cash.

Corporate Governance

The Bank is always driven by its core values to maintain unwavering trust and confidence of the depositors. The Bank's foremost duty is to protect depositors' deposits and savings. We are always alert to apply high management standards and to follow codes and charters for building ethical foundation of management practices. The Bank always continues to adhere to the best practices of corporate governance of the industry to protect its stakeholders' interests by following the rules, regulations and guidelines of regulatory authorities.

The Bank is aware of ensuring long lasting stakeholder value by investing depositors' funds into economic and environmentally sustainable investment projects that contribute to socio-economic development goals of the country. To this end, we are always directing our focus to be beneficial to our stakeholders including all those who have direct and far reaching effects of our actions.

I am pleased to notify that the Board of the Bank attends to compliance issues of regulators and the Bank's own Internal Control and Compliance Division. The Board has always been supportive of establishing a compliance culture in the Bank. It has been working closely with the Management of the Bank and has reached out with their best efforts to secure and confirm the regulatory requirements. The Management of the Bank has adopted and implemented internal control and compliance culture in the organization. Many programs have been implemented to update the human resources of the Bank on the latest laws and practices to establish a sustainable bank and healthy relationships amongst stakeholders in a longer period.

The Bank has given efforts to take care of its employees since inception. The Bank took measures to keep employees safe and ensure their productivity. The Bank continues to strive to hire and maintain a talented workforce, and always keep them motivated by offering a comprehensive career to them.

Looking forward

Considering the macro-economic situation of the country and the global economic outlook, we would focus in 2024 to utilize resources efficiently, to expand market share, to explore new areas of business, to build brand image, to continue financial inclusion for better results and sustainable growth. Capacity development within workforce will be prioritized to stay competitive in the market and to adapt to the fast-paced, ever-changing needs of the industry and also to enhance ability of managing credit risks by reducing exposure to high-risk segments and being more prudent in new loan originations. The Bank will continue investing on digital transformation, which will enable us to continue our business operations seamlessly.

Note of appreciations

I am immensely indebted to my colleagues for their unrelenting support and prudent counsel. I would like to thank members of the Executive Committee, especially, the Chairman of the Executive Committee Barrister Sheikh Fazle Noor Taposh and also to the members of Audit Committee and Risk Management Committee for their commendable role in our quest for success. I express deep gratitude to all our customers, well-wishers, shareholders, regulators for their supports and invaluable guidance in our journey.

The Bank's milestones and achievements would not have been possible without the unwavering hard work, rigour and commitment of our splendid employees. I would like to recognize the contribution of the employees led by the Managing Director & CEO, Mr. Md. Shafiqul Azam. We will strive together for achieving our stated goals and vision. I thank M/s. Howladar Yunus & Co., Chartered Accountants for conducting external audit with professionalism and advising us on various issues.

May Allah help us and shower His unending blessings upon us.

With warm personal regards,

Humayun Kabir
Chairman

Now, let's catch sight of the Overall Economic Stance in the Year 2023

The global economic landscape in 2023 presents a complex and multifaceted picture, shaped by a confluence of factors including the ongoing recovery from the COVID-19 pandemic, geopolitical tensions, technological advancements, and significant shifts in energy markets.

Inflationary Pressures and Monetary Policy

Inflation has emerged as a significant concern in 2023, with many economies grappling with rising prices. Supply chain disruptions, high energy costs, and strong demand have contributed to inflationary pressures globally. In advanced economies, inflation rates have surged to multi-decade highs, prompting central banks to tighten monetary policies. The U.S. Federal Reserve and the European Central Bank have increased interest rates for several times to curb inflation, a move that has sparked debates on the potential impact on economic growth and employment.

In emerging markets, inflation has been particularly pronounced due to currency depreciations and higher import prices. Central banks in these regions have also faced the dilemma of balancing inflation control with the need to support fragile economic recoveries. The persistence of inflation has highlighted structural issues such as labor market mismatches and the need for investments in supply chain resilience.

Central banks worldwide responded to persistent inflation by tightening monetary policy, significantly affecting global business operations. The U.S. Federal Reserve, the European Central Bank, and others raised interest rates to combat inflation, leading to higher borrowing costs for businesses. This shift impacted corporate investment decisions, with companies reassessing expansion plans and cost structures. Additionally, currency fluctuations resulting from these monetary policies influenced global trade dynamics, with exporters and importers adjusting strategies to manage risks associated with exchange rate volatility.

Geopolitical Tensions and Economic Uncertainty

Geopolitical developments have also significantly influenced the world economic outlook in 2023. The ongoing conflict between Russia and Ukraine has had profound implications for global energy markets, particularly in Europe, which remains heavily dependent on Russian gas. Sanctions on Russia and the disruption of energy supplies have exacerbated energy price volatility, contributing to broader economic uncertainty. Additionally, trade tensions between the United States and China continue to affect global supply chains and investment flows, adding another layer of complexity to the economic environment.

At this moment, we would have the Viewpoint of Bangladesh Economic Outlook in 2023

In 2023, Bangladesh navigated a complex economic landscape marked by robust growth, challenges related to inflation, and significant developments in various sectors. The country continued its trajectory as one of the fastest-growing economies in South Asia, leveraging its demographic dividend, growing manufacturing sector, and strategic economic policies.

Inflation and Monetary Policy: Balancing Act

Inflation has been a notable concern for Bangladesh in 2023. Rising global commodity prices, particularly for food and energy, have exerted upward pressure on domestic prices. The Bangladesh Bank has had to navigate the delicate balance between controlling inflation and supporting economic growth. Monetary policy tightening, including raising interest rates, has been implemented to curb inflationary pressures. However, these measures have also increased borrowing costs for businesses and consumers, potentially dampening investment and consumption.

To address supply-side inflation, the government has sought to enhance agricultural productivity and reduce dependence on imported foodstuffs. Efforts to stabilize the exchange rate and manage foreign currency reserves have also been critical in mitigating inflationary pressures.

Inflation emerged as a significant challenge in 2023, with rates hovering around 9.02%. The rise in inflation was attributed to:

- ⦿ **Global Supply Chain Disruptions:** Ongoing supply chain issues, exacerbated by geopolitical tensions and the lingering impacts of the COVID-19 pandemic, led to higher import costs for essential goods, including food and energy.
- ⦿ **Currency Depreciation:** BDT faced depreciation pressures against major currencies, making imports more expensive and contributing to inflationary pressures.
- ⦿ **Domestic Factors:** Structural issues such as inefficient agricultural supply chains and rising wages also played a role in driving up prices.

Export Diversification:

Beyond the RMG sector, Bangladesh made strides in diversifying its export base. The country saw growing exports in sectors like pharmaceuticals, IT services, and light engineering. Government incentives and policies to promote export diversification were crucial in this regard.

Foreign Direct Investment (FDI): Foreign investment inflows fell 16% in 2023

Megaprojects: The government continued its push on several megaprojects, including the Padma Bridge, the Dhaka Metro Rail, and the Payra Deep Sea Port. These projects aimed to enhance connectivity, reduce logistical costs, and stimulate economic activities across the country.

Digital Infrastructure: The push towards a "Digital Bangladesh" gained momentum, with investments in expanding broadband access, improving digital literacy, and promoting e-governance. These initiatives aimed to foster a knowledge-based economy and improve public service delivery.

In the Year 2023, we have experienced that Bangladesh Bank took several measures, some of which are first of its kind in the country. While raising interest rates to curb inflation, the central bank also tried to ensure that credit remained available to support economic growth, particularly for small and medium-sized enterprises (SMEs). As Bangladesh continued its journey towards becoming a middle-income country, the focus on innovation, infrastructure development, and human capital investment remained pivotal in shaping its future economic landscape.

In 2023, Bangladesh's foreign currency reserves faced significant challenges, reflecting a complex interplay of both domestic and international factors, such as, Declining Reserve Levels, (By mid-2023, the reserves had fallen below the comfort level, standing at around \$30 billion, down from higher levels seen in previous years), Decline in Export Earnings due to global economic slowdowns and reduced demand for textiles have led to a decline in export revenues, Supply chain disruptions, increased production costs, and competition from other garment-producing countries also contributed to the lower export earnings. Rising Import Costs due to increased global prices for essential imports such as fuel, food, and raw materials have significantly raised the country's import bill, putting pressure on the reserves. Scheduled Debt Repayments on Foreign Loans and other external obligations have contributed to the outflow of foreign currency. As the country continues to take on new external loans for infrastructure and development projects, managing these repayments becomes critical to maintaining reserve levels. Remittance Inflows have shown moderate growth. While still substantial, the growth rate has not been enough to offset the increased import costs and other outflows. As a consequence, the Government has implemented measures to curb non-essential imports to manage the reserve levels and reduce the trade deficit. Also, the country has been exploring financial assistance and credit lines from international financial institutions, such as the International Monetary Fund (IMF), to bolster its reserves and support economic stability.

Next Steps for Sustainable Growth

The future steps to take in the banking sector encompass a broad spectrum of strategies and initiatives aimed at addressing emerging challenges, leveraging opportunities, and ensuring sustainable growth and resilience. We shall continue our efforts to:

- ③ **Embrace Digital Transformation:** Accelerate digital transformation initiatives to enhance operational efficiency, improve customer experience, and drive innovation, Invest in advanced technologies such as artificial intelligence (AI), machine learning (ML), etc. to streamline processes, automate tasks, and offer personalized services.
- ③ **Promote Financial Inclusion**
- ③ **Focus on Customer-Centricity:** Prioritize customer needs and preferences by offering personalized and tailored banking solutions, proactive financial advice, and seamless omnichannel experiences. Leverage data analytics and customer insights to anticipate customer needs, enhance engagement, and build long-lasting relationships.
- ③ **Enhance Risk Management:** Strengthen risk management frameworks to effectively identify, assess, and mitigate various risks, including credit risk, operational risk, market risk, and compliance risk. Implement advanced risk analytics, stress testing, and scenario analysis techniques to enhance risk management capabilities and ensure resilience in the face of adverse events.
- ③ **Foster Sustainable Banking Practices:** Integrate environmental, social, and governance (ESG) considerations into banking operations, investment decisions, and risk management processes.
- ③ **Strengthen Cybersecurity Measures**
- ③ **Invest in Talent and Skills Development:** Attract and retain top talent with the requisite skills and expertise to drive innovation, manage risks, and deliver exceptional customer service. Provide continuous training and professional development opportunities to equip employees with the knowledge and skills needed to adapt to evolving industry trends and technological advancements.
- ③ **Collaborate and Partner:** Foster collaboration and partnerships with fintech firms, technology providers, regulators, and other stakeholders to co-create innovative solutions, share best practices, and address common challenges. Explore strategic alliances, joint ventures, and ecosystem partnerships to expand market reach, diversify revenue streams, and enhance competitiveness in a rapidly evolving ecosystem.
- ③ **Diversify Revenue Streams:** Expand Product Offerings, Cross-Selling and Upselling, Optimize Asset Allocation, Manage Interest Rate Risk
- ③ **Improve Operational Efficiency:** Streamline Processes, Cost Rationalization to improve cost efficiency.
- ③ Focus on Customer Relationships
- ③ Focus on Sustainability and Environmental, Social, and Governance (ESG) Integration
- ③ Expand Digital Banking Solutions through User-Friendly Mobile and Online Banking
- ③ Retention and Engagement Strategies
- ③ Increase the base and core deposits of the bank
- ③ Uphold Brand Reputation

As we look ahead to the future, I am confident that we are well-positioned to capitalize on emerging opportunities and overcome any challenges that may arise. Together, we will continue to innovate, adapt, and deliver sustainable value for our stakeholders.

Relationship for Growth

Relationship banking is a strategic approach that focuses on building long-term, mutually beneficial relationships with customers rather than merely engaging in transactional interactions. Relationship banking is integral to the growth and success of a bank.

We can enhance Customer Loyalty and Retention, Deepen Trust, Reduce Churn Rates by doing Relationship Banking. By maintaining regular and meaningful interactions, banks can anticipate and address customer needs proactively, enhancing overall satisfaction. Your commitment to our vision and values is the cornerstone of our success, and I am honored to lead such a talented and dedicated team.

I also extend our sincere gratitude to our senior dynamic team, including the AMD, DMD & CRO, and DMD & CBO, for their collaborative spirit, support, and dedication. Their efforts have fostered a positive work environment and contributed to our collective success.

Our esteemed Board of Directors, Chairman, and Executive Committee members are integral to our journey. Their guidance and unwavering support have been instrumental in maintaining our strong financial position and upholding corporate governance standards. I extend a heartfelt gratitude to the Chairman of the Executive Committee for his trust and unwavering belief on us in rendering our responsibilities to position the Bank in a better shape to serve the economy of the country better.

We are also grateful for the professionalism and expertise demonstrated by regulatory authorities, such as Bangladesh Bank, and external auditors, in ensuring transparency and ethical practices within our institution. We value their opinion and observations and we are committed to comply those in a better way.

I would like to express my sincere appreciation to our valued customers for their trust and loyalty. Your continued support inspires us to strive for excellence in everything we do. I also extend my gratitude to our shareholders, whose confidence and investment drive our growth and success.

The Print and Social Media platforms deserve appreciation for their role in portraying our bank positively to the public. Their diligent reporting and insightful analysis contribute to enhancing our reputation and visibility.

Lastly, we value the trust and confidence that our customers place in us. I am a firm believer that robust relationships are established on a bedrock of trust and mutual respect between our customers and the bank. Throughout the years, we've dedicated ourselves to offering our customers top-tier banking services and solutions, custom-tailored to suit their financial requirements. Their steadfast confidence in us has been a catalyst propelling our dedication to delivering unparalleled customer experiences. Additionally, I deeply appreciate the feedback our customers offer, and we persistently strive to refine our services to meet their evolving needs and expectations.

Looking forward, the road ahead may be filled with uncertainties and complexities, but I am confident that with our shared vision, strategic foresight, and unwavering determination, we will continue to chart a course of sustainable growth, innovation, and impact.

Thank you once again for your unwavering support, and I look forward to the journey ahead as we continue to write the next chapter of success together!

The Directors believe that the Report will give complete insights of the Bank's performance during the year under review.

Global Economic Outlook

Global economy has continued to demonstrate sustained pace of recovery from certain natural, man-made and socio-economic perils. Inflation has declined more rapidly than anticipated from its peak in 2022, with a lesser impact on employment and activity than initially forecasted. This has attributed to positive supply-side advancements and various policy measures taken by central banks to contain inflation. However, high interest rates to combat inflation and reduced fiscal support are expected to pull down the economic growth rate in 2024. Global inflation, which was 6.8 per cent (annual average) in 2023, is expected to fall up to 5.8 per cent in 2024.

According to IMF, global economy grew at 3.1 per cent in 2023, and is projected to remain same in 2024 before rising modestly to 3.2 per cent in 2025. The forecast for global growth in 2024 and 2025 is anticipated to be lower than the pre-COVID annual average of 3.8 per cent, influenced by restrictive monetary policies, reduced fiscal support, and low underlying productivity growth. Advanced economies are expected to experience a slight decrease in growth in 2024, followed by an uptick in 2025. The euro area is anticipated to bounce back from low growth in 2023, while growth in the United States is expected to decelerate. Emerging markets and developing economies are likely to experience steady growth from 2024 to 2025, although there may be differences in growth rates among regions. However, global growth can be disrupted if commodity price spikes due to escalation of geopolitical conflicts and global trade flow gets disrupted.

Bangladesh Economy

As mentioned in Monetary Policy Review FY2022-23, the economy of Bangladesh rebounded strongly from the shock of the Covid-19 pandemic, achieving real GDP growth rates of 6.94 per cent and 7.10 per cent in FY21 and FY22 respectively. This recovery has been facilitated by effective pandemic management, enhanced domestic and external demand and also for well-coordinated monetary and fiscal policy support.

In 2023, the economy of Bangladesh navigated through a host of challenges originating both from the domestic and global fronts across multiple areas. Global supply chain disruptions and surge in fuel and commodity prices continued to heighten inflationary pressures. While many countries have effectively controlled inflation through suitable policy actions, Bangladesh is still struggling to do the same. Furthermore, the nation is confronted with various issues such as a fragile banking sector, financial account deficit, exchange rate volatility, diminishing foreign exchange reserves, rising income inequality and the demand-supply imbalance in the energy sector. Due to these challenges, the macroeconomic stability that Bangladesh enjoyed for a long time due to high growth, relatively low inflation rate and strong external sector has been weakened.

Despite improvements in the supply situation and declining global commodity prices, the sharp depreciation of the exchange rate and high production and transportation costs kept domestic inflation elevated. Headline CPI inflation (point-to-point) reached an 11- year high of 9.52 per cent in August 2022, rising from 7.56 per cent in June 2022, and remained above 8 per cent before reaching 9.24 per cent in April 2023. The 12-month average inflation steadily increased to 8.64 per cent in April 2023 from 6.15 per cent in June 2022, significantly exceeding the target of 7.50 per cent for FY23.

According to the Monetary Policy Statement for H2FY24, despite the ongoing challenges, Bangladesh's economic outlook for the end of FY24 remains positive, with expectations of robust real GDP growth targeted at 6.5 per cent and moderated inflation aimed at 7.5 per cent. With the concerted efforts of Bangladesh Bank, the government, and other stakeholders, stability in the foreign exchange market and improvements in corporate governance and non-performing loans management are also anticipated.

During July-November 2023, financial account deficit stood at USD 5.40 billion, compared to a surplus of USD 1.26 billion in the same period in 2022, which put pressure on the balance of payments (BoP) despite having a current account surplus. This deficit mainly arose due to slowdown in private foreign borrowings amid global interest rate hikes, economic uncertainties, and delayed repatriation of certain export earnings. The overall BoP deficit stood at USD 4.90 billion during July-November 2023 from USD 6 billion in July-November 2022. The country's total export growth (y-o-y) increased by a modest 6.67 per cent in FY 2023 reaching USD 55.56 billion and in H1, FY 2024 it increased marginally by 0.84 per cent compared to previous periods. On the other hand, total import decreased sharply by 15.81 per cent in FY 2023 and 19.91 per cent in H1 of FY 2024. The fall in imports is the outcome of tighter import controls and shortage of FCY liquidity in the markets.

Banking Industry Outlook

Banking industry in Bangladesh is highly fragmented into two broad spectrums (state-owned commercial banks and local and foreign private commercial banks), having marked difference in mode of operations, service quality, profitability and financial soundness indicators (governance, asset quality, capital adequacy etc.). In 2023, the industry struggled in many fronts mainly due to lack of good governance, shortage of FCY liquidity, loan irregularities and a depreciating local currency which eventually undermined macroeconomic stability. Relaxation of loan classification and rescheduling rules combined with a culture of impunity, have fostered fraudulent activities that resulted in a significant rise in non-performing loans (NPL) in the banking sector.

Dollar sale by the central bank impacting reserve, low deposit growth, limited growth of official remittance inflows, and weak loan recovery put pressure on the liquidity of many banks. Some banks experienced significant liquidity shortages due to declining confidence of depositors requiring liquidity support from Bangladesh Bank (BB). With the official exchange rate of BDT against USD at 110, much lower than that of informal market, at the end of December 2023, BB continued to intervene in the foreign exchange market through net selling of foreign currency amounting to USD 5.69 billion during July-December 2023 to reduce the demand-supply gap in the market. In addition to import restrictions, BB took various measures to stop depletion of FCY reserves by reduction of the size of Export Development Fund (EDF) and implementing stringent eligibility criteria, alternative currency arrangements for trade transactions, ensuring timely receipt of export earnings, providing flexibility to banks for transferring capital between their offshore and domestic operations etc.

Bangladesh Bank has been continuing with contractionary monetary policy to reduce inflation. However, private sector credit growth decelerated due to tighter liquidity conditions, reduced demand for trade finance, and rising economic and political uncertainty. Public sector credit growth surged due to the government's heightened borrowing from the banking sector, partially the result of a shift away from National Savings Certificates (NSCs). Liquidity in the banking system remained under pressure due to dollar sale by BB and low deposit growth, driven by negative real interest rates and weak depositor confidence. Various policy measures taken by BB includes increasing policy rate to 7.75 per cent, removing lending rate cap and introducing Six-Month Moving Average Rate of Treasury Bill (SMART) with a suitable margin, ceasing devolvement for lending to govt. etc.

In December 2023, domestic credit growth was 11.89 per cent compared to 14.98 per cent in December 2022 against deposit growth of 11.04 per cent (y-o-y) in December 2023. Advance to Deposit Ratio (ADR) was 80.38 per cent at the end of December 2023, well below the maximum allowable limit by the central bank. NPL ratio stood at 9 per cent in December 2023 compared to 8.16 per cent at the end of 2022. This huge pileup of bad loans may choke the credit supply channel of the economy with due repercussions on the resilience of the private sector. The banking sector as a whole maintained the required level of Cash Reserve Ratio (CRR) and Statutory Liquidity Ratio (SLR) and other liquidity ratios i.e. Liquidity Coverage ratio (LCR), Net Stable Funding Ratio (NSFR) as on 31 December 2023.

In line with government's "Smart Bangladesh Vision", Bangladesh Bank has initiated many steps including "Cashless Bangladesh" program to accomplish 75 per cent cashless transactions by 2027. Initiatives like awarding Digital Bank license, Binimoy, QR Code transactions, Taka Pay have been introduced to integrate the unbanked and marginalized population into the formal banking system.

Capital Market Outlook

The capital market continued rebounding from the pandemic shock until October 2021 with the economy's recovery. Since then, the performance of the market has followed a downward trend with volatility amid some unfavorable developments in the domestic and global economy, such as falling liquidity in the banking system, substantial depreciation of the exchange rates, quick erosion of the foreign exchange reserve, tight global financial condition, slowdown of global economic growth and economic uncertainties emerged from the war in Ukraine, among others. Despite various supportive measures taken by the Bangladesh Securities and Exchange Commission (BSEC) and Bangladesh Bank, the performance of Bangladesh's capital market remained broadly subdued in FY23

Banks are obviously discouraged from investing more in the stock market because of a liquidity crunch arising from substantial depreciation of the exchange rate. Although DSE index maintained steady pace during the last couple of months, the values of the index were much lower than that of a year ago. This index declined by 8.15 per cent at the end of March 2023 compared to March 2022.

Vision, Mission, Corporate Philosophy, Strategic Priorities and Corporate Conduct

Since the task of crafting, implementing and executing business level strategies are the heart and soul of managing a business, Modhumoti Bank PLC. has had some game plans which are being used gradually to stake out market position, conduct its operations, attract and please customers, compete successfully and achieve organisational objectives.

The 'Business Model' of the Bank deals with the revenue-cost-profit economies of its strategy, the actual and projected revenue streams generated by the product offerings and competitive approaches, the associated cost structure and profit margins, and the resulting earnings stream and return on investment (ROI). The fundamental issue surrounding a business model is whether adopted strategy by the Bank makes sense from a money-making perspective as well as value creation for the society.

All the strategies, business plans and performance measures are adopted & reviewed from time to time to attain Bank's Vision which is to lead the new generation of local commercial banks by excelling in customer delivery through insightful empowered employees, smart use of technology and offering a full range of highest quality products and services.

Business performance analysis and target-setting are, therefore, important to depict a 'Strategic Vision' for the long-run objective of an organization i.e., 'Wealth maximization'. There is a roadmap of the Bank's future-providing specifics about customer focus & technology, the geographic and product market to be targeted, and the capabilities it plans to develop. How 'Strategic Business Units (SBUs)' or Business segments operated by the Bank are performing is very much essential to assess 'who we are and what we do'. This gives a better strategy to the Bank Management to combat against the key challenges to reach the ultimate goal, i.e., 'where we are going'. Since most businesses ultimately target for profits, it's very important to know how to measure profitability. The key standard measures followed in the Bank are Spread or Gross Profit Margin, NIM or Net Interest Margin, Break-even Point Analysis, Return on Asset (ROA) and Return on Equity (ROE).

Preparation of Financial Statements

The financial statements prepared by the Bank Management present fairly its state of affairs, the result of its operations, cash flows and changes in equity. These statements have been prepared in accordance with the 'First Schedule' (Section-38) of the Bank Company Act 1991, BRPD Circular no. 14 dated 25 June 2003, the rules and regulations issued by Bangladesh Bank from time to time, International Accounting Standards (IAS) & International Financial Reporting Standards (IFRS), the Securities and Exchange Rules 1987 and under all other relevant rules & regulations applicable in Bangladesh. The external auditor, Howladar Yunus & Co., Chartered Accountants, have certified the fairness of the financial statements for the year ended on 31 December 2023, who have been appointed by the shareholders in the last AGM. The financial statements of 2023 have been reviewed by the Audit Committee of the Board of Directors of the Bank and then referred to the Board of Directors for perusal and necessary recommendation.

Maintaining proper books of accounts

The Bank maintained proper books of accounts for its financial transactions occurred during the year 2023. The transactions are recorded as per guidelines stipulated by the International Accounting Standards (IAS) and International Financial Reporting Standards (IFRS) as applicable for the Bank. The books of accounts have also been reviewed by the external auditors, Howladar Yunus & Co., Chartered Accountants with an opinion that proper books of accounts have been properly maintained as required by the law.

Appropriate Accounting policies

Appropriate accounting policies have been consistently applied, except for the changes disclosed in the financial statements in preparation of financial statements and that the accounting estimates are based on reasonable and prudent judgment. Bank records financial transactions on accrual basis with required disclosures and also prepared the financial statements accordingly.

The Bank has implemented IFRS 16 from 2019 and assessed whether a contract is a lease, in accordance with the guidance stated in the IFRS 16: Leases, by determining whether the contract gives it the right to use a specified underlying physical asset for a lease term greater than 12 months, unless the underlying asset is of low value. Office premises for which monthly lease rental is the amount not exceeding BDT 25,000, ATM Booths and other installations are considered as low value assets. The Bank didn't adopt any other new policy in preparing financial statements for the year ended on December 31, 2023.

Follow up of IAS & IFRS in preparation of financial statements

The Financial Statements (FS) of the Bank are prepared in accordance with applicable International Financial Reporting Standards (IFRSs) and relevant circulars/instructions issued by Bangladesh Bank (BB) and any departure from IFRS due to BB regulation has been adequately disclosed in the notes to the financial statements.

Going Concern

After reviewing the Bank's present and potential business growth, annual budget, performance, liquidity position, and financing arrangements, the directors are satisfied that the bank has adequate resources to continue to operate in the foreseeable future and confirm that there is no material issue threatening the bank's going concern. For this reason, the Directors have continued to adopt the going concern basis in preparing these financial statements. There are no significant doubts about the bank's ability to continue as a going concern.

Internal Control System

Internal control system helps the Bank achieve goals and aspirations consistently. This control system also ensures that the Bank complies with local laws and regulations as well as policies, plans, internal and external rules, guidelines and procedures, and subsequently reducing the risk of unexpected loss or damage to the Bank. The key functionalities that have been established in reviewing adequacy and integrity of the system of internal control are as follows:

- ② The internal audit department of the Bank checks for compliance with policies and procedures and the effectiveness of the internal control system on regular basis and highlights significant findings in respect of any non-compliance.
- ② The internal audit department has direct access to the Audit Committee of the Board as and when required to ensure submission of internal audit findings to the Audit Committee without any management intervention.
- ② Different committees have been formed consisting of relative stakeholders with expertise on the subject matter to assist the Board in guiding the Bank's operation in line with its mission, vision and strategies.

The Board of Directors sets the tone for an effective control environment through regular reviews of the processes for identifying, evaluating, and managing significant risks. The Senior Management Team (SMT) monitors the adequacy and effectiveness of Internal Control System based on the bank's established policy and procedure following the Central Bank's guidelines and also reviews the overall effectiveness of the control system of the bank. Besides, the Audit Committee of the Board reviews the effectiveness of the system of internal controls and management,

establish effective audit process and manage various risks. The internal control system of Modhumoti Bank PLC. is sound in design and effective. It is dynamic & a continuing series of activities planned, implemented and monitored by the Board of Directors and Management at all levels within the Bank.

Risk Management

Risk management is to be embedded in a bank's organizational structure, operations and management systems. Business risks across the bank are required to be addressed in a structured and systematic way through a predefined risk management structure. Risk management functions are subject to continuous scrutiny of Internal Control & Compliance Division (ICCD) and supervision of Risk Management Division (RMD) to ensure appropriateness and integrity of the risk management practices and mechanism. The Risk Management Committee (RMC) of the Board reviews and monitors the overall risk management system of the Bank and updates the Board from time to time. These ensure that the Board's assessment of risk is duly assessed by risk factors and mitigating controls originating from and identified by the Bank's assets, functional departments and operations.

The Management of Modhumoti Bank has formed many Committees to identify and mitigate risks associated with the business and handle operations smoothly as advised by Bangladesh Bank from time to time. Executive Risk Management Committee, Management SRP Team and Basel Unit (Supervisory Committee) have been formed along with Credit Risk Management Committee and Asset and Liability Committee (ALCO). The Committees regularly review issues related to the markets, credit & liquidity and, accordingly recommend and implement appropriate measures to proactively identify and mitigate risks. The Bank possesses an approved Asset Liability Management (ALM) policy. The Risk Management Division (RMD) independently scrutinizes projects from a risk-weighted perspective and assists relevant Divisions/Departments in setting business development priorities. These are aligned with the Bank's risk appetite while optimizing the risk-return trade-off derived from relevant risk exposures. A well-defined process for credit approval is being followed in the Bank, wherein Credit Evaluation Committee at Head Office also assists the Management in assessing, approving and managing credit risk. The resulting strategic, financial, and operational risk mitigation activities that have been implemented reinforce the bank's operations and sustainability, thus reducing the potential for unexpected losses and assisting in managing volatility better.

Credit Risk Management

Credit risk is the risk of potential loss resulting from the failure of a customer or counterparty to honor its financial or contractual obligations to the bank. It may arise from direct credit activities as well as from commitments and contingencies. The credit risk management function ensures that appropriate policies are established and ensures compliance with the related sanctions, monitoring procedures, and controls at the business unit level. Credit exposures are aggregated across individual business units and monitored regularly. Effective management of credit risk requires the establishment of an appropriate credit risk culture. The Board of Directors, either directly or through the Risk Management Committee of the Board, reviews and approves the bank's credit risk appetite annually and reviews the credit policy manual from time to time. The concerned officials are monitoring and following up on credit risk management regularly.

Information and Communication Technology Security Risk Management

Information and Communication Technology risk is a business risk, specifically the business risk associated with the use, ownership, operation, involvement, influence, and adoption of information and communication technology within the bank. It consists of IT-related events that could potentially cause a negative impact on the banking business. It might occur with both uncertain frequency and magnitude and might create challenges in meeting strategic goals and objectives. Managing ICT risk is therefore an element of sustaining a secure environment, a detailed process of identifying factors that could damage or disclose data, evaluating those factors in light of data value and countermeasure cost, and implementing cost-effective solutions for mitigating or reducing risk. ICT risk of the Bank is addressed by finding out the weakness in a particular operation and initiating appropriate/ suitable strategy within the approved policies and procedures. As an ongoing process, the Bank is constantly assessing risk by analyzing threats and vulnerabilities and taking necessary corrective measures the standards and industry's best practice.

Internal Control and Compliance Risk Management

The Bank has continuously been taking efforts to establish an effective organizational structure to maintain strong internal control culture by complying with Bangladesh Bank guidelines and implementing the Bank's internal control and compliance policies through the resources of the Internal Control and Compliance Division (ICCD). Modhumoti Bank PLC. has established an effective System of Internal Control, which is designed to manage all the risks of failure to a reasonable level, achieve aims and objectives/goals of the Bank. This System provides reasonable assurance of effective & efficient operations covering all controls including financial & operational controls, reliability of the financial information, compliance with applicable laws & regulations, adherence to management policies, safeguarding of Bank's Assets, prevention & detection of fraud & errors, and accuracy & completeness of the accounting records related to Bank's position & performance. ICCD is ensuring compliance regarding submission of all regulatory reports/returns by its own as well as other divisions & branches. The Audit Committee of the Board regularly monitors the adequacy of internal audit functions and their monitoring & compliance related activities so that a compliance culture is established within the Bank.

Money Laundering Risk Management

To improve Bank's Money Laundering Risk Rating, acute initiatives have taken in line with the Core Risk Management Guideline under supervision of the Board and Senior Management, which includes revision of AML and TBML Policy, improve AML compliance infrastructure, inclusion of AML Solution and ensure effective uses of digital technology, oversee & effective implementation of compliance program under direct supervision of the DMD & CAMLCO, run robust AML&CFT awareness program for bank employees, agents and customers in digital platform, in person and through social media. Planned focus group seminars/workshop/trainings are scheduled in collaboration with BFIU experts to boost up knowledge level and compliance status. The Bank arranges yearly board awareness session on AML&CFT for the members of the Board of Directors of the Bank as a continuous effort. Tone of the top echoed through the MD & CEO's yearly message on AML&CFT compliance of the Bank following the regulatory guideline.

The Bank conveys the regulator's directives to all concerned vide inter office memo (IOM) to ensure proper and timely compliance, which is a regular risk mitigation task. Internal processes and procedures have been fine-tuned covering areas of CDD/KYC, review of high-risk accounts, Trade CDD and risk grading of customers, special monitoring for PEP/ IP A/c's, Ultimate Beneficial Owner guideline, sanctions screening etc. Rules based transaction monitoring, flag setting, issue escalation process has been enhanced, which ensued suspicious transaction/ activity (STR/SAR) detection.

To mitigate the compliance risk, in depth scrutiny and review of Quarterly Branch Compliance Unit (BCU) meeting minutes, half yearly Self-Assessment Report, review of compliance gaps of the branches as picked out from Independent Testing Procedure (ITP) is in practice and also summary reports of the same have been submitted to the Management for further instruction. To ensure AML policy and procedures, more focused internal audit reviews have also been initiated. In addition to review of internal audit, further reviews by AML&CFT Division has also been carried out towards improvement of AML standard of the branches and business units.

To improve overall AML&CFT Governance and mitigate the ML&TF risk setting control measures, the Bank aims to ensure implementation of the 'Prevention of ML&CFT Policy' and guidelines on 'Prevention of TBML', improve employee awareness and commitment, integrate higher engagement and focus of Senior Management.

Foreign Exchange Risk Management

The foreign exchange risk arises from transactions involving foreign currencies. The risk is that adverse fluctuations in exchange rates may result in a loss in earnings. As per the guidelines of Bangladesh Bank, Modhumoti Bank has developed a foreign exchange risk management policy to minimize different types of risks associated with foreign exchange transactions. The Foreign Exchange Desk of the Treasury Division is involved in need-based foreign exchange dealing activities with different counterparty banks. The Treasury Back Office is engaged in the transfer of funds and the passing of the transaction entries in the books of accounts; the Mid Office is responsible for the verification of the deals. All foreign exchange assets and liabilities are revalued at market rates as per the directive of the Bangladesh Bank.

Asset Liability Risk Management

Asset Liability Management is a process of addressing liquidity risk and interest rate risk that may arise due to maturity mismatches between assets and liabilities as a consequence of changes in interest rates or liquidity. The Asset Liability Management Committee (ALCO) that is formed with the senior executives and headed by the Managing Director is mainly responsible for managing asset liability risk. To manage balance sheet risk properly, the Bank has already prepared an Asset Liability Management policy according to the guidelines of the Bangladesh Bank. The Bank has been complying with all the applicable rules, regulations, and guidelines regarding asset liability risk management and has taken appropriate measures in line with industry best practices.

Statement of Directors' Responsibility to establish appropriate system of internal control

The Directors are aware and acknowledge their overall responsibility for the Bank's systems of internal control for establishing efficiency, effectiveness, reliability, timeliness, completeness and compliance with the applicable laws and regulations. This process ensures that a system of internal control in accordance with the best financial reporting practice was in place throughout the year and up to the date of the signing of financial statements for the year ended on 31 December 2023. It also involves an assessment of the ongoing process for the identification, evaluation and management of individual risks and of the role of the various committees and the Bank's risk management functions.

Statement of Directors on adequacy of the system of internal control

The Directors has reviewed the effectiveness of the Bank's systems of internal control for the year ended on December 31, 2023. The Board through the Audit Committee has supervised the policies and various parts of businesses to ensure an effective internal control system. The Bank's business strategy, significant policies for internal control system and risk management have been taken properly and internal audit and control has been accomplished as per requirement of the Bank Company Act, 1991 as amended from time to time, guidelines and circulars issued by Bangladesh Bank, Corporate Governance Code of Bangladesh Securities and Exchange Commission etc.

Review of the performance in 2023

The year 2023 continued to remain a challenging one for the banking industry in Bangladesh. Economic activity remained sluggish for a good part of the year as lingering pressures from crisis-induced challenges and the global economic slowdown continued to affect many key sectors, including manufacturing, exports and services. Modhumoti Bank PLC. demonstrated resilience and delivered an admirable performance. This report provides a review of the Bank's performance, including a description of the major financial indicators.

Corporate social responsibility

Modhumoti Bank has already promulgated a well-defined policy titled ‘Corporate Social Responsibility (CSR) Policy of Modhumoti Bank PLC.’ with some specific objectives prepared in the light of Bangladesh Bank’s guidelines stating the Bank’s commitment to its stakeholders to conduct business in an economically, socially and environmentally sustainable manner that is transparent and ethical so that stakeholders are not negatively impacted for the activities of the Bank. The stakeholders include employees, investors, shareholders, customers, business partners, clients, civil society groups, Government and non-government organizations, local communities, environment and society at large. Our approach continues to focus on two key priorities: contributing to sustainable economic growth and being a responsible company. Sustainable Finance Unit of the Bank looks after the CSR activities of the Bank including reporting in the prescribed format to Bangladesh Bank in timely manner.

Corporate Governance

Corporate governance is an application of set of processes, mechanism, customs, policies, laws to attain certain sets of objectives, corporate mission and vision with regard to protect the interest of stakeholders, contributes to the efficiency of an organization enabling them to compete in a sustained way, maintaining integrity in the organization and also managing risk of the organization. Good governance is manifested through adherence to ethical business norms, a firm commitment to values and compliance with applicable laws and regulations, while enhancing shareholders value, since successful value added business is profoundly dependent on transparency, internal and external confidence and trust.

Modhumoti Bank focuses on ethics, governance and transparency since inception in 2013. We are committed to maintain full compliance with the laws, rules and regulations that govern our businesses. The main objective is to develop a strong, sustainable and competitive company in the best interest of its shareholders, employees, business associates and society at large.

Corporate Governance Framework

The Board of Directors of the Bank is aware of separate roles of the Board and Management, as stipulated in BRPD Circular No. 11 dated 27 October 2013 of Bangladesh Bank, which is issued newly vide Circular No. 02 dated 11 February 2024. The Board acknowledges the greater responsibility of prioritizing accomplishment of transparency, accountability and professionalism through formulation of appropriate policies and execution thereof by deploying proper resources and engaging prudent Management, while the Management under guidance of Managing Director & CEO is responsible to execute such policies and procedures set by the Board for the greater interest of shareholders and other stakeholders of the Bank.

The Board and its Committees

The Board of Directors of Modhumoti Bank PLC. plays pivotal role in bank-governance through their far sighted decision and visionary leadership that drive the company to keep sustainable growth. The number of directors on the Board is determined at the meeting of shareholders, which shall not be less than 7 or more than 20. Auditors' Report

The Board of Directors reviewed the Auditors Report issued by the Bank's external auditor, Howladar Yunus & Co., Chartered Accountants based on the audited financial statements of the Bank for the year ended on December 31, 2023. The auditors didn't raise any material misstatement or significant disagreement during review of the Bank's financial statements. The Board also reviewed auditors' opinion/suggestions made under a separate management letter likely to give strategic directions/ guidelines to the Bank Management for further improvement.

Retirement and Re-election of Directors

In terms of Section 91(2) of the Companies Act 1994 and according to the Articles of Association of the Bank, one-third Directors shall retire from office at the ensuing Annual General Meeting (AGM) of the Company. According to Articles of Association, a retiring Director is eligible for re election. Further, the election/ re-election of Directors requires to be dealt according to BRPD Circular No. 02 dated 11 February 2024 of Bangladesh Bank following Bank Company Act, 1991 and amended thereof.

In the Tenth AGM of the Bank held on 29 July 2023 lastly, the Board has been constituted with 20 members including 2 (two) Independent Directors. Senior Advocate Mr. Syed Rezaur Rahman was appointed as Independent Director for the first term, while Mr. Shaheduzzaman Choudhury, FCA was re-appointed for another term of 3 (three) years. Bangladesh Bank accorded approval of appointment subsequently with condition of resignation of Mr. Shaheduzzaman Choudhury, FCA from the Board of other companies, but Mr. Shaheduzzaman Choudhury intimated later on that he was not be able to meet the condition.

Presently the Board of Directors of the Bank consists of 19 members including 01 Independent Director, out of which existing 5 (five) Directors shall retire from their Office at the ensuing General Meeting, who have been longest in office since re-elected/elected in the 8th Annual General Meeting of the Bank held on 29 June 2021 and expressed their intension to be re-elected. The Board has recommended for their re-election subject to approval of the shareholders in the ensuing AGM.

Appointment of Auditors

As per section 210 of the Companies Act 1994, the present auditor, M/s. Howladar Yunus & Co., Chartered Accountants was appointed for the second time in the 10th Annual General Meeting held on July 29, 2023 to act as External Auditor of the Bank for a period till to the date of next AGM. They are eligible for re-appointment for next term as per regulation of Bangladesh Bank and the Bangladesh Securities & Exchange Commission (BSEC). According to the Companies Act 1994, the shareholders are empowered to appoint external auditor(s) and fix their remuneration at Annual General Meeting, following which subsequent approval from Bangladesh Bank is to be obtained. The appointed external auditors have accreditation with them.

Future outlook

Considering the overall macroeconomic and geopolitical outlook, significant pressure is expected on banking sector profitability due to the volatile foreign exchange market, low benchmark rates, and limited financing opportunities, the Bank intends to focus on building and maintaining a quality loans portfolio, while enhancing its focus on customer service quality and cost rationalization initiatives through continuous improvement in automation and product innovations. The Bank intends to focus on a low-cost and no-cost core deposit mix by effectively utilizing its extensive branch network and agent banking operations. The Bank is confident that the above initiatives will enable it to maintain a stable performance trend going forward.

Acknowledgement

We, as the Board of Modhumoti Bank, are truly thankful to the government and our regulatory authorities for their guidance and wise counsel that has contributed to the bank's growth over the years. The Board appreciates the support and cooperation received from foreign correspondents of the Bank all over the world. We also acknowledge the efforts of all individuals who made Modhumoti Bank's success possible; they are truly at the heart of the organization, having built it to its current strength.

To our shareholders and customers, thank you for placing the highest trust and confidence in us. To our business partners and regulators, thank you for your unwavering support that has allowed us to prosper and grow to greater heights.

Finally, and more importantly, the Board thanks the communities in which Modhumoti Bank serves for embracing our presence and letting us be part of their journey.

On behalf of the Board of Directors,

Humayun Kabir
Chairman

Report on the activities of the Board's Audit Committee

One of the utmost responsibilities of a bank's Board of Directors is to establish a continuous process for identifying, evaluating, and managing the significant risks encountered by a company. This process encompasses enhancement of internal controls and compliance standards in response to changes in the business environment or updates in regulatory guidelines. As a part of this process, formation of a bank's Audit Committee of the Board and also its independent activities have become an integral part of good governance in all over the world, whether developed economies or emerging market & developing one. A bank's Board has given responsibility to its Audit Committee for review and further development of this surveillance process on behalf of them with motto that the systems governing internal control and compliance in place are sound and sufficient to provide reasonable reassurance regarding the reliability of risk management and control, financial reporting, and the process of preparation of financial statements is in line with relevant accounting principles and regulatory requirements.

It is obviously an honor and privilege for the Audit Committee of Modhumoti Bank PLC. for having opportunity of presenting a summary of its activities before the shareholders and other interested parties by means of this report following direction given by Bangladesh Securities and Exchange Commission (BSEC) Notification No. BSEC/CMRRCD/2006-158/207/Admin/80 dated June 03, 2018 titled as Corporate Governance Code 2018 and amendment thereof.

Constitution of the Audit Committee

Considering significant role of the Board's Audit Committee in assisting the Board in fulfilling its oversight responsibilities on the Bank's financial reporting, internal control systems, risk management systems and the internal and external audit functions for establishing and practicing corporate governance regarding the organization's direction, control and accountability to ensure 'good for all'; the Board of Directors of the Bank formed the Board's Audit Committee in their very first meeting held on August 01, 2013; the Terms of Reference (ToR) of which was adopted in accordance with BRPD Circular No. 11 dated 27 October 2013 and other policies and circulars of Bangladesh Bank issued from time to time.

The Audit Committee has been reformed from time to time since its first formation and lastly on October 28, 2023 in the 74th meeting of the Bank on the ground of reformation of the Board by the shareholders in the 10th Annual General Meeting of the Bank held on 29 July 2023 and subsequent approval process of Bangladesh Bank. All the members chosen are financially literate having long professional experiences and possess required qualifications in keeping with the spirit & objectives laid down in the regulatory guidelines and none of them belong to the Executive Committee of the Board. In addition, all the members are keen to ensure compliance with the financial, regulatory and corporate laws.

Current Composition of the Audit Committee

Name	Status in the Committee	Status with the Bank
Mr. Shaikh Salahuddin	Chairman	Vice-Chairman
Mr. A Mannan Khan	Member	Director
Mr. Md. Mahbubur Rahman	Member	Director
Advocate Syed Rezaur Rahman	Member	Independent Director
Company Secretary of the Board acts as the Secretary of the Committee.		

It may be mentioned here that Senior Advocate Mr. Yusuf Hussain Humayun and Mr. Shaheduzzaman Choudhury, FCA have played significant role in the Committee during their tenure prior to reformation of the Committee.

Scope of work of the Audit Committee

The Audit Committee of a bank is entrusted with comprehensive authority to investigate any matter within its terms of reference. This encompasses unrestricted access to all documents and information pertaining to the bank, the prerogative to seek information from any personnel, and the ability to co-opt any resources deemed necessary to execute its duties effectively, including engaging external professional assistance when required.

Nevertheless, it is imperative to acknowledge that the Audit Committee is devoid of any executive functions. Its paramount objective is to rigorously review and challenge, rather than assume responsibility for, the matters within its remit. This structure ensures that the Committee functions as an independent oversight body, dedicated to upholding stringent standards of internal control and compliance, thereby reinforcing the overall governance framework of the bank.

The scope of the Audit Committee of Modhumoti Bank PLC. is determined by its Terms of Reference (ToR), which in turn, are shaped mostly by directives from its principal regulators, mainly Bangladesh Bank with a view that the Audit Committee will assist the Board in fulfilling its oversight responsibilities. Scope of the work of the Committee include but are not limited to:

- ③ Review and oversee the financial reporting process,
- ③ Monitor choice of accounting policies and principles,
- ③ Monitor Internal Audit and Compliance process,
- ③ Oversee hiring and performance of external auditors,
- ③ Hold meetings with external auditors for review of financial statements,
- ③ Review annual financial statements before submission to the Board,
- ③ Review quarterly and half-yearly financial statements,
- ③ Review the adequacy of internal audit function,
- ③ Review statement of related party transactions,
- ③ Review Management Letters or Letters of Internal Control weakness,
- ③ Oversee determination of audit fees and evaluate auditor performance.

Roles and responsibilities of Audit Committee

The roles and responsibilities of Audit Committee have been defined in line with directions stipulated at BRPD Circular No. 11 of 27 October 2013 of Bangladesh Bank [Circular No. 02 dated 11 February 2024 presently] and provisions mentioned at Corporate Governance Code issued by Bangladesh Securities & Exchange Commission (BSEC), two paramount regulators for a bank-company as well as best practices of corporate governance; some important of which are highlighted below:

Internal Control

- ③ To evaluate whether the Bank's Management Authority has established an appropriate compliance structure, including a robust internal control system, by assessing the clarity of instructions given to officers and employees regarding their duties and responsibilities, and ensuring that effective supervision and control mechanisms are in place;
- ③ To review all steps taken by the Management Authority in developing a suitable Management Information System (MIS) for banking operations, including the creation and use of the bank's ICT platform, and shall issue necessary directions to ensure its effectiveness and compliance;
- ③ To review whether the Bank's Management Authority is properly complying with the recommendations made from time to time by the Bank's internal and external auditors regarding the internal control strategy/structure and shall issue necessary instructions;
- ③ To inform the Board regularly on any irregularities, fraud, internal control weaknesses or similar areas identified by the internal and external auditors and inspection teams of the regulatory authorities and the corrective measures taken. Further, if any non-conformities are observed in the audit committee's review, the management authority will be directed to take corrective action and the same will be duly informed to the board.

Financial Reporting

- ③ To verify whether full and proper information has been disclosed in the annual financial statements, ensuring that the rules and accounting standards prevailing in the country, as well as those set by Bangladesh Bank, have been adhered to in preparing these financial statements. For this purpose, the Audit Committee will evaluate whether the prescribed standards have been met;
- ③ To consult with Bangladesh Bank's inspection team, external auditors and Management Authority before finalization of the financial statements.

Internal Audit

- ③ To ensure that the internal audit function is conducted independently of Management;
- ③ To review the internal audit function and organizational structure and ensure that there are no unjustified impediments or restrictions to obstruct the audit process;
- ③ To verify the efficiency and effectiveness of internal audit and recommend necessary action accordingly;
- ③ To verify whether the Management Authority is duly following up on the observations and recommendations made by the Internal Auditors concerning the rectification of irregularities discovered during audits and in the conduct of the bank's operations, and will provide necessary instructions accordingly.

External Audit

- ③ To review the audit activities and audit reports carried out by the bank's external auditors;
- ③ To verify whether the Management authorities have properly considered the observations and recommendations made by the external auditors regarding the regularization of uncovered irregularities and fraudulent activities, as well as in the overall management of the bank's operations;
- ③ To submit recommendations to the Board regarding the appointment of external auditors from the list of external auditors announced by Bangladesh Bank from time to time for conducting the audit activities of the Bank.

Adherence with existing laws, rules and Regulations:

- ⦿ To review status of compliance on rules and regulations framed by the regulatory authorities (central bank and other bodies);
- ⦿ To review the formulation, implementation & compliance of internal policies, rules & regulations approved by the Board of the Bank.

Meeting of the committee

According to BRPD Circular No. 11 of 27 October 2013 of Bangladesh Bank [Circular No. 02 dated 11 February 2024 presently], the Board's Audit Committee of a bank shall hold at least 04 (Four) meetings in a year, following which the Board's Audit Committee of Modhumoti Bank held 04 (Four) meetings in the year 2023. With warm regards,

Shaikh Salahuddin
Chairman

Brief Report on **Corporate Governance**

Banks determine the destination of financial resources, which makes them a powerful engine of economic growth, as banks are the fulcrum of the payment systems and serve as a tool for execution of domestic monetary policy. Shortcomings in bank corporate governance can destabilize the financial system and pose systemic risks to the real economy, while well governed banks can contribute to the maintenance of an efficient and cost-effective supervisory process, as there is less need for supervisory intervention. As such, corporate governance is critical to the proper functioning of the banking sector and the economy as a whole.

Corporate governance is the mechanisms, processes and relations by which the entities are controlled and directed to bring transparency, accountability and professionalism in the management system of a corporate body that enhances the credibility and acceptability of the organization to the shareholders, employees, potential investors, customers, lenders, government and regulators and all other stakeholders. Corporate governance determines inter-relationship among the stakeholders, mostly between the Board of Directors and Management and also with controlling as well as minority shareholders. It contributes to development and increased access to capital encourages new investments, boosts economic growth, and provides employment opportunities.

Modhumoti Bank always conducts its business in an open and transparent manner. The Bank always likes to remain committed to achieve the highest standards of corporate governance which are critical to business integrity and to maintain investor's and stakeholders' trust and confidence in the Bank. The Bank's implementation as well as compliance status of the relevant provisions of guidelines by Bangladesh Bank and BSEC will be discussed in this section.

Corporate Governance Framework in banks

Corporate governance makes companies more accountable and transparent to investors and gives them the tools to respond to legitimate stakeholder concerns such as sustainable environmental and social development. Good corporate governance is necessary to enable companies operate more efficiently, to improve access to capital, mitigate risk and safeguard stakeholders interest. Corporate governance determines the allocation of authority and responsibilities by which the business and affairs of a bank are carried out by its Board and Senior Management, including how they:

- ④ set the bank's strategy and objectives;
- ④ select and oversee personnel;
- ④ operate the bank's business on a day-to-day basis;
- ④ protect the interests of depositors, meet shareholder obligations, and take into account the interests of other recognized stakeholders;
- ④ align corporate culture, corporate activities and behavior with the expectation that the bank will operate in a safe and sound manner, with integrity and in compliance with applicable laws and regulations; and
- ④ establish control functions.

A bank through its Board and Board's Committees endeavors to strike and deliver the highest governing standard for the benefits of stakeholders. In fact, corporate governance leads to good governance, which is also an integral part of sustainable economic development. The three important constituents of corporate governance in banks of Bangladesh are:

- ④ the Board of Directors;
- ④ the Shareholders;
- ④ the Management

According to Bank-Company Act, 1991, as amended from time to time, a bank-company registered in Bangladesh shall be a public limited company, the Board of which shall comprise with non-executive Directors, who is in center of the organization empowered to play a significant role for ensuring interest of other stakeholders, such as depositors, creditors, clients, employees, regulators etc. The important role of the shareholders is to hold the Board accountable for the proper governance of a company by enabling the Board to provide them periodically the required information in a transparent manner about the activities and progress of the company. The Management has the responsibility to undertake management of an organization in accordance with the direction provided by regulators as well as the Board, to put adequate control systems in place and to ensure their operation and to provide information to the Board timely and transparently, which enables the Board to monitor accountability of the Management.

Bangladesh Bank, the central bank of the country is empowered to issue necessary directives to banks under provision stated in the Bank-Company Act, 1991 and amended thereafter, following which they have issued Circulars/Circular Letters from time to time, through which separate roles and responsibilities of the Board and Management have been defined along with benefits and appointment procedures, which are to be followed by all banks. Bangladesh Securities and Exchange Commission (BSEC) has introduced Corporate Governance Code in 2018 separately, which is amended thereafter and requires to be followed by listed banks.

Corporate Governance Philosophy

A Bank's corporate governance philosophy encompasses not only regulatory and legal requirements but also various internal rules, policies, procedures and best practices of local and global banks. As a responsible corporate citizen, a Bank should be committed to sound governance practices based on integrity, openness, fairness, professionalism and accountability in building confidence among stakeholders

The corporate governance philosophy of banks is generally based on the following principles:

- ④ Creating value for all stakeholders without compromising ethical principles;
- ④ Ensuring fairness and equitable treatment of all stakeholders, including employees and shareholders;
- ④ Compliance with all applicable laws, rules and regulations, not only in letter but also in their spirit;
- ④ Ensuring transparency and accountability, and maintaining a high degree of disclosure levels with the motto 'when in doubt, disclose';
- ④ Embracing a trusteeship model in which management is the trustee of the shareholders' wealth and not the owner;
- ④ Establishing a sound system of risk management and internal controls with adequate safeguards and early warning systems.

Corporate Governance at Modhumoti Bank PLC.

Modhumoti Bank PLC. presently renamed as Modhumoti Bank PLC. is registered as a public limited company under Companies Act 1994, licensed by Bangladesh Bank under Bank-Company Act 1991 and amended thereafter and guided mainly by Bangladesh Bank in its corporate governance practices, since the Bank is yet to be listed with any stock exchange.

Modhumoti Bank emphasizes its effective corporate governance principles, transparency in business transactions, statutory and legal compliances, protection of shareholders' interests; commitment to values and ethical conduct of business. Due importance is given to major parameters of corporate governance such as Board system and its independence, function of Board's sub-committees, internal control over financing reporting, transparency, disclosures and compliance etc. All our banking activities are guided by key principles of good governance.

The Bank's governance framework is premised on competent leadership, effective internal controls, a strong risk culture and ownership and accountability to all our stakeholders, including our customers, shareholders, employees, society and regulators. The Bank has an active Board that plays a key role in setting our governance standards to meet stakeholders' expectations, while our leadership and operating model ensures an appropriate balance of power, accountability and independence in decision making across various functions of the Bank. Further, robust mechanisms have been put into place to ensure that corporate governance principles are embedded deep in our corporate culture. The Bank has also adopted best practices in terms of disclosure, transparency and business ethics aimed at adding value to stakeholders' expectations and is eager to follow corporate governance practices in all respects of the Corporate Governance (CG) Code and guidelines issued by Bangladesh Bank from time to time. The Bank is committed to continually review its corporate governance policies and guidelines to ensure transparency in its practices and delivery of the highest ethical standards and quality information dissemination to stakeholders on an ongoing basis.

Code of conduct and ethical guidelines

Every bank should have own code of conduct and ethical guidelines. The code of conduct sets the principles for the stakeholder-members of the Board of Directors and its committees, employees of all levels and categories of banks and Non-Bank Financial Institutions (NBFIs), business partners and service providers and receivers to and from banks and NBFIs to keep uphold and promote the interests of these institutions. The principle objective of this set of code of conduct is to protect the interests of customers, owners and employees, stakeholders of all types of banks and NBFIs as well as the counterparties, in addition to the wider interests of the society as a whole, for which Bangladesh Bank framed a Code of Conduct for Banks and Non-Bank Financial Institutions in 2017 with expectation that this guidelines will be treated as a minimum requirement but not limited to this instruction given. In line of the business of its own, bank and NBFIs can develop it to their end. Modhumoti Bank has already prepared a Draft, which is under process of further analysis and to be submitted before the Board for approval shortly. Main principles of Code of Conduct and Ethical Guidelines may be stated as follows:

- ③ **Compliance of laws:** All employees are to follow and comply with the laws of the land and internal rules and regulations of the Bank.
- ③ **Integrity of records:** All employees are expected to maintain books and records with integrity and ensure accuracy and timeliness of all transactions. They should shore up the privacy of the customers' affairs. Then as well, employees must not divulge the Bank's plans, methods, and activities, considered by the employer to be proprietary and classified 'confidential'. Moreover, employees are not expected to disclose such information without proper authorization.
- ③ **Misappropriation of assets:** No employee shall convert any funds and properties which are not legitimately theirs to their own use and benefit, nor deliberately assist another person in such exploitation.
- ③ **Conflict of interest:** Employees must not use their position in the Bank for personal emolument or to obtain benefits for themselves or members of their families or friends. Employees should be aware of conflicts of interest and should declare any such conflict.
- ③ **Speculation in stocks:** Employees and their dependents should not speculate/trade in stocks, shares, securities or commodities of any description nor are connected with the formation or management of a joint-stock company.
- ③ **Honesty and integrity:** Employees are expected to act honestly and with integrity at all times. They should act uprightly and equitably when dealing with the public and other employees of the Bank.
- ③ **Acceptance of gift:** Employees are highly discouraged to accept gifts, benefits (cash or kind) or facilities from customers or persons having business interest with the Bank. If an employee has to receive any such thing for the sake of mutually beneficial relationship, he or she must disclose it with his/her line manager.

It is expected that all the employees will be committed to adhere to the Code of Conduct and are expected to demonstrate highest level of ethical standards. They are also expected to undertake at all times to comply with or adhere to all applicable laws and regulations of the country, policies and instructions of the Bank, wherever they operate.

Corporate social responsibility

Modhumoti Bank has already promulgated a well-defined policy on Corporate Social Responsibility (CSR) with some specific objectives prepared in the light of Bangladesh Bank's guidelines stating the Bank's commitment to its stakeholders to conduct business in an economically, socially and environmentally sustainable manner that is transparent and ethical so that stakeholders are not negatively impacted for the activities of the Bank. The stakeholders include employees, investors, shareholders, customers, business partners, clients, civil society groups, Government and non-government organizations, local communities, environment and society at large. Our approach continues to focus on two key priorities: contributing to sustainable economic growth and being a responsible company.

Our system of corporate governance provides the basis for the responsible management, transparency of processes and compliance to regulatory bodies with a focus on sustainable value creation. Since the inception, the Bank actively participated in many endeavor as part of the CSR activities of the Bank. Sustainable Finance Unit of the Bank looks after the CSR activities of the Bank including reporting in the prescribed format to Bangladesh Bank in timely manner.

The Board of Directors

In BRPD Circular No. 11 dated 27 October 2013, Bangladesh Bank mentioned that the Board of Directors of a bank should be comprised with competent and professionally skilled persons with a view to formulating policy-guidelines and supervising business activities of the bank efficiently as well as ensuring good governance in the bank management. The responsibilities of the board of directors of a bank-company are more important than those of other companies; because in case of a bank-company it is essential to earn and maintain confidence of the depositors as its business is mainly run with the depositors' money.

According to guideline by Bangladesh Bank, the onus of setting strategic aims and goals of the company is on the Board, which is responsible for both designing and implementing governance mechanism including appointment and supervision of respective Board Committees and Top Management, wherein the Managing Director & CEO is also an ex-officio member of the Board. Alike other banks, the Board of Directors of Modhumoti Bank plays pivotal role in bank-governance through their far sighted decision and visionary leadership that drive the company to keep sustainable growth, while the Management under leadership of Managing Director & CEO assumes responsibility for the day-to-day operations.

Structure of the Board of Directors

Usually structure of directors on the Board is determined by the shareholders of a company in their meeting as set out in the Articles of Association, while the newly amended Section 15 of the Bank-Company Act, 1991 (Amended up to 2023) includes provisions for prior approval of Bangladesh Bank before the appointment/re-appointment of new bank directors, as well as dismissal, termination or removal of any director from the post; director's fit & proper criteria; maximum number of directors; appointment of independent directors; appointment of maximum 3 (three) members from a family as director etc.

In Modhumoti Bank, the number of directors on the Board is determined by the meeting of shareholders, which shall not be less than 7 (seven) or more than 20 (twenty) excluding Managing Director & CEO, as set out in the Bank's Articles of Association. The election of Board members follows the resolution of the shareholders' meeting. Besides, election/re-election of directors is required to be dealt with following Companies Act 1994, Bank-Company Act 1991 and amended thereafter. At every annual general meeting, one-third of the directors shall retire. The retired directors may be re-elected, subject to complying rules/regulations of regulatory bodies in this regard. The Board elects one of its directors as the Chairman and one as the Vice-Chairman. The Chairman presided over the meetings and headed Board's activities.

In the Tenth AGM of the Bank held on 29 July 2023 lastly, the Board was constituted with 20 members including 2 (two) Independent Directors, though presently the Board of Directors of the Bank consists of 19 members including 01 Independent Director. Senior Advocate Mr. Syed Rezaur Rahman was appointed as Independent Director for the first term, while Mr. Shaheduzzaman Choudhury, FCA was re-appointed for another term of 3 (three) years. Bangladesh Bank accorded approval of appointment subsequently with condition of resignation of Mr. Shaheduzzaman Choudhury, FCA from the Board of other companies, but Mr. Shaheduzzaman Choudhury intimated later on that he was not be able to meet the condition.

Key Roles and Responsibilities of the Board of Directors

The Board of Directors performs very important role in the system of the corporate governance. The Board is accountable to the stakeholders and directs and controls the Management. It stewards the company, sets its strategic aim and financial goals and oversees their implementation, puts adequate internal controls in place and periodically reports the activities and progress of the company in a transparent manner to all the stakeholders, which may be illustrated as follows:

- ⦿ **Governance:** The Board establishes structures and processes to fulfill board responsibilities that consider the perspectives of investors, regulators and management, among others. The board selects its members and leader(s) via an inclusive and thoughtful process, aligned with company strategy.
- ⦿ **Strategy:** The Board advises management in the development of strategic priorities and plans that align with the mission of the organization and the best interests of stakeholders, and that have an appropriate short-, mid- and long-range focus. The Board also actively monitors management's execution of approved strategic plans as well as the transparency and adequacy of internal and external communication of strategic plans.
- ⦿ **Performance:** The Board reviews and approves company strategy, annual operating plans and financial plans. It also monitors management execution against established budgets as well as alignment with strategic objectives of the organization.
- ⦿ **Integrity:** The Board sets the ethical tenor for the company, while management adopts and implements policies and procedures designed to promote both legal compliance and appropriate standards of honesty, integrity and ethics throughout the organization.
- ⦿ **Talent:** The Board selects, evaluates and compensates the CEO and oversees the talent programs of the company, particularly those related to executive leadership and potential successors to the CEO. The Board communicates executive compensation and succession decisions in a clear manner.
- ⦿ **Risk governance:** The Board understands and appropriately monitors the company's strategic, operational, financial and compliance risk exposures, and it collaborates with management in setting risk appetite, tolerances and alignment with strategic priorities.

According to Bangladesh Bank's BRPD Circular No. 11 dated 27 October 2013 [Circular No. 02 dated 11 February 2024 presently], the Board is responsible to set the vision, mission and policies of a bank and to determine the goals, objectives and strategies to ensure efficient utilization of the Bank's resources. The key roles and responsibilities of the Board of Directors, as envisaged in the Circular include the following:

- ⦿ Lay down a code of conduct for all Board members and senior management;
- ⦿ Monitor effectiveness of the Bank's governance practices and review changes from time to time as needed and identify opportunities for further strengthen of corporate governance standards;
- ⦿ Review and set up annual performance targets of the Bank and also analyze reasons for success or failure of the bank's annual budget achievement from time to time;
- ⦿ Periodic review of the Bank's operational achievements;

- ⊕ Review of sufficiency and requirement for internal control efforts of the Bank and ensure stronger internal controls;
- ⊕ Undertake risk management initiatives;
- ⊕ Accord approval of policies and operational manuals to establish an effective risk management framework in core banking areas and internal control;
- ⊕ Purchase or acquisition of property for the Bank;
- ⊕ Appoint Managing Director and CEO and fixation of benefits;
- ⊕ Provide welfare benefits to employees;
- ⊕ Review the Bank's human resource (HR) policy;
- ⊕ Determine the Bank's corporate social responsibility status and taking steps for its improvement

Key Role and Responsibilities of the Chairman of the Board

The Board of Modhumoti Bank is headed by Mr. Humayun Kabir as Chairman, who has been elected from the non-executive Directors of the Bank. In the absence of the Chairman, the Vice-Chairman would preside a particular Board Meeting and in his absence, the remaining members of Board of Directors would elect one of themselves as Chairperson for a specific meeting. The reason of absence of the regular Chairperson is to be recorded in the minutes.

The Role and responsibilities of the Chairman of the Board of Directors of a bank-company is clearly stated in Bangladesh Bank's BRPD Circular No.11 dated 27 October 2013 [Circular No. 02 dated 11 February 2024 presently], which the Bank's Chairman also follows:

- ⊕ Set the Board's Agenda and plan Board Meetings;
- ⊕ Chair all Board Meetings, directing debate towards consensus;
- ⊕ Ensure the Board receives appropriate, accurate, timely and clear information;
- ⊕ Chair the AGM and other Shareholders' Meetings to foster effective dialogue with Shareholders;
- ⊕ Ensure that the Board sets and monitoring implementation of the Bank's direction and strategy effectively;
- ⊕ Act as the Bank's lead representative, explaining aims and policies to the Shareholders;
- ⊕ Ensure no participation in or interference into the administrative or operational and routine affairs of the Bank;
- ⊕ Provide overall leadership to the Board, setting vision and driving innovation, working closely with the CEO;
- ⊕ Conduct (if required) on-site inspection of any bank-branch or financing activities under the purview of the oversight responsibilities of the Board.

Board meetings and attendance

Meeting of the Board of Directors is held on regular basis following minimum 7 days' Notice generally to every Director specifying day, date, time and full address of the venue, but emergency meeting may be called as and when required. The Agenda to be transacted at the meeting along with Memorandum [Notes to the Agenda] are to be circulated prior to the meeting. Annual Appraisal of the Board's Performance

At Modhumoti Bank, the Board sets and approves business target at the beginning of each year, usually at the end of previous year and monitors the status of the same periodically to ensure achievement of the target. The Board's performance is mostly dependent on the achievement (under or over) of business target. Besides, the performance reports of supporting committees of the Board are also placed in the Board meeting. Shareholders evaluate performance of the Board at Annual General Meeting (AGM) through evaluation of financial position and performance of the Bank, its adequacy and effectiveness of internal control system and overall governance mechanisms. The shareholders also ask questions and make queries to the Board of Directors during AGM and the Chairman of Board gives a patient hearing and response to their queries.

Key Roles and Responsibilities of Managing Director & CEO

Managing Director & CEO has been given many responsibilities at the BRPD Circular Letter No. 18 dated 27 October 2013 issued by Bangladesh Bank [Circular No. 02 dated 11 February 2024 presently], core responsibilities of which is stated below:

- ⊕ In terms of the financial, business and administrative authorities vested upon him by the Board of Directors, the CEO shall discharge his own responsibilities. He shall remain accountable for achievement of financial and other business targets by means of business plan, efficient implementation thereof and prudent administrative and financial management.
- ⊕ The recruitment, promotion and all other staff issues of the bank except those in the two tiers below him shall rest to the CEO. He shall act in such cases in accordance with the approved service rules on the basis of the human resources policy as approved by the Board of Directors.
- ⊕ The CEO shall include clearly any violation from Bank-Company Act 1991 and/or other relevant laws and regulations in the 'Memo' presented to the meeting of the Board or any other Committee(s) engaged by them.
- ⊕ The CEO shall ensure compliance of the Bank-Company Act 1991 and other relevant laws and regulations in discharging routine functions of the bank and shall report to Bangladesh Bank on issues which are in violation of the Bank Company Act 1991.

Annual Evaluation of the MD & CEO by the Board

The Board makes annual evaluation of MD & CEO through various reports like financial position and performance report of the Bank, knowing update of various assignments given by the Board to the CEO and the Management from time to time and doing variance analysis of budget with actual result and steps taken by CEO to achieve the budgeted target. Among the financial parameters; NPL ratio, growth of loan & deposit, cost to income ratio, loans write off and its recovery, capital adequacy ratio, advance deposit ratio etc. The Board reviewed the overall business performance of the Bank from time to time.

Due to Covid-19 pandemic situation in 2020, bank-business has seriously been affected globally, which has also been reflected in Bangladesh and became more crucial as adversely been affected due to Russia-Ukraine war and as such it was unlikely for Modhumoti Bank or any other bank of the country avoiding such adverse situation. To overcome the situation, Bangladesh Bank has come forward with policy support by allowing softer terms, no doubt that the directives of Bangladesh Bank helped the banking sector as a whole in this regard. The Bank has taken steps to improve portfolio performance by ensuring stringent loan monitoring, especially focus on reducing NPL and be able to ensure minimal NPL at the end of 2023, which would also continue in 2024.

Benefits provided to Directors and Managing Director

Directors are not eligible to any remuneration other than for attending any meeting of the Board and its Committee. The Chairman of the Bank is allowed to receive facilities in line with BRPD Circular No. 11 dated 27 October 2013 issued by Bangladesh Bank [Circular No. 02 dated 11 February 2024 presently]. Directors are allowed for re-imbursement of their expenses in accordance with provisions stated in BRPD Circular No. 11, dated 27 October 2013 and BRPD Circular Letter No. 11 dated 04 October 2015 issued by Bangladesh Bank. It may be mentioned here that Independent Directors are allowed for a monthly honorarium in addition to meeting fees according to BRPD Circular No. 03 dated 14 February 2024, which the Bank has implemented from March 2024.

The Managing Director enjoys salary & allowances and other facilities according to his service contract duly approved by Bangladesh Bank.

The Management and its Committees

The functions of the Board and the Management are clearly defined and sharply bifurcated. It may be mentioned that the Management is an extended wing of the Board executing policies and procedures set by the Board for the greater interest of shareholders and other stakeholders. The risk management and overall support functions of the Bank has been designed and kept fully independent from business to guard against any unforeseen events that undermine the brand value of the Bank.

The Management Team is headed by the Managing Director & CEO Mr. Md. Shafiu Azam, who has long banking experience. The Management implements and acts within the policies and manuals approved by the Board. A clearly defined organizational structure with definite lines of responsibility and delegation of powers to different echelons of the Management are in place in the Bank. The Management enjoys full freedom in conducting the business of the Bank within the scope of the policy guidelines by the Board and the regulatory bodies. However, the Board and the Management work in unison for the continued well-being of the Bank.

To streamline the functions of different divisions / departments of the Bank, the Management has formed many Committees to identify and mitigate risks associated with the business and handle operations smoothly as advised by Bangladesh Bank from time to time, of which Senior Management Team (SMT), Management Committee (MANCOM), Asset and Liability Committee (ALCO), Credit Risk Management Committee, Executive Risk Management Committee, Management SRP Team and Basel Unit (Supervisory Committee) are playing pivotal role in assisting the CEO to run the Bank effectively and efficiently. These Committees regularly review issues related to the markets, credit & liquidity and, accordingly recommend and implement appropriate measures to proactively identify and mitigate risks. A well-defined process for credit approval is being followed in the Bank, wherein Credit Evaluation Committee (CEC) at Head Office also assists the Management in assessing, approving and managing credit risk.

Senior Management Team (SMT)

As Bangladesh Bank suggested to set up a strong and effective control framework within the organization, the Board of Directors of Modhumoti Bank PLC. has defined/formed a Senior Management Team (SMT) headed by Managing Director & CEO, wherein the Chief Financial Officer (CFO)/ Head of FAD would act as Member Secretary. Any officer that perform a policy making function or is In-charge of a principal business unit/function may be member of SMT except any executive of ICCD. Any unresolved issue between SMT and ICCD to be referred to the Board of Directors through ECB and ACB respectively and may even to Bangladesh Bank, if needed. The Central Bank suggests following functions of Senior Management Team (SMT):

- ② SMT should monitor the adequacy and effectiveness of Internal Control System based on the bank's established policy and procedure.
- ② SMT shall review the overall effectiveness of the control system of the bank and provide a certification on a yearly basis to BOD on the effectiveness of internal control policy, practice and procedure.
- ② Management will enrich audit teams with adequate skilled manpower and proper IT support as per requisition of the ACB for purposeful and effective audit.
- ② Management will ensure compliance of all laws and regulations that are circulated by various regulatory authorities such as, Bangladesh Bank, Ministry of Finance, Bangladesh Securities and Exchange Commission etc.
- ② During the audit period, if the present audit team finds any lapse or irregularity which was not detected / identified by the previous auditor, then that will be reported to the Audit Committee.

Management Committee (MANCOM)

MANCOM is lead by Managing Director & CEO as an Ex-officio Chairman, where related topics for ensuring internal control system are usually discussed, which is practiced in the country since long, introduced initially by the central bank. The major responsibility of the Committee is to control overall management of the Bank and decide the extent of the Internal Control System, which is appropriate to the Bank.

The roles of the MANCOM are as under:

- ② Setting out a strong Internal Control Framework within the Bank by establishing an Internal Control & Compliance Division. In this regard, the role of Managing Director is very important.
- ② With governance & guidance from the Board of Directors, the MANCOM shall put in place policies and procedures to identify, measure, monitor and control Bank's core risks.
- ② The MANCOM will, if necessary, put in place an Internal Control Structure of the Bank assigning/segregating clear responsibility & duty, authority, reporting relationship etc.
- ② The MANCOM will monitor the adequacy and effectiveness of the internal control system based on the bank's established policy & procedure so that the system can meet the statutory requirements, safeguard the Bank's assets and provide adequate Management Information System (MIS) for the proper control of the business.

Asset Liability Committee (ALCO)

Asset Liability Committee is headed by the Managing Director & CEO and consists strategically important Divisional Heads of Head Office as member, wherein the Head of Treasury acts as the secretary. The meetings of the Asset Liability Committee are usually held in every month chaired by the Managing Director. The Committee is mainly responsible for managing Balance Sheet gap (minimizing mismatch between Deposits and Loans & Advances), interest rate risk and liquidity risk of the Bank.

The roles of the ALCO are as under:

- ② To monitor asset liability management of the bank as per guidelines of Bangladesh Bank.
- ② To review reports on liability risk, market risk and capital management issues.
- ② To review monthly Balance Sheet (specific type) in order to understand balance sheet risk.
- ② To review key management indicators for managing risk and exposures.
- ② To review loan-deposit ratio in respect of its limit, utilization, trend behavior.
- ② To review deposit-pricing strategy for the local market.
- ② To identify balance sheet gaps, interest rate gap/profile etc.
- ② To review the loan-pricing strategy
- ② Any other matter that may arise from time to time.

Internal Control System

Internal Control is a process developed by an organization in combination of policies & procedures in order to provide safe & sound operations within the organization which also helps to achieve its goals and objective. In other words, Internal Control is the process, effected by a Bank's Board of Directors, management and other personnel, designed to provide reasonable assurance regarding the achievement of objectives in the effectiveness and efficiency of operations, the reliability of financial reporting and compliance with applicable laws, regulations and internal policies. External events can interfere with achievement of objectives, no matter how good is the system of internal control. Internal control is more than a structure, consists of policies and procedures.

- ⊕ Policies are Board or Management statements about what should be done, and may even be unwritten and implied by management's actions.
- ⊕ Procedures are the actions that implement a policy or how it should be done.

International Standards on Auditing (ISA)-400 refer the term 'Internal Control System' as all the policies and procedures adopted by the management of an entity to assist in achieving management's objective of ensuring, as far as practicable the orderly and efficient conduct of its business, including:

- a) adherence to management policies;
- b) safeguarding of assets;
- c) prevention and detection of fraud and errors;
- d) accuracy and completeness of the accounting records; and
- e) Timely preparation of reliable financial information.

The responsibility of implementing internal controls starts with the following ways:

1. The business lines, which are the 'first lines of defense' against breaches that could cause the bank not to fulfill its objectives not to report properly or not to comply with laws and regulations.
2. Risk management & compliance, which are the 'second lines of defense' against mishaps.
3. Internal audit functions are the final or 'third line of defense'.

To establish an effective internal control system a bank must enforce three important control functions in its activities. These are:

- ⊕ Risk management
- ⊕ Compliance
- ⊕ Internal audit

Effective anti-money laundering and anti-terrorism program

Under precautionary priorities, the Bank is committed to protect itself from money laundering activities in line with global best practices. Besides the compliance of legal obligation, Modhumoti Bank considers prevention of money laundering as one of its core business values. The united force of Board of Directors and the Senior Management enhances our commitment to combat money laundering. Every year memos, circulars and messages are issued from the high-ups of Management recalling the importance of this issue. Modhumoti Bank has formed Anti-Money Laundering Department since inception of the Bank, which has continuously engaged in developing an effective AML System that are required to prevent, detect along with name screening and transaction monitoring for effective implementation of anti-money laundering and antiterrorism strategies including reporting of money laundering activities following regulatory directives.

For effective anti-money laundering and anti-terrorism program, Modhumoti Bank has formed Central Compliance Committee (Triple C) comprised of CAMLCO, Deputy CAMLCO and Heads of related Departments/ Divisions. The roles of Central Compliance Committee (Triple C) include defining and developing AML /CFT compliance policies, strategies & programs aligned with international and national standards and regulations and evaluate the same from time to time, supervising the effective implementation of AML/CFT annual program of AMLD jointly with CAMLCO, meeting at least quarterly to review policies, assessing overall compliance status of the Bank and issue directives in this regard, submitting half yearly Reports to MD & CEO on progress of implementation of AML/CFT related measures with recommendations, directing AMLD to issue instructions for adherence by branches and departments relating to policy and procedures on KYC/ CDD/ EDD, Transaction Monitoring/ Screening, etc. and nominating BAMLCOs/DAMLCOs having requisite skill sets, experience and rank. Triple C meetings have been executed quarterly and decisions taken in these meetings have been implemented timely. Specialized trainings have been arranged for BAMLCOs/DAMLCOs for AML/CFT measures.

Management Information System (MIS)

An effective reporting system of information that is relevant to decision making shall exist in the Bank. Those information shall be reliable, adequate, timely accessible and to be provided in a consistent format. The reporting system shall include the followings:

- a) All necessary external market information about events & conditions, which are relevant to decision making as well as internal information i.e. financial, operational & compliance data, shall be available in time.
- b) There shall be appropriate committees within the Bank, which will evaluate data received through various information systems. This will ensure supply of correct & accurate information to the management.
- c) Internal information shall cover all significant activities of the bank. These systems including those that hold and use data in electronic form shall be secured, monitored independently and supported by contingency arrangements.
- d) Most importantly the channels of communication shall ensure that all staff fully understand and adhere to policies and procedures effecting their duties and responsibilities and that other relevant information is reaching the appropriate personnel.

Appointment of External Auditors and restriction of their service involvement

The shareholders of the Bank in its Tenth Annual General Meeting held on 29 July 2023 re-appointed M/s. Howladar Yunus & Co., Chartered Accountants as external auditor of the Bank for the year 2023, who are enlisted with Bangladesh Bank and BSEC. No partner or employees of the external audit firms shall possess any share of the Bank. Following Corporate Governance Guidelines of BSEC, the statutory auditor shall not involve in the following services of the Bank:

- ⊕ Appraisal or valuation services or fairness opinions;
- ⊕ Financial information systems design and implementation;
- ⊕ Book-keeping or other services related to the accounting records or financial statements;
- ⊕ Broker-dealer services;
- ⊕ Actuarial services;
- ⊕ Internal audit services or special audit services;
- ⊕ Any other service that the Audit Committee determines.
- ⊕ Audit or certification services on compliance of corporate governance as required by Corporate Governance Code;
- ⊕ Any other service that creates conflict of interest;
- ⊕ No partner or employees of the external audit firms shall possess any share of the company they audit at least during the tenure of their audit assignment of that company.

Role of External Auditors in Evaluating Internal Control System

- ⊕ External Auditors by dint of their independence from the management of the bank may provide unbiased recommendations on the strength and weakness of the internal control system of the bank & should incorporate their findings in the management report.
- ⊕ They may examine the records, transactions of the bank and evaluate its accounting policy, disclosure policy & methods of financial estimation made by the Bank; this will allow the board and the management to have an independent overview on the overall control system of the bank.

Integrated Reporting

Modhumoti Bank PLC., has been contributing to the socio-economic development activities of the country from the year of 2013. In meeting the aspirations and expectations of the customers, the Bank offers a wide variety of deposit and loan products that contribute to improve their life style. This report narrates our impact on our customers and society and thus in preparing and presenting our 2023 Integrated Reporting, we have followed an organization wide integrated reporting process. This process is governed by our Board and led by our Management.

This IR is prepared in accordance with the International <IR> Framework of the International Integrated Reporting Council (IIRC), 2013 and revised International <IR> Framework as published in January 2021, which has become effective for reporting periods commencing January 2022.

Qualitative Characteristics of our Integrated Report

Competitive Intensity

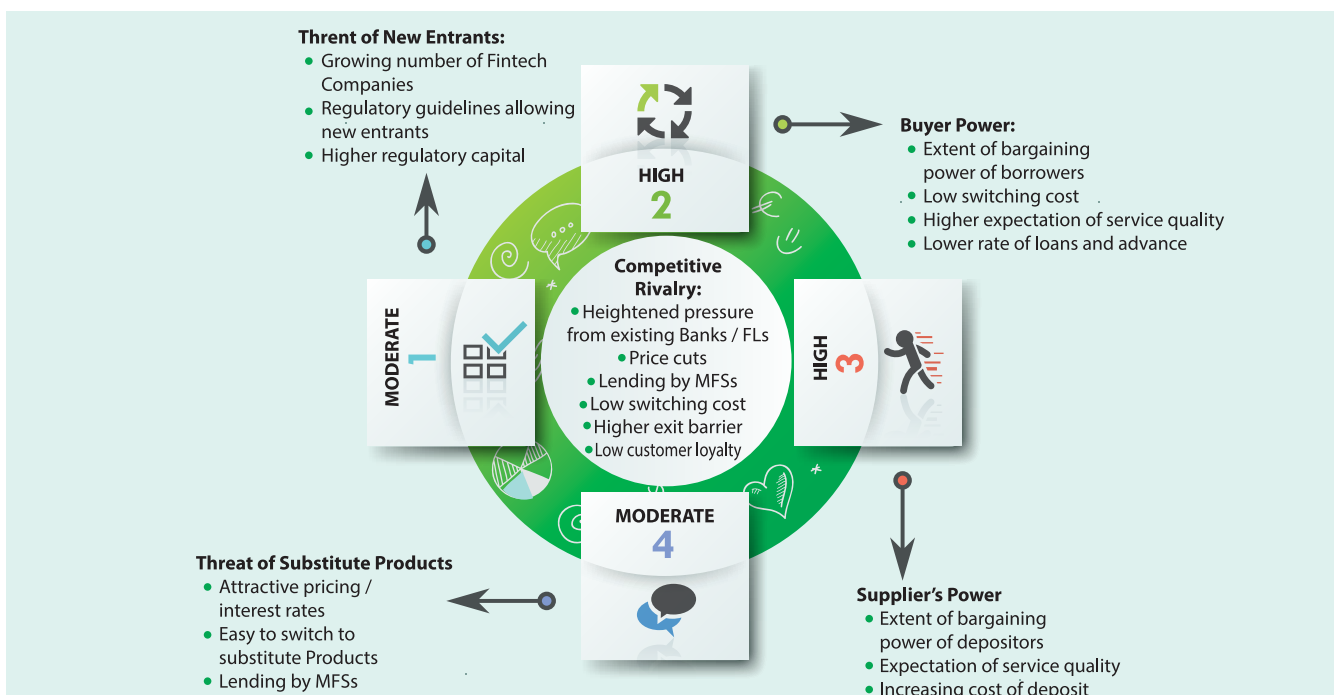

Banking industry is considered as one of the most significant drivers in strengthening the soundness of an economy in terms of investment, job creation, income generation, facilitating flow of funds nationally and globally. It is assumed that the present state and attractiveness of the industry can be assessed by applying Porter's Five Forces Model. Porter's model incorporates five dimensions i.e. Competitive Rivalry, Bargaining Power of Suppliers, Bargaining Power of Buyers, Threat of Substitutes and Threat of New Entrants. It has been objectively assessed that Competitive Rivalry is negative as 57 banks operate with more than 9000+ branches where the market share is segregated. Bargaining Power of Buyers is high as the customers are very rate sensitive while Threat of New Entrants is also negative. Mobile Financial Services (MFS) are gaining huge momentum. The Bargaining Power of Suppliers is not high as there are idle fund of Tk.1140 billion and shareholders are risk averse. Threat of Substitutes is also negative considering the similar lending and deposit services by the NBFIs and MFS substituting the transfer of funds. Considering the negative dimensions (4) over positive (1), it can be inferred that currently the industry is not attractive along with other factors that have influence on the Five Forces

Our strategic response to competitive intensity

To attain the competitive edge, this is utmost important for the Bank to identify the risk factors and competitive forces that shape the banking industry. As a growing Bank, Modhumoti Bank PLC. has comprehensive risk management framework to identify and mitigate concerned risk issues arising from acute competition in the market. This approach not only protects the Bank from adverse circumstances but also helps enhance its operational viability and sustainability.

We pay close attention to the environment in which we operate, scanning the horizon for risks and opportunities, and adapting our strategy accordingly. We also monitor trends in the behavior of our existing and prospective customers so that the Bank can effectively meet their changing needs. We believe that our operational excellence is the most effective competitive advantage, while our size, scale, reach and influence remain as our biggest safeguard against competitive pressures. The Bank is always in the process of investing in its human resources, technology, products and customer services/experiences with a view to build on our competitive strengths.

Competitive intensity level

Threat of New Entrants: Moderate

Over the couple of years, a number of new banks entered & some digital banks are ready to enter the banking industry whereas the market is already crowded by banking industry though the regulatory requirements and minimum capital (Tk.500 crore) requirements are comparatively high. This risk will be intensified due to the new entrants of Fin-Tech companies. These are normally well-funded entrants and can disrupt the market. Further, it is also possible that existing banks may resort to unsustainable and unsubstantiated practices that can create short-term disruptions.

Our response

Modhumoti Bank, believes in customer-first philosophy and, is focused on continuous services excellence through innovative product and services innovation and continuous investment in digitization of services which will help us counter any external market-driven pressures. The Bank is also expanding its businesses through ensuring proper mix of funded and non-funded exposure which will safeguard the Bank against its new competitors.

Competitive Rivalry: High

Rivalry is the competitive struggle between banks in an industry to gain market share from each other. It is competing for position whereby banks use tactics like price competition, advertising battles, product introductions, quality competition and increased customer service or warranties. The competitor is the first to be dealt in competitive environment. At present, 61 Banks and 35 NBFIs operating in the country. In addition, there are 259 Fin-Tech startups and 13 MFSs companies are operating in Bangladesh. The level of loyalty of customers is low as the switching cost is low due to large number of banks operating in country which engaged in price wars among themselves to take over the existing customers.

Our response

Modhumoti Bank always focusing on good quality customers in terms of depositors as well as borrowers. Although, the banking industry facing a crucial moments due to crunch of liquidity, volatility in foreign exchange market, high NPL ratio, high write-off loan ratio the Bank ensured desired profitability in the year of 2023. The Bank provides superior customer services through innovative products and services, safe and secure digital banking channels and prompt grievance resolution mechanisms.

Supplier Power: High

Suppliers can pressurize an industry through price increments or quality reduction of the purchased products. Powerful suppliers can squeeze the profitability of banking industry so far that they can't recover the costs of raw material inputs. Customer deposits are the main source of funds for the banking industry and as such their bargaining power is strong in Bangladesh especially institutional/corporate depositors. They have ample choices as there are numerous financial institutions operating in the country which empowered them the most. However, small depositors on the other hand have lower bargaining power. This prompted depositors to look for other avenues such as National Savings Certificate (NCS), Equity Investments and so on.

Our response

As a competitor, the Bank always try to satisfy its customers in terms of profitability, service quality, innovative products, strong corporate relationship etc. We focus on offering the best services for the depositors along with lucrative interest rate which help the Bank to draw low-cost funds from the market through utility collection booths and large number of small depositors through Agent Banking channel of the Bank. We also offer a wide range of fixed deposit (FD) products across varying tenures that meet many financial and socio-economic needs and expectations of our deposit-holders.

Buyer Power: High

Buyers may threaten an industry by forcing down prices, bargaining for higher quality or more services, and playing competitors against each other. This consequently reduces profitability. The power of each buyer group depends on the attributes of the market situation and the importance of purchases from that group compared with the overall business industry. Buyers of banking services are institutions, organized groups, Non-Governmental Organizations, Faith Based Organizations, Community Based Organizations and individual clients

Our response

The Bank always help the borrowers in case of their difficult time e.g. the Bank arranged foreign currency support for the borrowers during the volatile foreign currency market. On the other hand we offer the lowest loan TAT (turnaround time) to eligible borrowers that greatly facilitate them in meeting their emergency needs. Further, our ability to customize/personalize products to suit the diverse requirements of our customers is a major advantage that helps us for maintaining stronger relationships with them.

Threat of Substitute Products: Moderate

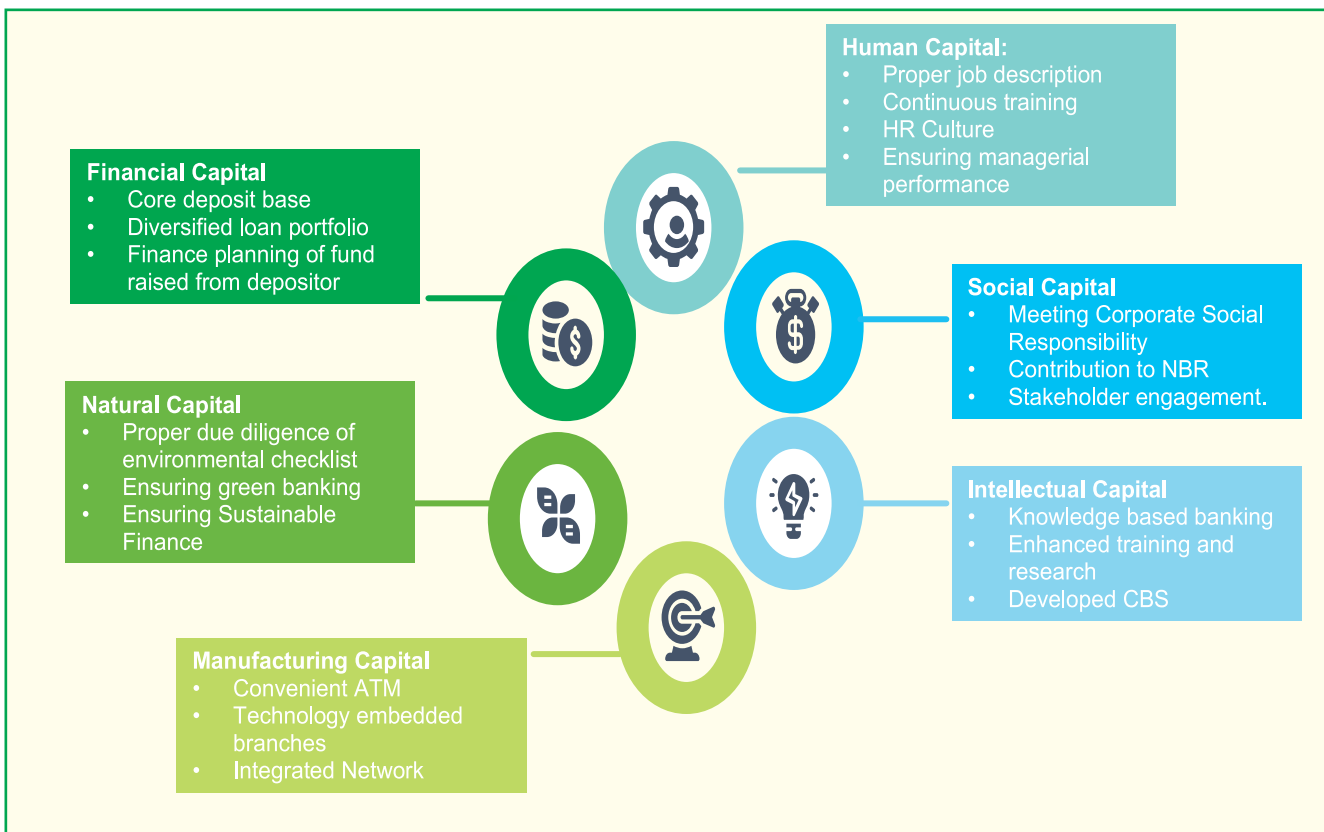

Each bank within the industry competes with other banks producing substitute products and services because substitutes reduce the potential returns of an industry by placing a ceiling on the prices that banks in that industry can profitably charge. Identifying substitute products involves searching for other products or services that can perform the same function as the industry's products (www.simonfoucher.com). Similarly to the threat of new entrants, the threat of substitutes is determined by factors like brand loyalty of customers, close customer relationships, switching costs for customers, the relative price for performance of substitutes, current trends.

Our response

Competition from substitute products pushes industry participants heighten efforts to convince customers their product & service have attributes that are superior to those of substitute. Modhumoti Bank also follows the same rule to ease the threat of substitute products. The Bank is continuously widening its product and services and introducing state of the art technology and tech-savvy products to remain competitive in the market.

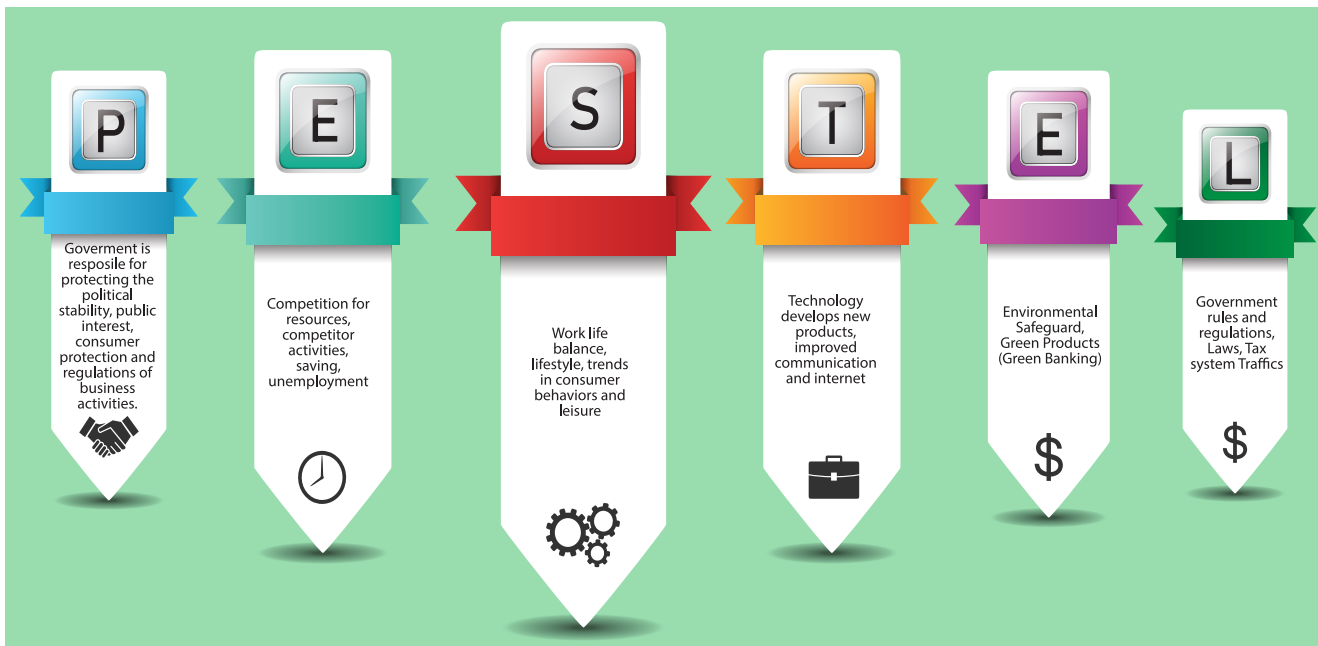

Integrated Capital

Modhumoti Bank PLC. believes in creating and proper managing of 6c's to create shareholders value and social value. Our Integrated capital depicts our strategic position in the industry. Management of the bank stirringly focused on managing the capital align with 16 Sustainable Development goals. Modhumoti Bank PLC. is also focuses on highest satisfaction of each and every stakeholder.

Pestel Framework

A PESTEL analysis is a strategic framework commonly used to evaluate the business environment in which a firm operates. Traditionally, the framework was referred to as a PEST analysis, which was an acronym for Political, Economic, Social, and Technological; in more recent history, the framework was extended to include Environmental and Legal factors as well. The framework is used by management teams and boards in their strategic planning processes and enterprise risk management planning. Generally, external factors are out of the industry's control and the industry need is to be aware of them for exploit opportunities and to avoid the threats in the environment.

Macroeconomic Factors	Impact on Industry	Our Response
P-Political Factors		
In political stability ranking, Bangladesh is placed lower compared to other emerging economies. This indicates that although Bangladesh is affected by political instability at some points of time, it is now taking all necessary steps to ensure a sound environment for the countrymen, non-resident Bangladeshi as well as foreign investors. The political stability has been comparatively better during the last couple of years which encouraged the entrepreneurs to invest more in the country.	In the hope of continuous political stability, it is expected that entrepreneurs will be starting investment again. The demand of loans and advances will increase and pressure will be put on liquidity. Implementation of mega projects will also exert pressure on the liquidity from the public sector.	The Bank Management is continuously assessing the political situation and adapting its business strategies accordingly. Management Prioritizes the control of NPL through effective recovery measures. The Bank has introduced more robust due diligence processes for the loan proposals received from PEPs (Politically Exposed Person).
E-Economic Factors		
Bangladesh economy has shown a strong resilience against the Covid-19 shocks and rebounded strongly. Real GDP of Bangladesh has increased to 5.78% in 2023 which was 7.10% in 2022. CPI-based inflation in Bangladesh went up, especially after the sub sequentially upward adjustment of fuel prices in the recent months of FY23. In December 2023 CPI-Based 12 month average headline inflation reached 9.48% which was 7.92% in June 2023.	The economic recovery from Covid-19 pandemic continues to faces challenges due to Russia-Ukraine War which caused supply chain disruption, dropped global growth & fueled inflation. The GDP growth rate was still impressive given the current economic challenges globally and domestically.	Bangladesh Bank has taken innovative and effective policies like promoting import-substituting economic activities and dissuading imports of luxury goods, fruits, non-cereal foods, canned and processed foods, etc to depreciate the Foreign exchange reserve pressure. The Bank is following through the steps of Bangladesh Bank to combat global economic challenges.

Macroeconomic Factors	Impact on Industry	Our Response
S-Social Factors		
<p>The lifestyles of the citizens improved a lot as per capita income is now approximately USD 2,528 but there exists irrational distribution of wealth. Advancement of the information technology also played a crucial role in the lifestyle. As the literacy rate going up, customers are becoming more and more sophisticated.</p>	<p>As income level of the citizens is improving, the use of financial services is increasing day by day. On the other hand, as the unequal distribution of wealth persists, concept for 'inclusive banking' should get the utmost importance. Customers desire a seamless banking has been evidenced by the flourish of Mobile Financial Services.</p>	<p>Modhumoti Bank in its effort to reach the unbanked people of the country through Agent Banking Operations. The Bank is also planning to invest more in technology to improve the customers' experience with the Bank. The Bank is ready to capitalize the technological innovation through introducing more and more customer friendly products. The Bank is committed to invest in CSR and other social initiatives.</p>
T-Technology Factors		
<p>Technological advancements have made customers more sophisticated and altered expectation levels. And technological development is growing fast as government invests in large scale to make IT infrastructure in the country.</p>	<p>Technological advancement has become a decisive factor to gain competitive advantage. Banks need further investment and improve operational efficiency to meet up the demand of customers following the regulatory rules and regulations.</p>	<p>The core banking software, 'Bank-Ultimus', has been updated regularly to ensure smooth day to day operation of the Bank. Moreover, the Bank is committed to ensure updated service through internet banking (Modhumoti Digital Banking), SMS banking, BACH (Automated Clearing House), Electronic Fund Transfer (EFT) etc.</p>
E-Environmental Factors		
<p>There is growing focus on green or, more broadly, sustainable finance, both in financial markets and in the international political arena.</p>	<p>A separate Unit namely Sustainable Finance Unit (SFU) has been created by Bangladesh Bank which is engaging and encouraging all Banks and FIs to step-up their green banking initiatives and standards. Regulatory monitoring has also been increased on green financing. Bangladesh Bank has also introduced Environmental and Social Risk Management Guidelines and Sustainable Finance Policy for all banks.</p>	<p>Modhumoti Bank PLC is committed to sustainable development through the creation of long-term value with respect to the environment, stakeholders and the community. The Bank has also incorporated the 'Sustainable Finance Policy' and 'Environmental & Social Risk Management Policy' as part of environmental due diligence.</p>
L-Legal factors		
<p>The Banking industry is the most regulated industry of the country. The industry is now facing with tighter rules and regulations and application of these are considerably more standardized and stringent than ever before.</p>	<p>The Banking industry is regulated under the Bank Companies Act 1991 as amended up to the date, Bangladesh Bank circulars and Guidelines, and the listing regulations and securities laws of the country. A Bank is also required to comply with the Company Act 1994, Income Tax Act 2023, Value Added Tax Act and Rules etc.</p>	<p>Since inception, Modhumoti Bank PLC has established a good image among all the stakeholders by complying with the applicable rules and regulations. The Bank is committed to value rules and regulations, and conduct compliant business practices for a sustainable growth in terms of asset and profitability.</p>

Responding to our threats

Strategic Priorities

In the year 2023, the Banking industry had to face major challenges stemmed from liquidity and foreign currency crises due to devaluation of taka against foreign currencies. The COVID-19 pandemic and Russia-Ukraine war forced everyone, not just those in financial services, to react promptly. To meet the challenges of the current environment and deliver on our strategy, we have a set of strategic priorities that are reviewed and refreshed each year. We will continue to manage these priorities in a balanced way with an appropriate mix of growth, risk, return, and profitability. However, our special attention will be as follows:

- **Business Model:** The Bank is adopting and implemented strategies to build a strong, diversified and sustainable business model that can deliver consistent returns to all stakeholders in a way society expects. The desire is that the Asset Quality to be the best in industry with lowest possible Non-Performing Loans (NPL). We want a high degree of credit quality with risk adjusted rate of return. Collection from stressed borrowers of the Bank will be given priority during the year 2024 and a strong monitoring system for overdue loans will be in place for strengthening performance of collection units both at the branch and head office end.
- **Business KPIs:** The Bank will continue its focus to reduce cost of fund by reducing cost of deposits which is the main challenge for new Banks. Improvement of deposit mix by increasing share of Low Cost No Cost fund in total deposit mix will give result for reducing deposit cost as well as to maintain adequate level of liquidity. The Bank will also continue its focus to improve cost to income ratio further. Growth of business in terms of deposit, advance, import and export is always prime objective. Considering single digit rate of interest for funded loan, Bank will look for more non-funded business.
- **Refinance Scheme:** Bangladesh Bank (BB) has a number of Refinance Schemes from which the Bank would like to avail facilities on account of its borrowers especially for the CMSME and green finances.
- **Internet Banking:** The Bank has taken all out measures to increase the internet based banking especially through digital payment gateway of the Bank namely GO SMART-Digital Banking platform & Corporate Internet Banking platform.
- **Process Re-engineering & Business Automation:** Ensure an IT environment that supports the delivery of accessible, secure, integrated, and reliable and client centered programs and services to all stakeholders. Considering changing demands & information security of customer Data, the Bank has already started to take various initiatives for business automation and implementing IT as well as information security including our ability to deal with cyber-threats which will be completed to the fullest extent in next few years.
- **Centralization:** To gain more efficiency, the Bank will continue to centralize some areas of operation. Payroll management, fixed assets management and foreign trade operations of Non-AD branches have already been centralized. There are some other areas like loan documentation, government savings certificate etc. to be managed centrally and centralization of them is expected to be complete in 2025.
- **Going Green:** Modhumoti Bank always like to embed green banking in its business model with an aim of achieving long term strategic objective to be a green, triple bottom line Bank where every business & operational decision will be taken considering both financial and environmental impacts. The Bank's green banking initiatives includes online & paperless banking, email communication, reduction of greenhouse gas emission, mapping bank's carbon foot print, efficient energy use, financing environment friendly projects under green and sustainable finance etc.

The Bank always takes initiatives to ensure improved organizational efficiency and effectiveness of the Human Resources by ensuring professional excellence and high ethical standard. It will maintain an environment that reinforces the pride in being employees of Modhumoti Bank PLC with total package adequate to attract and retain the best in the market, job assignments and logistically well-resourced work situations encouraging continuous learning and rewarding innovativeness and performance excellence by fast tracking in career path.

Managing Associated Risks

Risk management is a discipline at the core of every enterprise and encompasses all activities that affect its risk profile. The risks to which a bank is particularly exposed in its operations are: credit risk, liquidity risk, market risks (interest rate risk, foreign exchange risk and risk from change in market price of securities, financial derivatives and commodities), investment risks, environmental and social risks, risks relating to the country of origin of the entity to which a bank is exposed, operational risk, legal risk, reputational risk and strategic risk.

In this regard, the Bank maintained and update the risk related policies as per Core Risk Guidelines issued by Bangladesh Bank noted as followings:

- ③ Credit Risk Management (CRM) for Banks
- ③ Foreign Exchange Risk Management
- ③ Asset Liability Management Guidelines
- ③ Internal Control & Compliance Framework
- ③ Money Laundering & Terrorist Financing Risk Management Guidelines
- ③ Guidelines on ICT Security for Banks

Other risk related guidelines have to be followed by the bank as followings:

- ③ Risk Management Guidelines for Banks
- ③ Guidelines on Environmental & Social Risk Management (ESRM) for Banks
- ③ Guidelines on Risk Based Capital Adequacy
- ③ Process Document for Assessment of Supervisory Review Process (Under Basel 111)

Modhumoti Bank follows the above mentioned policies and guidelines in managing risk in different sphere of banking ranging from receiving customer deposits to placement of funds through loans and advances and other forms of investment.

Our Approach to ESG

Resource allocation strategies to meet objectives

Our efforts always remain to undertake decisions with the view of long-term value creation for our investors. This means, occasionally, certain trade-offs are needed to be made between capitals in order to accommodate our long-term orientation. Mostly, these are in the form of financial investments made towards ensuring the development and sustainability of other capitals in a way that the resulting long-term returns will outweigh the short term costs. In other words, we allocate our resources to build on our various capitals with the view of enabling a sustainable growth engine. This resource allocation strategy is manifested in our approach of utilizing key capitals, the role of innovation and other considerations in strategy formulation.

Natural Capital

Precious natural resources that we seek to conserve, including our climate action plans, help our business foster greater societal responsibility. As a service organization, the bank's environmental impact are limited; however, we see significant opportunities in driving environmental consciousness and propagating sustainable business practices through responsible lending. Natural capital requires investment, maintenance, and good management if it is to fully contribute to increasing output and prosperity. These figures need to be comparable to the economic data related to infrastructure development. This enables more informed decision making that is rooted in understanding the trade-offs around natural resource management.

Challenges:

- Resource optimization to reduce energy wastage
- Maintain green and sustainable environment

Initiatives:

- Introduced E-products such as SMS banking, internet banking, e-Commerce and payment solution.

Our activities & Values

Our business model seeks to create value for stakeholders in a sustainable way. In order to make optimum contribution across the value chain, we are careful to strike a balance between different stakeholder objectives. Our strategy is clear and simple. It defines the businesses that we will do and will not do. We use our resources to build competitive advantages. We have put in place a governance framework to ensure effective execution and risk management.

Throughout the value creation process, our various activities, in turn generate outcomes, which create value for our stakeholders and adds back to our inputs, be it in the form of profits, employee compensation, reduction in carbon footprint, process efficiency or other material outputs. In the process, we ensure our business activities are aligned with our core values and guided by our governance framework, and also that our strategies and risk mitigation efforts are in line and responsive to pressures from the external environment and market forces.

Economic Value Added Statement

Economic value added (EVA) is the financial performance measure of true economic profit of an organization. It provides measurement of a company's economic success (or failure) over a period of time. Such a metric is useful for investors who wish to determine how well a company has added value for its investors and it can be compared against company's peers for a quick analysis of how well the company is operating in its industry. Economic value added is calculated by taking a company's net profit after tax, adding with it, the amount of provision charged to absorb the probable losses intrinsic in the investments. This cost of equity is calculated considering the risk free rate based on weighted average rate of 10 years Treasury bond issued by Bangladesh Government plus 2% risk premium. EVA is calculated as under:

MANAGEMENT DISCUSSION AND ANALYSIS

Comparative Analysis of Financial Performance

The Management of Modhumoti Bank PLC. showing the business reviews and analysis for the year 2023 which was challenging for foreign currency crisis, Russian-Ukraine war and inflation pressure in world economy. As per IMF, the Global economy grew at 3.1% in 2023, and is projected to remain same in 2024 before rising modestly to 3.2% in 2025. The forecast for global growth in 2024 and 2025 is anticipated to be lower than the pre-Covid-19 annual average of 3.8%, influenced by restrictive monetary policies, reduced fiscal support, and low underlying productivity growth. Advanced economies are expected to experience a slight decrease in growth in 2024, followed by an uptick in 2025. On the other hand in our Bangladesh, The sharp depreciation of the exchange rate and high production and transportation costs kept domestic inflation elevated. Headline CPI inflation (point-to-point) reached an 11- year high of 9.52 percent in August 2022, rising from 7.56 percent in June 2022, and remained above 8 percent before reaching 9.24 percent in April 2023. The 12-month average inflation steadily increased to 8.64 percent in April 2023 from 6.15 percent in June 2022, significantly exceeding the target of 7.50 percent for FY23. On these tough situation The Board of Modhumoti Bank PLC. has given proper strategic directions to our Management of the Bank for coping up with the situation with making the Bank stronger for establishing a brand image. Modhumoti Bank has already completed ten (10) years successfully and is going to complete eleven (11) years in the year 2024. Modhumoti Bank PLC. is now taking a distinct position in the mind of its' the customers as well as to regulatory bodies , peer banks, stakeholders and other interested parties of the Bank.

During the last couple of years, overall financial sector is also struggling with rising default loans, shortfall of provision and capital, shrinking profitability, operating inefficiency and weak governance. Despite facing multiple obstacles, Modhumoti Bank has grown sustainably year on year and delivered consistent financial performance.

For the year 2023, the Bank has total deposit of Taka 78,172.13 million, total loans & advance of Taka 63,282.60 million and earned total operating profit of Taka 2,136.79 million registering growth of 9 percent, 13 percent and 19 percent respectively in comparison with that of the year 2022. The Bank has developed various customized products for corporate, CMSME's, Agro-based, Green-based enterprises and general customers across the country. The Bank truly believes in partnering with new entrepreneurs in different business segments of various industries having potential growth in manufacturing, service and trade by offering suitable loan products alongside serving the business need of the country. The Bank has also developed a number of retail banking loan products for meeting financial needs of individuals to maximize its service net. As a responsible financial institution, Modhumoti Bank has taken proactive measures to mitigate the risks associated with these challenges, including effective risk management strategies and portfolio diversification, ensuring resilience to external shocks.

In this regard, it is expected that the Management's Discussion and Analysis of the financial condition and results of the Bank for the year 2023 should be read in conjunction with the Bank's audited financial statements for the year ended December 31, 2023 prepared in accordance with International Financial Reporting Standards (IFRS') and applicable laws of the land.

Readymade Garments (RMG)

The ready-made garments (RMG) sector is a potential sector than any other sector in terms of employment and foreign exchange earnings to reduce poverty and make a contribution to the national economy as it acts as a catalyst for the development of Bangladesh. The RMG sector continues to thrive, reaching USD 47 billion in the last fiscal year 2022-23. This is a new landmark in our history of RMG manufacturing, as we have exceeded the 40-billion-dollar mark in 40 years of journey. Analyzing the demand and supply of global markets it is apparent that Bangladesh grabs a potential business volume of world apparel market. RMG sector got its strong foothold in the economy during over three (03) decades through struggling with various challenges like Buyers' compliance, Price competitiveness, external and internal environment, country risk etc.

Certainly, not only in 2024 but also in next decade, we must continue the momentum of our achievements. Achieving excellence in products, fiber, markets diversification and value addition are the key opportunities for this sector. We need to develop our capacity in backward and forward linkage industries. At the same time, we need to focus on innovation, technological up-gradation, design and skill development, and overall business capabilities.

As we are setting our foot in 2024, poised to embark on a new chapter, we can confidently say that 2023 was a pivotal year for us. Despite wrestling with twofold challenges, domestic and international, we have successfully overcome them and emerged stronger. However, uncertainty persists as the advanced economies are struggling with inflation and recession. Besides, the crisis of pandemic is still haunting our economy. Geopolitical issues like Russia-Ukraine, Israel-Hamas conflict have created an additional layer of adversity. The year 2024 to be yet another challenging year for the RMG sector. Bangladesh is going through the challenges and uncertainties in the economy, forex market volatility, inflation and worldwide supply crunch rather RMG has become a sustainable sector while contributing a major share of our country's GDP. Bangladesh is world's second-biggest apparel exporter after China. Garments including woven, knit wear and hosiery account for 80% of exports revenue others include: jute goods, home textile, footwear and frozen shrimps and fish etc.

Export volume from RMG Sector of the Country is noted below:

USD in billion

Year (Financial)	Export Volume
2015 -2016	28.09
2016 -2017	28.15
2017 -2018	30.61
2018 -2019	34.13
2020 -2021	35.81
2021 -2022	42.61
2022 -2023	46.99

From the very beginning, Modhumoti Bank PLC. has been playing a potential role by financing in RMG sector even through meeting various challenges and limitations over the years as a new Bank. The efforts got momentum after getting Offshore Banking License in the Year 2015. Day by day, RMG business of the Bank is growing significantly over the years. In the year 2023, Bank achieved significant export business including both Direct and Deemed export which are evident from the table below:

Total Export & RMG Contribution:

USD in million

Total Export			RMG (Portion of total Export)		
Year	Volume	Growth	Year	Volume	Growth
2020	21,548.0	4.28%	2020	16,282.1	13.33%
2021	32,640.7	51.48%	2021	21,054.8	29.31%
2022	55,677.7	70.58%	2022	34,311.0	62.96%
2023	46,742.1	(16.05%)	2023	26,654.3	(22.32%)

As noted earlier, Modhumoti Bank PLC. has noteworthy role and involvement in trade facilitation in the readymade garments (RMG) from its inception. With the help of back-to-back letter of credit (LCs)/pre-shipment credit and post-shipment credit, both the garments and the primary textile sectors or backward linkage industries flourished in Bangladesh. Banking industry of the country has been facilitating payment, finance and risk management services to the RMG exporters and thus contributing to growing global trade integration of the country. For the economic sustainability

of Bangladesh, RMG sector needs due support through adequate, smooth and effective trade services by banks. In line with RMG industry, Modhumoti Bank PLC. provides various pre-shipment and post-shipment trade finance to the deemed and direct RMG exporters to ease up their functional activities.

Challenges and prospects of Bangladesh RMG industry:

2022 & 2023 were a difficult year for the RMG industry due to a difficult global and local climate. Those years were supposed to be the year we try to recover from the damages caused by the Covid-19 pandemic, unfortunately in the middle of our struggle to achieve this, we were forced to face new challenges such as geopolitical tensions, a downward global economy, fears of another recession, etc. Now, Bangladesh once again has to combat both local and global challenges to maintain the growth momentum we have achieved and to excel even further.

Global Challenges:

- Inflation Rate:** The global inflation rate was the highest in 2023 with a rate of more than 10%. Starting from necessary commodities to utilities, everything experienced a price hike during the period.
- Change in brand behavior:** Due to the potential threat of a global recession, brands and buyers began taking cautionary steps. Many of our factories have disclosed that they do not have enough orders from the year 2023 and onward to run the factories at full capacity.
- Increased production cost:** Throughout 2022 & 2023, we faced a difficult situation with record-high cargo rates and container shortages. Many brands favored nearshoring countries to ensure the fastest delivery. In accordance with the global trend, production cost increased significantly in our sector as well. Diesel and other utility prices had been increased to balance with current world trend, which put significant pressure on the manufacturers.

Local Challenges:

- Utility price increase:** Utility bills i.e. gas, water and electricity cover a big portion of the costs in RMG factories. Amidst that, the price of gas, electricity and fuel has been increased. Due to geopolitical situation, production cost has already been significantly increased in the last few years. And this new price hike will challenge the sustainability of the industry.

2. **Overdependence on markets and products:** Even though the industry has been operating for almost 40 years, our markets and products have been heavily congested towards a few products and markets. T-shirts, trousers and knit items are our strengths, however the current world demand is for non-cotton and manmade fiber-based products. Our market is also heavily concentrated towards the EU, US and a selected few traditional markets.
3. **Backward linkage:** Our backward linkage is very weak at this moment; this poses a serious problem after Bangladesh's LDC graduation. After LDC graduation, we will have to produce our own fabrics before making the clothes. Due to this, joint venture or FDI is a must in this sector, so that along with financial and technical know-how, the necessary skills can be learned by our industry.
4. **Ease of doing business:** Under the prudent and visionary leadership of the Honorable Prime Minister Sheikh Hasina, Bangladesh has been documented as a development surprise across the world. In the recent report of 'Ease of Doing Business' published by the World Bank, Bangladesh jumped to the 168th position from 176th in the preceding year.
5. **Infrastructure:** Mega projects like the Padma Bridge, Power Plants, Metro Rail, and bringing the country under a railway network are making solid progress. Electricity generation capacity has reached more than 25,227 megawatts. 100 Economic Zones (EZ) are being developed to encourage structured and balanced investments. However, the timely completion of mega projects is indeed crucial. We have set a target to export \$100 billion within 2030; to achieve this, a revolutionary change in infrastructure is a must.
6. **A dedicated lane for export import at Chittagong Port:** The two major ports of our country - Chittagong and Mongla, account for around 65 billion USD of the annual trade. 98% of Bangladesh's container cargo and 92% of the total cargo is handled at Chittagong port. The drafting capacity of the port has been increased recently, which is a positive development, but a separate lane for the export-import procedure will expand its capacity more.

Prospects:

1. **Highest-ever export figure:** The overall picture is not so gloomy and if we can continue the momentum of our growth and development, we may make it to the end of the tunnel sooner than expected. Amidst all the challenges, our export reached a new milestone last year. Our total export was more than \$52 billion. For the first time in history, Bangladesh's RMG industry contributed its highest-ever export value of \$46.99 billion.
2. **Regained lost position:** In all major markets like the USA, EU and non-traditional markets, our exports have seen positive growth. As per the latest published "WTO Trade Statistical Review 2021", we have also regained our position as the second largest apparel exporter in the world. We have become the top denim sourcing country both for the USA and the EU.
3. **Green factories:** Bangladesh achieved another milestone in 2023, becoming home to the highest number of green garment factories in the world with 204 USGBC LEED-certified factories. A record high of 30 factories got the certification in 2022 and 21 factories got the certification in 2023. Going forward, we should keep a positive tone in our strategy approach - a dual combination of sustainability and growth. Market diversification, product development, shifting to high-end fashion items, technological up-gradation, and design and skill development should be our priorities in the coming years. We should also focus on medium and small-sized businesses so that they can also thrive amidst the market difficulties.
4. **Virtual marketplace:** The virtual marketplace can also be a big source of our growth. To enter such a new arena of business, we have to work on several issues such as reforming foreign exchange, export-import and tax policies, alongside extending fiscal incentives to those who want to develop their collection and invest in innovation. Opportunities and challenges go hand in hand. In the coming year, we have to try to overcome our challenges - both local and global, and move towards more excellence.

Strategic support of the Government:

According to the sustainable strategic vision-2030, the industry has set a target of exporting apparels worth \$100 billion by 2030 while creating employment for 6 million people in the apparel sector during the period by ensuring gender equality, inclusiveness and a decent workplace. In line with Sustainable Development Goal (SDG), the industry aligned with the government aims to reduce carbon emission, energy and ground water usages and increase use of sustainable raw materials, chemical and renewable energy, skill development, innovation and technology upgradation. Bestowing a sustainable growth of RMG sector of Bangladesh as well to overcome interim crisis caused by local and global climate, the government extends impressive supportive roles time to time through various short-term and long-term facilities there against either way of crisis management:

CMSME Banking

The role of Cottage, Micro, Small and Medium Enterprises (CMSMEs) is indispensable for overall economic development of a country particularly for developing countries like Bangladesh. Since this sector is labor intensive with short gestation period, it is capable of increasing national income as well as rapid employment generation; achieving the Sustainable Development Goals (SDG) especially eradication of extreme poverty and hunger, gender equality and women empowerment. CMSME sector has played a vital role in economic development of Bangladesh, narrowing the gap of income inequality and poverty alleviation. The present government has also put much emphasis on the development of CMSME sector considering it as 'the driving force for industrialization'. Since CMSMEs are based on relatively small investment, their survival depends on readily available market with easy access. In this context, access to finance, market development and expansion as well as removal of other bottlenecks are a challenging task, which requires coordinated efforts both by the individual financial institutions as well as the government.

Modhumoti Bank has already formulated several products like, MMBL Agrogoti (working capital loan), MMBL Progoti (capital loan), MMBL Goti (Unsecured loan), MMBL Moushumi (Seasonal loan), MMBL Shongoti (Factoring) & different customized products are under process of development considering the need of the CMSME customer segment to flourish and expand CMSME Enterprises. MMBPLC also extends financial support to contractor financing through providing different Guarantees and funded facility against work order. Therefore, Bank's SME exposure is thus well diversified as doing business with different sectors i.e. cottage, handy crafts, power loom, auto parts, garments accessories, rice mills, light engineering, commodity financing, textile mill, permitted brick field, scrap iron, poultry farming, fish processing/dry fish, animal feed, agro-based and agro-processing industry, furniture, leather goods sector, jute goods and, computer software and ICT goods, green financing-renewable energy etc.

Moreover, Bank also participated several Refinance/ Pre-finance scheme funded by Bangladesh Bank, IDA and ADB has been facilitated for the development of CMSME portfolio. Besides, to ensure institutional financial facilities under easy conditions Modhumoti Bank has taken diverse steps; like opening of 'Dedicated Desk' for CMSME and 'CMSME Service Centre' in the banks.

Despite COVID -19 Pandemic Year and subsequent turmoil in international politics and forex exchange market, MMBPLC CMSME portfolio has been in growing trend but a bit slower than previous year. Total CMSME outstanding at the end of the financial year 2023 was Tk. 1,296.79 crore which is 20.63% of total lending portfolio against Bangladesh bank requirement of 23%. We have assigned special officers at all the respective branches for CMSME and Women entrepreneur for customized service and guidelines to grasp the niche market. As a fourth generation Bank, MMBPLC has been strongly focusing on CMSME financing.

Challenges faced in 2023 and our approaches

Challenges	Approaches
<p>After 2nd wave of covid -19 pandemic, the impact of the Ukraine-Russia war on SMEs underscores the interconnectedness of the global economy and the need for businesses to adopt agile strategies, resilience, and risk management practices to withstand geopolitical shocks and uncertainties.</p> <p>The year presented many challenges for Bangladesh's SME sector, including inflation pressures, currency devaluation, slowing export markets and exchange loss in imports. This enforced rising default cases during the year.</p>	<ul style="list-style-type: none"> ● Considering the external environment, we adopted a "slow -growth" strategy. This was a conscious decision to prioritize stability and efficiency over expansion and acquisition of new customers ● Modhumoti bank focused on non -funded business and take retention policy of existing customer. We were more vigilant about new loan. One the other hand, we extended services like machinery purchase, working capital, work and import finance etc. to the SMEs in coping up with adverse situations ● We are happy that we have total CMSME outstanding at the end of the financial year 2023 was Tk.1,296.79 crore which is 20.63% of total loan portfolio of the Bank ● Moreover, Bank also participated several Refinance scheme funded by Bangladesh Bank, ADB that have been facilitated for the development/ sustain of CMSME portfolio in tougher time to finance affected customers at lower rate. To ensure this finance under easy conditions. Last year we have received Tk 80.00 crore pre-finance amount from Bangladesh bank which helped us in coping up with liquidity crunch.
<p>Recovery of loan resulting in a deteriorating condition of asset quality as SME clients were faced with a sluggish business environment</p>	<p>In order to ensure regular repayments, MMBPLC increased monitoring of loans. Through dedicated team, relationship with clients were enhanced and customers were guided accordingly for their business and ensured regular repayments. Customers were also facilitated through extending flexibility in their repayments while staying within the parameters of policy/regulations.</p>

CMSME Stimulus Loan Disbursement and Recognition:

CMSMEs were the hardest hit when the coronavirus pandemic struck the country in March 2020 to 2022. Government declared financial stimulus package for CMSME through Bangladesh Bank which aimed at mitigating the impact of the coronavirus pandemic. Subsequently, Bangladesh Bank vide their circular no SMESPD no 01 dated 13.04.2020 announced Tk 20,000 crore stimulus package to be disbursed through Scheduled commercial Bank and Financial Institution which tenure enhanced up to 2023. MMBPLC entered into agreement with Bangladesh Bank and was allocated Tk 60 crore fund allocation for this purpose initially and subsequently the allocation was raised to 80 crore in 2021- 2022 and Tk 100 crore in 2023. MMBPLC with limited manpower and logistics support at that time was able to achieve the target fully within time frame in 2021 and 71.53% and 53% allocation were achieved for 2021 to 2023 period respectively. Bangladesh Bank recognized the initiative and awarded with an appreciation letter. It should be noted that only 12 banks were able to achieve the target and MMBPLC was the only Bank among all 4th generation bank.

Agricultural Loan

Agricultural sector is one of the driving force of Bangladesh economy contributing 15-20% of GDP almost 40.60 % of total labor force are directly engaged in this sector. For most, agriculture is a means of food security, but it is a livelihood for a vast population in Bangladesh and a means of reducing poverty and fostering sustainable economic development.

The majority poor people of Bangladesh reside in rural areas and depend on agriculture for their livelihoods. Access to finance empowers small farmers to invest in their farms, increase their incomes, and lift themselves out of poverty. Agriculture finance contributes to rural development by stimulating economic growth, creating employment opportunities, and improving infrastructure in rural areas. This, in turn, reduces urban migration and promotes balanced regional development.

Overall, agriculture finance is essential for driving agricultural growth, ensuring food security, alleviating poverty, and promoting sustainable development in Bangladesh.

Modhumoti Bank PLC. has already formulated different tailor made products to extend financial support to direct agricultural sector namely Modhumoti Shamolima, Modhumoti Shamolchhaya and Modhumoti Shamolmaya. Success Story

Mr. Md. Owahed Ali, a small farmer in Singair. He inherited a small plot of land from her family, barely enough to sustain himself, let alone turn a profit. He needed finance to cultivate the land where access to formal finance was not available. Modhumoti Bank provided him a loan at 4% rate without any collateral security for farming import substitute crop. With this easy access to finance, he cultivated green Chili. He had bumper production due to on time irrigation. He plans to cultivate larger area after harvesting green chili.

Way forward 2024:

Customer support became a driving force for the segment. We will remain mobilized to help our customers to overcome the challenges and restore their financial health. We took the following steps in this direction

As we consolidate our operations in the path to profitability, we will prioritize liability mobilization, especially through lower-cost refinance windows that can be availed from the government for CMSME sector. This will enhance our capacity for future asset booking.

Business goals:

- Ensure best utilization of BB refinance and stimulus schemes as well as BB Agricultural & Rural Credit Policy and Program
- Prioritize clients in manufacturing and sustained import financing facility for them even amid foreign currency crisis
- Extend temporary funding facility on need basis
- Focus on non-funded income, promoting the new manufacturer and service sectors business
- Tapping the market for channel financing to backward and forward integrated firms
- Extend our asset business to new geographical locations where MMBPLC marked its footprint through agent banking outlets
- Proper advocacy support and timely banking solution to existing vulnerable business community
- Manage stronger control on NPLs (nonperforming loans)

Retail Banking

Trade Services Division

Facilitating International Trade through Import and Export financing is one of the key activities of the Bank. The environment in banking industry has become highly competitive and banks are now exposed to various types of financial and non-financial risks. Risks have become multidimensional especially in Foreign Exchange business. Bangladesh Bank as a central bank issues guidelines on management of various types of risks involved in foreign Exchange dealings.

Modhumoti Bank is always concerned about the fast moving business environment, which is becoming uncertain & risky due to integration of international markets. The Bank is taking all possible steps to properly address the issues, developing tools and techniques for effective management of Trade Service activities.

The Bank has registered firm growth in Foreign Trade business over the years. During the year 2021, one of our core priorities to combine the revenue mix was non-funded business in the trade market. Moreover, the dedicated Trade Development Team was also recognized to provide a greater force to the trade business and to provide instant services to the growing customers' requirement. Trade finance faced elevated demand from the rising domestic economy. Trade Finance offers a wide range of services that can be tailored to meet the different needs of buyers and sellers (Importers and Exporters). Our range of resources and level of expertise in the various trading sectors and documentary credit specialists enables us to offer unrivalled services to all our customers - whether they are manufacturers, traders, suppliers, importers or exporters. The Bank has exhibited quality financing while facilitating total import and export business.

Export Business

The cumulative achievement of the export stood at BDT 46742.17 million for the year ended on December 31, 2023 compared to BDT 55,732 million of the year 2021. Negative Growth of 16.13% compared to 2022 but compared to 2021 there is a positive growth of 43.20%. The focal point of the Bank in export financing was garments industry, the lone driving force of the economy of Bangladesh and the biggest source of foreign exchange and employment provider of the country. Other notable items were Pharmaceuticals, ICT Products, Chemicals Products, Edible Oil, PPP Bags, Sweater, Handicrafts, Vegetables, Food items, etc.

Import Business

Remittance Operations:

Remittance has been playing a crucial role in the economic development of the country. There are now over 10 million Bangladeshi expatriates working in different countries of the world. Remittance contributes nearly 11% to the gross domestic product (GDP) of Bangladesh. It accounts for over 60% of our foreign exchange reserve. Remittance has transformed rural economy by enhancing the quality of life of the dependents of the remitters. Most remarkable contribution of the NRB's is the investing of their hard earned money for development of our rural economy in the form of SMEs and investment portfolio as a whole. Remittance has kept our economy strong when others are facing crisis.

We have drawing arrangement with major global money transfer companies and reputed exchange houses all over the world, so that through NRB we can easily receive remittance.

Inward Foreign Remittance Performance for the Year of 2021, 2022 & 2023

Year			Growth Over 2022
2021	2022	2023	
789.04	2,974.07	21,870	635.35%

Remittance inflows increased by 635.35 percent at the end of FY23 compared with the growth in FY22. A record inflow of remittances at BDT 21870 million in FY22. The increase in inward remittance is results of the increase in overall economy. Moreover, Government's drive of bringing inward remittances into formal channels by providing 2.5% cash incentives to the beneficiaries of the inward remittances augments. Remittance inflow increased significantly in FY 2023 from major contributing countries like Saudi Arabia, Kuwait, U.A.E. U.S.A, U.K. and Italy.

Treasury Division

Against the backdrop of constantly evolving regulations and market fluctuations, the Treasury Division stands as the cornerstone within major banks and financial institutions, including Modhumoti Bank PLC. This division serves as the nerve center for managing various risks, from liquidity to overall balance sheet risks. A primary responsibility of the Treasury Division is to oversee and regulate the bank's liquidity, ensuring that every facet of the institution can access necessary funds promptly for their operational needs. This meticulous oversight guarantees the financial security, stability, and operational efficiency of the bank, enabling it to effectively serve its clients.

Modhumoti Bank Treasury primarily focuses on the followings:

1. Expanding transaction volume
2. Utilizing different market opportunities within all risk and regulatory limits
3. Strengthening ALM operations
4. Creating a diversified fund management channel
5. Minimize market, liquidity and interest rate risks
6. Enhancing profitability

Modhumoti Bank Treasury has the following desks through which it offers a complete and well diversified package of Treasury solution to its customers both in the inter-bank and Corporate Market:

Outlook for 2024:

The upcoming period is poised to present heightened challenges as the global economic landscape continues to grapple with the repercussions of the trials encountered in 2023. It is anticipated that the money market may persist in its tightening trend, while foreign currency reserves may face sustained pressure. Additionally, concerns regarding interest rates and inflationary pressures are expected to persist.

In navigating through 2024, our focus will be on fostering continuous development and adeptly adapting to external factors. We are committed to expanding Modhumoti Bank PLC's market share and bolstering our balance sheet at an accelerated pace, all while ensuring that pertinent risk ratios remain optimized. Our strategic approach will entail:

1. Maintaining an opportunistic stance in Local Currency (LCY) and fixed income realms through the strategic utilization of derivatives and interest rate forecasting.
2. Sustaining our leadership position as a Foreign Exchange (FX) market maker and extending our market reach beyond current boundaries.
3. Continuing to uphold our status as the most active treasury entity and offering innovative product solutions across every customer segment.

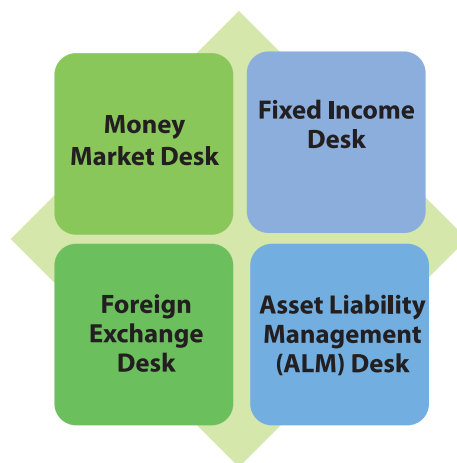

As we chart our path forward, these initiatives will serve as cornerstones in steering Modhumoti Bank PLC towards sustained growth and resilience amidst evolving market dynamics.

Treasury Performance in 2023:

A. Money Market Desk:

In 2023, the money market grappled with increased government borrowing and heightened demand for commercial loans, leading to significant pressure. This pressure was evidenced by a series of policy rate hikes totaling 175 basis points, with the rate escalating from 6.00% to 7.75% throughout the year. Concurrently, the Call Money Rate rose from 6.66% to 8.84%, and the Reverse Repo Rate followed suit, climbing from 4.25% to 5.75% during the same period. In response to these challenges, the central bank introduced the Interest Rate Corridor and unveiled SMART, a reference lending rate based on the six-month moving average rate of Treasury Bills. This strategic move aimed to establish a dynamic interest rate environment that accurately reflects funding costs and promotes resource efficiency within the financial sector.

Despite these pressures, adept analysis and strategic capitalization of market trends by the Money Market Desk ensured effective mitigation of liquidity risks throughout the year. This meticulous approach also ensured compliance with regulatory requirements, notably the Cash Reserve Ratio (CRR) and Statutory Liquidity Ratio (SLR), underscoring the institution's commitment to prudent financial management.

B. Foreign Exchange Desk:

In 2023, the foreign exchange market in Bangladesh encountered persistent challenges, necessitating strategic interventions to stabilize the exchange rate environment and manage external trade dynamics. A series of measures were implemented by both the government and the Bangladesh Bank to address these challenges. One notable initiative involved encouraging banks to offer additional incentives for wage earner remittances, aiming to bolster foreign currency inflows. Concurrently, the Bangladesh Taka experienced a gradual depreciation against the US Dollar, from USD/BDT 101.00 to a peak of USD/BDT 111.00, facilitated by the Bangladesh Foreign Exchange Dealers Association (BAFEDA) and the Association of Bankers. This strategic move aimed to stimulate exports and remittances while dampening imports. Moreover, Bangladesh Bank injected US Dollars from its reserves into the market to fulfill import obligations, although leading to a decrease in foreign exchange reserves from USD 33.75 billion to USD 27.13 billion by year-end.

In response to these challenges, banks like Modhumoti Bank PLC. demonstrated resilience by promptly addressing the crisis through strategic approaches such as reliance on interbank markets, prioritizing wage earner remittances, and efficiently managing foreign exchange operations. These efforts contributed to significant profit growth and stability amidst the tumultuous foreign exchange landscape of 2023.

C. Fixed Income Desk:

In 2023, amidst Bangladesh's financial landscape marked by significant volatility, Modhumoti Bank PLC navigated through various challenges and opportunities within the Fixed Income Securities Market. This market experienced heightened vibrancy, driven by increased returns on fixed income securities, which attracted a significant number of individual investors. Throughout the year, Bangladesh Bank implemented measures to simplify the investment process in government securities for individual investors, fostering broader participation in the market.

Despite the surge in interest rates, the Government Securities Market exhibited a smooth and consistent increase in its rates, benefitting investors. Notably, the market witnessed a substantial amount of Government Securities (G-Sec) traded outright, reaching BDT 109,023.91 crore in FY 2022–23. Modhumoti Bank PLC, strategically managing its securities portfolio, capitalized on this environment, achieving impressive results.

Additionally, Modhumoti Bank PLC actively participated in auctions facilitated by Bangladesh Bank and maintained compliance with regulatory mandates, including a minimum Statutory Liquidity Ratio (SLR) of 13.00%. The bank's Treasury Division played a pivotal role in managing the Held-To-Maturity (HTM) and Held-For-Trading (HFT) portfolio of fixed income securities, contributing significantly to the institution's bottom line through commissions, investment income, and capital gains.

Moreover, Modhumoti Bank PLC's proactive engagement as a dynamic member of Primary Dealers Bangladesh Limited (PDBL) not only bridged financial gaps in the national budget but also fostered an active secondary market for government securities.

D. Asset Liability Management Desk:

In 2023, Modhumoti Bank PLC demonstrated a steadfast commitment to Asset-Liability Management (ALM) as a cornerstone of its strategic operations within the banking sector. Recognizing the dynamic nature of the market, characterized by challenges like high inflation rates and the removal of loan rate caps, the bank meticulously monitored and managed its balance sheet. Through its specialized ALM Desk within the Treasury Division, Modhumoti Bank PLC remained agile in analyzing both local and global market trends, providing invaluable insights to its Asset Liability Management Committee (ALCO).

Throughout the year, ALCO convened regularly, addressing critical issues pertaining to interest rates, liquidity, and risk factors. The committee's pivotal decisions influenced the bank's sustained growth trajectory, ensuring resilience and adaptability in the face of unpredictable market trends. Modhumoti Bank PLC's ALM team diligently maintained regulatory ratios and actively managed risks, contributing to efficient balance sheet management and prudent risk management practices.

Key areas prioritized by ALCO included managing financial risk and challenges, focusing on timely investment in government securities, liquidity management, and fostering balance sheet growth. These strategic imperatives underscored the bank's unwavering commitment to maintaining equilibrium between assets and liabilities, thereby safeguarding its financial stability and positioning it as a trusted partner in the banking sector.

Moreover, Modhumoti Bank PLC's proactive engagement with deposit composition, facilitated by consistent monitoring and branch engagement, yielded positive results, further reinforcing its commitment to strategic business expansion and market responsiveness. As the bank continues to navigate evolving market dynamics, its robust ALM framework remains integral to its success, ensuring resilience, adaptability, and sustained growth in the face of market challenges.

climate change-affected coastal communities, and assisting hardcore poor individuals. Modhumoti Bank PLC has been a leader in this movement, achieving remarkable progress in agent numbers, accounts, and deposits through its agent banking services. Notably, the platform has included over 350,000+ previously unbanked individuals, with a significant 70% of customers being female. By delivering comprehensive banking services directly to customers, agent banking overcomes geographical barriers and time constraints. It offers convenient remittance options, cash deposit and withdrawal facilities, interbank transactions via EFT & RTGS, and access to affordable small loans. This accessibility has empowered individuals nationwide to effortlessly engage with banking services. In addition to partnering with Union Digital Centers.

Modhumoti Bank PLC has expanded its agent banking network by onboarding individual entrepreneurs as agents. This strategic move has boosted the reach and impact of the Modhumoti Agent Banking Network, contributing to widespread financial inclusion and economic empowerment across the country.

In 2023, Modhumoti Agent Banking established itself as a leading force in expanding financial inclusion and literacy, demonstrating significant growth and market reach. Beyond simply providing access to financial services, the bank aimed to offer lifestyle products tailored to the diverse needs of rural communities. To achieve this ambitious goal, Modhumoti Bank partnered with various fintech and Agri-tech companies. This collaboration led to the integration of B2C and B2B payment services through Modhumoti Digital Points, enabling customers to conveniently access a wide range of services. Now, from any Modhumoti Digital Point, customers can

easily top up their mobile phones with any operator, pay utility bills online, access telemedicine consultations, and even purchase micro-insurance. The bank plans to further expand these offerings by soon adding e-Ticketing and telemedicine services with insurance coverage specifically for cattle. This strategic collaboration benefits both customers and agent partners. Customers enjoy enhanced satisfaction through convenient access to a diverse range of services under one platform. Agent partners, on the other hand, gain the opportunity to cross-sell products, expand their service portfolio, and generate additional revenue streams.

Government to Person (G2P) Digital Payment through Modhumoti Digital Points:

Modhumoti Bank is at the forefront of transforming government-to-person (G2P) payments in Bangladesh, leveraging its extensive agent banking network to deliver crucial financial services to underserved communities. Our digital platform addresses the challenges of traditional disbursement methods, such as:

- ④ **Limited access to bank branches:** Many beneficiaries reside in remote areas far from traditional banking infrastructure.
- ④ **Lack of regular transaction facilities:** This hinders the ability of recipients to manage their finances effectively.
- ④ **Potential for fraud and misuse:** Traditional methods can be susceptible to ghost beneficiaries and misappropriation of funds.

Our Solution: G2P Digital Payments via Agent Banking

To overcome these obstacles, Modhumoti Bank has partnered with the Government of Bangladesh (GoB) to disburse social safety-net allowances through our agent banking channels. This innovative approach is making a significant impact on the lives of various vulnerable groups, including:

- ④ Elderly individuals
- ④ People with disabilities
- ④ Widows and widowers
- ④ Farmers
- ④ Daily laborers
- ④ Pregnant and lactating mothers
- ④ Individuals impacted by climate change
- ④ Unemployed rural women
- ④ Urban populations living in extreme poverty

Benefits for All Stakeholders

Our G2P digital payment system creates a win-win-win scenario for the government, beneficiaries, and Modhumoti Bank:

- ④ **Government:** Ensures efficient and transparent disbursement of funds, reducing the risk of leakage and fraud.
- ④ **Beneficiaries:** Gain convenient access to financial services, empowering them to manage their finances independently.
- ④ **Modhumoti Bank:** Expands our customer base and strengthens our commitment to financial inclusion and social responsibility.

Our commitment to financial inclusion is reflected in the steady growth of our customer base. We are proud to be a driving force in creating a digital and financially inclusive Bangladesh.

Strategic partnership meeting between Modhumoti Bank and ICT Ministry where Mr. Zunaid Ahmed Palak MP, Minister of State for the Ministry of Post, Telecommunication, and Information Technology, Government of the People's Republic of Bangladesh was present.

Modhumoti Financial Inclusion and Financial Literacy Wing (FI&LW):

In line with Bangladesh's Vision 2041, the UN's Sustainable Development Goals, and the National Financial Inclusion Strategy, Modhumoti Bank has taken a proactive approach to promoting financial literacy and inclusion. Following the Central Bank of Bangladesh's Financial Literacy Guidelines, Modhumoti Bank established a dedicated Financial Inclusion and Financial Literacy Wing (FI&LW) under the supervision of our Deputy Managing Director and Chief Business Officer. This wing is tasked with:

- ③ Enhancing financial awareness and knowledge among our customers and the broader community.
- ③ Creating a more financially inclusive society through targeted programs and initiatives.
- ③ Developing annual financial literacy plans and executing various programs.

Key Financial Literacy Programs

FI&LW has spearheaded several successful financial literacy initiatives:

- ③ **School Banking Conferences:** Engaging students through interactive sessions and workshops to build their financial knowledge from a young age.
- ③ **Remittance Festivals:** Celebrating the contributions of overseas workers and providing valuable information on managing and utilizing remittances effectively.
- ③ **Focus Group Discussions:** Conducting community-based discussions to understand the financial needs and challenges of diverse groups, ensuring tailored solutions.
- ③ **Financial Literacy Materials:** Developing engaging educational materials, including booklets, banners, posters, and leaflets, to disseminate financial knowledge and encourage responsible financial behavior.

Financial Literacy Programs arranged by Modhumoti Bank PLC:

Since its inception, the FI&LW has significantly contributed to advancing financial inclusion and literacy. The bank has partnered with government agencies and NGOs to reach low-income households and rural communities, providing financial education and accessible services. Modhumoti Bank is also committed to continuous innovation. We are actively developing tailored financial products like Micro-Insurance and Micro-Savings Accounts to meet the unique needs of our customers. Our Financial Literacy Campaign in 2023 was a testament to our dedication. We empowered countless individuals and communities to make informed financial decisions, leading to improved financial well-being. Modhumoti Bank remains at the forefront of driving financial inclusion and literacy in Bangladesh, empowering individuals and communities to achieve their financial goals.

Internal Control & Compliance

Internal Control is the process, effected by a Bank's Board of Directors, management and other personnel, designed to provide reasonable assurance regarding the achievement of objectives in the effectiveness and efficiency of operations, the reliability of financial reporting and compliance with applicable laws, regulations and internal policies. Internal control is a dynamic, continuing series of activities planned, implemented and monitored by the Board of Directors and Management at all levels within the Bank.

Our internal control mechanisms help meet the bank's operational performance standards and, towards this extent, the bank's ICCD fulfills a critical role in facilitating the achievement of this goal. Further, an appropriate and effective internal control environment is maintained to ensure that the bank is superintended in a sound and prudent manner by way of implementation of the highest standards of operational procedures and controls and also to assure operational stability and performance reliability, which is a key expectation of our shareholders.

Structure of ICCD

Modhumoti Bank's ICCD has been structured as per the stipulated organizational framework of Bangladesh Bank's Core Risk Management Guideline on ICC. The bank's audit function, as a part of ICCD, operates independently and is responsible to the Audit Committee, a sub-committee of the Board of Directors by way of maintaining a direct line of reporting to the same body. This framework is a crucial component of the bank's 3 lines of defense risk model. Thus, ICCD fulfills the role of a crucial link between the Board and the bank's management.

Anti-Money Laundering (AML), Terrorist Financing (TF) and Proliferation Financing (PF)

Modhumoti Bank has taken a number of initiatives in line with the Core Risk Management Guidelines under supervision of its Board and Senior Management in order to improve Bank's money laundering risk management rating. This includes restructuring of Anti Money Laundering & Combating Terrorist Financing Division under direct supervision of the DMD & CAMLCO to oversee & effective implementation of AML program of the Bank. In line with the directives of BFIU, Managing Director & CEO of the Bank issues a message to all employees citing firm commitment to ensure compliance of AML rules and regulations and to adopt necessary policy/procedures for proper implementation of the same. To enhance officials knowledge and awareness covering on AML&CFT and giving special emphasis on TBML guidelines, a good number of trainings are organized and also focus group trainings have been scheduled in collaboration with BFIU experts to conduct to improve the knowledge level and compliance status. Board awareness session on AML&CFT has also been arranged for the members of the Board of Directors of the Bank.

Some Inter Office Memo (IOM)'s and related directives were issued to the all concerned to align and accommodate BFIU's instructions for compliance. Report of Financial Performance

Modhumoti Bank PLC. continues to deliver vigorous financial performance over the years creating delightful customer experiences driven by efficient human resource team and continuous innovation in a rapidly changing market and implementing sound business strategy & risk management practices.

Modhumoti Bank emerged as a much stronger and resilient bank as it was in pre-COVID era. The remarkable growth is driven by a well-planned strategy and steadfast commitment to sustainability. 2023 has been a challenging year due to various factors, including the protracted conflict between Russia and Ukraine, the outbreak of the Gaza-Israel war, and disruptions in the Red Sea trade route exacerbating global import and export issues. Furthermore, foreign exchange liquidity and the devaluation of Taka further worsened the situation for overall business environment.

Due to the volatility in the foreign exchange market, the country experienced current and financial account deficit of the year. Remittance flow decreased, import payments rose sharply, while export income increased at a slower pace. High inflation, depreciation of Taka and foreign exchange liquidity; looking back on the 2023, the banking industry is inevitably poised to face even more challenges.

Year-on-year comparison of Financial Statements reveals that in 2023, deposit of the Bank has increased by 8.76% with a favorable deposit mix wherein no cost and low cost deposit was 36%. The Bank adopted a go-slow approach in business level strategy for which loans & advances has increased; rather it had a positive growth of 13.31%. However, total assets size of the Bank has a positive growth which is 6.57%. Profit before Provision & Tax (PBPT) has increased by 19% and Net Profit after Tax has decreased by 10%. Total regulatory capital (Taka 10,062 million) of the Bank has increased by 6% due to increase in statutory reserve and provision for general loans. Capital to Risk Weighted Assets Ratio (CRAR) has increased to 16.08% at the end of December 2023. Return on Equity (ROE) has decreased is 12.56% at the end of December 2023 compared to 11.94% in 2022. The Board of Directors of the Bank recommended 13.50% Cash Dividend for the year ended December 31, 2023 at the board meeting held on April 27, 2024 which is subject to final approval by the shareholders at the forthcoming Annual General Meeting (AGM) of the Bank.

The financial position and performance of the Bank as at and for the year ended December 31, 2023 as well as performance parameters are presented here in brief:

RISK

MANAGEMENT

Risk Management Report

Introduction

Risk management is the process of identification, analysis and acceptance or mitigation of uncertainty in investment decisions. We aim to limit adverse variations in earnings and capital by managing risk exposures within agreed levels of risk appetite. The bank's risk management system includes policies, procedures, limits, and controls in its foundation. This foundation provides adequate, timely, and continuous identification, assessment, measurement, monitoring, mitigation, and reporting of risks posed by its activities at the business line and institution-wide levels.

Our risk management approach includes minimizing undue concentrations of exposure, limiting potential losses from stress events and ensuring the continued adequacy of all our financial resources. Effective risk management is fundamental to the business activities of the bank. While we remain committed to increasing shareholder value by developing and growing our business within our board-determined risk appetite, we are mindful of achieving this objective in line with the interests of all stakeholders. We pursue to achieve an appropriate balance between risk and reward in our business, and continue to build and enhance the risk management capabilities that assist in delivering our growth plans in a controlled environment.

The risk strategy is determined taking into consideration bank's capital adequacy, expected level of profitability, market reputation, adequacy and experienced personnel, logistic support, macro and micro economic scenario, risk management practices etc. The Board of Directors, Senior Management and other officials of the bank aware of and understand their respective responsibilities within the risk management system.

Objectives of risk management

The objectives of the risk management in the Bank are enumerated below:

- ④ To identify the material risks;
- ④ To formulate the Risk Appetite of the Bank and ensure that business profile and plans are consistent with the risk appetite of the Bank;
- ④ To optimize risk/return decisions by taking them as closely as possible to the business;
- ④ To ensure that business growth plans are properly supported by effective risk infrastructure;
- ④ To manage risk profile to ensure that specific financial deliverables remain possible under a range of adverse business conditions;
- ④ To help the senior management to improve the control and co-ordination of risk taking across the business.
- ④ To analyze the self-resilience capacity of the Bank through Stress Testing report;
- ④ To develop the information systems/MIS inflow and data management capabilities to support the risk management functions of the bank.
- ④ To review and update risks on systematic basis as necessary at least annually, preferably twice a year, ensuring the adequate controls exist and that the related returns reflect these risks and the capital allocated to support them.

Sources of risks

The risks to which a bank is particularly exposed in its operations are: liquidity risk, credit risk, market risks (interest rate risk, foreign exchange risk and risk from change in market price of securities), exposure risks, investment risks, risks relating to the country of origin of the entity to which the bank is exposed, operational risk, legal risk, reputational risk and strategic risk.

Risk Management Framework of the Bank

The Bank has a robust risk management framework which includes the followings:

- ④ Modhumoti Bank Comprehensive Risk Management Policy;
- ④ Six (6) core risks management policies as per core risk guidelines issued by Bangladesh Bank;
- ④ Environmental & Social Risk Management Policy of the Bank;
- ④ Counterparty limit policy of the Bank;
- ④ Finally Basel III framework including other Basel documents.

The overall risk management frameworks help the Bank to assign accountability and responsibility for the management and control of risk.

Risk Management System in the Bank

Risk Appetite Framework

The Bank has a Board approved Risk Appetite Framework which formulated the process of preparing and monitoring Risk Appetite Statement. The risk appetites of the Bank are determined as per annual business and profit target, CRM, ALM and Comprehensive Risk Management Policy of the Bank which are meticulously followed by the Bank.

Risk Appetite Statement (RAS)

Risk appetite is the level of risk that an organization is prepared to accept in pursuit of its objectives, before action is deemed necessary to reduce the risk. Risk appetite statement is the articulation in written form of the aggregate level and types of risk that a financial institution is willing to accept, or to avoid, in order to achieve its business objectives. It plays an important role in cascading the risk strategy down through the Bank. Modhumoti Bank sets RAS in every year as per the Risk Appetite Framework of the Bank and format provided by Bangladesh Bank.

Risk Management Process

The Bank has developed a number of risk management policies and guidelines following the risk strategy of the Bank and Bangladesh Bank guidelines. The risk management process followed in MMBPLC is as under:

Step 1 Communication and Consult

This is preparatory step that aims to identify the responsible persons involved in risk assessment (including identification, analysis and evaluation) and also the persons engaged in the treatment, monitoring and review of risk.

In this step, management must communicate the roles, responsibilities, accountabilities of the internal stake holders. Formation of policies, review/revision, and dissemination of the policies is also part of this step. Risk owners/originator should be informed of his/her/their role when dealing with the risks. All the stake holders should be communicated after due consultation that everybody should inform and notify RMD as and when they identify something to be noted in the risk register as potential risk to be addressed. This information to RMD officials should preferably be in black and white or even through e-mail. RMD officials will then include the item in the risk register.

Sept 2 Establishment of the Context

This is another preparatory stage that closes to starting the formal risk management process. Before risk can be clearly understood and dealt with, it is important to understand the context in which it exists.

Step 3 Risk Identification

The next step is to identify possible risks that may affect, either negatively or positively, the objectives of the business and the activity under analysis. The purpose of this step is to identify what could go wrong (likelihood) and what is the consequence (loss or damage) of it occurring.

Step 4 Analysis of the Risks

The risk analysis step assists in determining which risks have a greater consequence or impact than others. Thus analyzing the likelihood and consequences of each identified risk and deciding which risk factors will potentially have the greatest effect and should, therefore, receive priority with regard to how they will be managed. The level of risk is analyzed by combining estimates of likelihood and consequences.

Step 5 Evaluation of the Risks

Risk evaluation involves comparing the level of risk found during the analysis process with previously established risk criteria, and deciding whether these risks require treatment. The result of a risk evaluation is a prioritized list of risks that require further action. This step is about deciding whether risks are acceptable or need treatment.

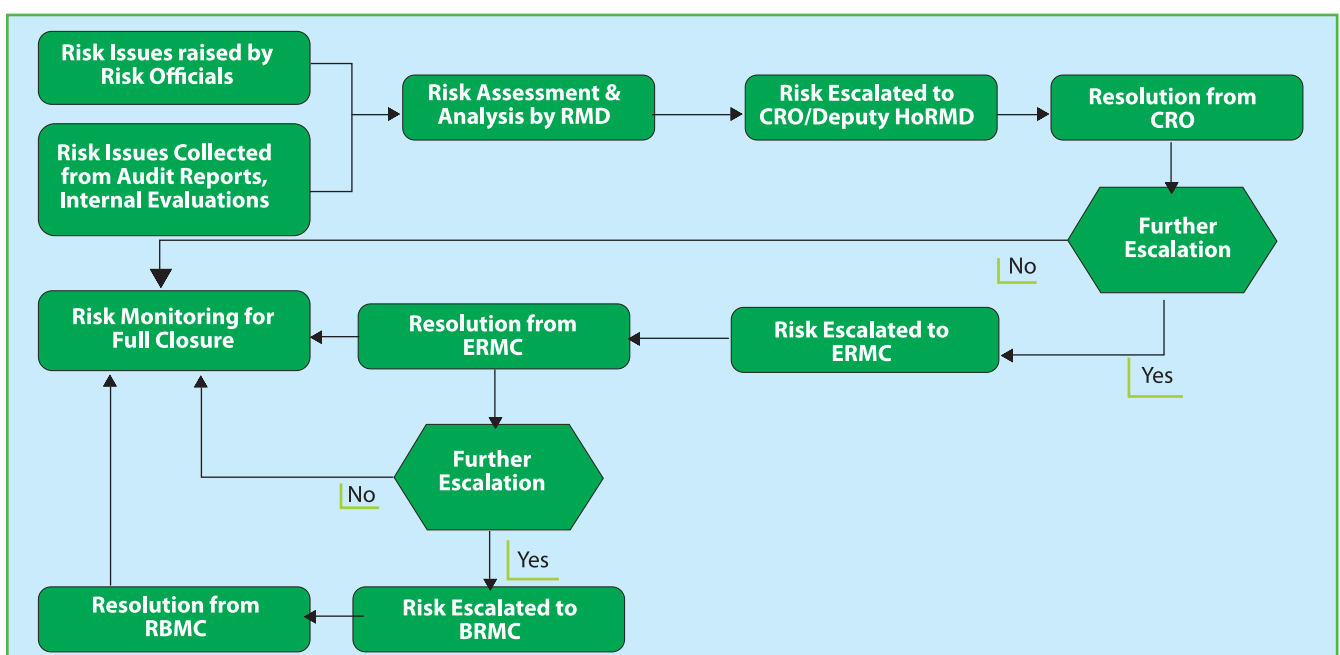

Step 6 Treatment of Risks

Risk treatment is about considering options for treating risks, evaluating those options, preparing the risk treatment plans and implementing those plans to achieve the desired outcome. Options for treatment need to be proportionate to the significance of the risk, and the cost of treatment commensurate with the potential benefits of treatment. Risk treatment should also aim to enhance positive outcomes.

Step 7 Monitoring and Review of Risks

- ⦿ Risks are monitored periodically to ensure changing circumstances do not alter the risk priorities. Very few risks will remain static, therefore the risk management process needs to be regularly repeated, so that new risks are captured in the process and effectively managed.
- ⦿ An effective way to ensure that is to combine risk planning or risk review with annual business planning.
- ⦿ Risk management has been fully incorporated into the operational and management processes at every level of the Bank and driven from the top down.

Risk escalation flowchart of the Bank

Risk management reporting

Risk Management Division of the Bank is continuously analyzes various risks for management information and reporting to competent authorities (both internal and external) on regular basis. The reporting includes monthly and comprehensive risk management reporting, quarterly capital adequacy statement and stress testing report, quarterly risk management report and Credit Risk Assessment and Resolution Report on Top 20 Borrowers, yearly ICAAP Statement, assessment of core risk guidelines, Risk Appetite Statement of the Bank and Review report of Risk Management Policies and Effectiveness of Risk Management Functions etc.

RMD places memorandums to the Executive Risk Management Committee of the Bank and Board Risk Management Committee on monthly and quarterly basis respectively.

Compliance status in risk management reporting

The RMD analyses and identifies the risk issues from the information and the activities of the Bank on an ongoing basis especially at end month, quarter, semi-annual and annual basis. Accordingly RMD prepares different reporting as followings:

Sl. No.	Name of Report	Frequency	Compliance Status
1	Monthly Risk Management Report	Monthly	Complied
2	Quarterly Risk Management Report	Quarterly	Complied
3	Capital Adequacy Statement	Quarterly	Complied
4	Stress Testing & Gap Analysis	Quarterly	Complied
5	Credit Risk Assessment and Resolution Report of Top 20 Borrowers	Quarterly	Complied
6	Comprehensive Risk Management Report	Half yearly	Complied
7	Internal Capital Adequacy Assessment Process (ICAAP) Statement	Yearly	Complied
8	Risk Appetite Statement	Yearly	Complied
9	Review Report of the Risk Management Policies & Effectiveness of Risk Management Function of the Bank	Yearly	Complied
10	Assessment of Core Risk Guidelines	Yearly	Complied

The Bank met all the regulatory requirements relating to risk management activities of the Bank in 2023.

Annual Risk Conference

Modhumoti Bank PLC., organized “**Annual Risk Conference - 2023**” on Wednesday, 20th December 2023 at the Bank Head Office, Gulshan, Dhaka with assistance of Zoom technology. Mr. Md. Shafiqul Azam, Managing Director & CEO, Modhumoti Bank PLC., inaugurated the conference as Chief Guest. Mr. Arab Fazlur Rahman, Deputy Managing Director & Chief Risk Officer of the Bank presided over by ceremony. Among others, Mr. Shahnawaj Chowdhury, Deputy Managing Director & Chief Operating Officer, Mr. Kamrul Hasan Khan, Deputy Managing Director & Chief Business Officer, Management Committee Members, Executive Risk Management Committee Members, Divisional Heads of Head Office, Branch Managers and relevant risk officials of the Bank with around 220 participants were present in the conference.

Capital Management as per Basel Accords

RMD looks after the capital management of the Bank as per Basel accords (Basel II and Basel III). Capital management usually refers to implementing measures aimed at maintaining adequate capital, assessing internal capital adequacy of the bank and calculating its capital adequacy ratio.

The followings indicate the relationship between risk management and capital requirement:

- ④ Capital management helps to ensure that the Bank has sufficient capital to cover the risks associated with its activities;
- ④ As part of the internal capital adequacy assessment process (ICAAP), management identifies the risks that the Bank is exposed to, and determines the means by which they will be mitigated;
- ④ Capital is used to cover some of these risks, and the remainder of these risks is mitigated by means of collateral or other credit enhancements, contingency planning, additional reserves and valuation allowances, and other mechanisms.

Implementation of Basel III

To strengthen global capital and liquidity rules with the goal of promoting a more resilient banking sector, the Basel Committee on Banking Supervision (BCBS) issued “**Basel III: A global regulatory framework for more resilient banks and banking systems**” in December 2010. The objective of the reforms was to improve the banking sector’s ability to absorb shocks arising from financial and economic stress, whatever the source, thus reducing the risk of spillover from the financial sector to the real economy.

In Bangladesh, Basel III phase wise implementation started back in 2015 and will fully be implemented from January 01, 2020. Accordingly, the Bank will have to maintain regulatory capital at 12.50% from January 01, 2020. Changes in Basel III & implementation status of Basel III in MMBPLC are briefly stated as followings:

Capital: As per Risk Based Capital Adequacy (RBCA) Guidelines of Bangladesh Bank, every scheduled bank has to maintain Minimum Capital at 10% of Risk Weighted Assets among which need to maintain 4.5% in Minimum Common Equity Tire-1 (CET-1) Capital Ratio. Banks are required to maintain a capital conservation buffer of 2.5%, comprised of Common Equity Tier 1 capital, above the regulatory minimum capital requirement of 10% from January 01, 2020. Banks should not distribute capital (i.e. pay dividends or bonuses in any form) in case capital level falls within this range.

The Bank arranged an "Annual Risk Conference 2023"

Liquidity Ratios: The Basel Committee has further strengthened its liquidity framework by developing two minimum standards for funding liquidity. An additional component of the liquidity framework is a set of monitoring metrics to improve cross-border supervisory consistency. These standards have been developed to achieve two separate but complementary objectives. The first objective is to promote short-term resilience of a bank's liquidity risk profile by ensuring that it has sufficient high quality liquid resources to survive an acute stress scenario lasting for one month. The Committee developed the Liquidity Coverage Ratio (LCR) to achieve this objective. The second objective is to promote resilience over a longer time horizon by creating additional incentives for a bank to fund its activities with more stable sources of funding on an ongoing structural basis. The Net Stable Funding Ratio (NSFR) has a time horizon of one year and has been developed to provide a sustainable maturity structure of assets and liabilities. MMBPLC had a very healthy liquidity throughout the year 2023.

Leverage Ratio and its Impact on business: In order to avoid building-up excessive on- and off-balance sheet leverage in the banking system, a simple, transparent, non-risk based leverage ratio has been introduced. The leverage ratio is calibrated to act as a credible supplementary measure to the risk based capital requirements. Moreover introduction of Leverage ratio means Banks will have to have sufficient Tier-1 capital for its business expansion. The Bank had leverage ratio at 7.68% in December 2023 against regulatory requirement of 3.25%.

Status of implementation: It is notable that the Bank has already implemented all the prerequisites of Basel III as per the roadmap of Bangladesh Bank.

Supervisory Review Process (SRP) Team

As per the Revised Process Document for SRP-SREP Dialogue on ICAAP (Implementation of 2nd Pillar of Basel III) the Bank has an exclusive body naming SRP Team in the 'Managerial Layer' which are constituted by the concerned head of Divisions of the bank and headed by Managing Director & CEO. The responsibilities of SRP Team are noted below:

- ④ The committee must meet at least bi-monthly to monitor the implementation of Pillar 2 Supervisory Review Process under Basel II & Basel III;
- ④ The team will review and assess overall capital adequacy in relation to the Bank's risk Profile and strategy for maintaining Bank's Capital at an adequate level, i.e. enough capital to compensate all the risks in the Bank's business, and to develop and practice better risk management techniques in monitoring and managing risks;
- ④ The SRP Team of the Bank is responsible to ensure that the Bank has adequate capital to support its risks beyond the minimum regulatory requirements;
- ④ The SRP Team will help the Risk Management Division to prepare Internal Capital Adequacy assessment Process (ICAAP) and submit the same to the Board for onward reporting to Bangladesh Bank.
- ④ The Team will guide the Operational Layer during data collection, process and the preparation of ICAAP.
- ④ The Team will maintain liaison with the Supervisory Review Evaluation Process-SREP Team of Bangladesh Bank.
- ④ The Team will ensure effective dialogue between the Supervisory Review Process Team and the Supervisory Review Evaluation Process Team of Bangladesh Bank.

Basel Unit (Supervisory Committee)

The Bank has Board approved Basel Unit (Supervisory Committee) comprising senior management of the Bank with following responsibilities:

- ④ Implementation of the Action Plan of Basel Accords in Bank;
- ④ Communicate issues related to Basel implementation to the Bank Management;
- ④ Attend Quantitative Impact Study (QIS) and accountability for the compliance of Basel Accords;
- ④ Arranging customized training programs according to Training Need Assessment.

Internal Capital Adequacy Assessment Process (ICAAP) as per Pillar 2 of Basel III

The Bank has a structured management framework in the Internal Capital Adequacy Assessment Process (ICAAP) for the identification and evaluation of the significance of all risks that the Bank faces, which may have an adverse material impact on its financial position. As per Basel III framework, the Bank faces the following material risks which are taken into consideration in assessing / planning capital:

Risks under Pillar 1 MCR		Risks under Pillar 2 SRP	
1	Credit Risk	1	Residual Risk
2	Market Risk	2	Concentration Risk
3	Operational Risk	3	Liquidity Risk
		4	Reputation Risk
		5	Strategic Risk
		6	Settlement Risk
		7	Evaluation of Core Risk Management
		8	Environmental & Climate Change Risk
		9	Other material Risks

The surplus capital maintained by MMBPLC will act as buffer to absorb all material risks and to support the future activities. To ensure the adequacy of capital to support the future activities, the Bank assesses capital requirements periodically considering future business growth. Risk Management Division (RMD) under guidance of the SRP team/ERMC (Executive Risk Management Committee), is taking active measures to identify, quantify, manage and monitor all risks to which the Bank is exposed to.

Borrowers' credit rating

Borrowers' credit rating plays an important role in improving capital adequacy of the Bank through capital relief and also helps the Bank to understand the risk associated with the borrowers. In this regard, RMD calculates capital relief on the basis of rated borrowers on quarterly basis. As per guideline on 'Risk Based Capital Adequacy for Banks', calculation of RWA follows Standardized Approach for Credit Risk, Standardized Approach for Market Risk and Basic Indicator Approach for Operational Risk. Under the Standardized Approach of the Risk Based Capital Adequacy framework (Basel III), Risk Weighted Asset (RWA) against credit risk for the corporate and SME borrowers are determined on the basis of credit rating report issued by the External Credit Assessment Institutions (ECAIs).

Credit Rating Status of Borrowers

As a result of vigorous effort and continuous persuasion, 228 (87.69%) borrowers out of total 260 (Total Taka 52,010 million) eligible Corporate & SME borrowers of MMBPLC were completed. The rating distribution of the 138 Corporate & 90 SME borrowers of the Bank as on 31 December 2023 was as follows:

BDT in million

Bangladesh Bank Rating Grade		Corporate		SME		Total		Percentage of Total	
		No.	Outstanding	No.	Outstanding	No.	Outstanding	No. Rated Borrowers	Outstanding

Stress Testing

Stress Testing is a risk management technique used to evaluate the potential effects of Bank's financial condition of a specific event and/or movement in a set of financial variables. It is also an integral part of the Capital Adequacy Framework. The traditional focus of stress testing relates to exceptional but plausible events.

Stress testing framework as provided by Bangladesh Bank assesses the impact on Capital to Risk Weighted Asset Ratio (CRAR) due to minor, moderate and major level of shock in terms of credit risk, exchange rate risk, liquidity risk, equity price risk and interest rate risk. Stress testing for credit risk assesses the impact of increase in the level of Non-Performing Loans (NPLs) of the banks.

Modhumoti Bank performs stress testing on quarterly basis within the scope of Bangladesh Bank FSD circular no. 01 dated September 24, 2012. The Capital to Risk Weighted Assets (CRAR) was 16.08% as on 31.12.2023 upon which stress testing was conducted based on different parameters noted above. The position of CRAR after shock is noted below:

Description of different types of shocks	Extent of Shock			CRAR after Shock (%)		
	Minor	Moderate	Major	Minor	Moderate	Major
Performing loans directly downgraded to B/L: Constructions	3%	9%	15%	15.59	14.59	13.58

Stress situation in Duration Gap Analysis

The objective of the Duration GAP Analysis is to measure the level of the Bank's exposure to interest rate risk in terms of sensitivity of Market Value of its Equity (MVE) to interest rate movements. The duration gap tells how cash flows for assets and liabilities are matched. A positive duration gap is when the duration of assets exceeds the duration of liabilities (which means greater exposure to rising interest rates).

Sl.No.	Particulars	2022	2023
1	Weighted average duration of assets (DA) in years	2.83	2.67
2	Weighted average duration of liabilities (DL) in years	0.58	0.50
3	Duration gap (DA -DL) in years	2.31	2.20

Change of market value of equity due to increase in interest rates as of December 31, 2023

Particulars	1%	2%	3%
Change in Market Value of Equity	(1,908)	(3,815)	(5,723)

For absorbing different shocks under Stress Testing, the Bank takes following measures on an ongoing basis:

- ⊙ Exposure on large loan customers are being monitored closely;
- ⊙ Emphasize on enhancing collateral coverage against large loan exposure;
- ⊙ Encouraging focus on SME loan lending;
- ⊙ Regular loans are being monitored closely in order to avoid classification;
- ⊙ Persuading unrated Corporate and SME borrowers to bring them under the umbrella of ECAI's credit rating.

Pillar 3 Market Discipline
Disclosures on Risk Based Capital (Basel III)
for the year ended December 31, 2023

In an effort to continue to strengthen the risk management frameworks and further enhance long-term stability within banking organizations, the Basel Committee for Banking Supervision (BCBS) introduced a set of regulatory guidelines known as Basel III. Basel III includes three pillars that address:

- ③ Capital adequacy
- ③ Supervisory review
- ③ Market discipline; increased public disclosure requirements

In addition to the three pillars noted above, Basel III introduced leverage ratio, and liquidity standards namely liquidity coverage ratio (LCR) and net stable funding ratio (NSFR) which have greater business implications for banks. Under market discipline, Basel III demands more disclosures than that of the previous.

These disclosures are purported to affirm the information on Minimum Capital Requirement (MCR) under Pillar 1 and Supervisory Review Process (SRP) under Pillar 2 and ensure transparency about the capital adequacy of the Bank, capital adequacy framework, risk assessment and mitigation methodologies, risk exposure in various spectrum so that the stakeholders of the industry can examine the risk related compliance of the Bank.

The Bank made the qualitative and quantitative disclosures in detail below in accordance with Pillar III Market Discipline as per Guidelines on Risk Based Capital Adequacy (RBCA) under Basel-III issued by Bangladesh Bank on December 21, 2014. The purpose of this report is to complement under Pillar 1 Minimum Capital Requirement (MCR) and Pillar 2 Supervisory Review Process (SRP) of Basel III.

The following components have been disclosed hereunder as per the requirement of RBCA guidelines under Basel-III issued by Bangladesh Bank:

- a) Scope of Application
- b) Capital Structure
- c) Capital Adequacy
- d) Investment Risk
- e) Equities: Disclosures for Banking Book Positions
- f) Interest Rate Risk in the Banking Book (IRRBB)
- g) Market Risk
- h) Operational Risk
- i) Leverage Ratio
- j) Liquidity Ratio
- k) Remuneration

These disclosures are intended for more transparent and more disciplined financial market where the participants can assess key information about the Bank's exposure in making economic decisions.

A. SCOPE OF APPLICATION

Qualitative Disclosure

a) The name of the top corporate entity to which this framework applies:

The Risk Based Capital Adequacy Framework applies to Modhumoti Bank PLC. (MMBPLC) on 'solo' basis as there was no subsidiary as on the reporting date (December 31, 2023).

b) Consistency and Validation:

The quantitative disclosures are made on the basis of audited financial statements of the Bank for the year ended December 31, 2023 prepared under the historical cost convention except investments and in accordance with the "First Schedule" (section 38) of the Bank Companies Act 1991, as amended by Bangladesh Bank (the Central Bank of Bangladesh) through BRPD Circular No. 14 dated 25 June 2003, other Bangladesh Bank Circulars, Bangladesh Financial Reporting Standards (BFRSs), the Companies Act 1994 and other applicable laws and regulations. So, information presented in the 'Quantitative Disclosures' section can easily be verified and validated with corresponding information presented in the audited financial statements of the Bank for the year ended December 31, 2023. The report is prepared once a year and available on the website of the Bank (www.modhumotibankplc.com).

c) Any restrictions, or other major impediments, on transfer of funds or regulatory capital to subsidiaries:

Not applicable for the Bank as there was no subsidiary of the Bank on the reporting date (December 31, 2023). However BRPD Circular No.01, dated, January 16, 2022 regarding 'Single Borrower Exposure Limit' is being applied by the Bank in determining maximum amount of finance.

Quantitative Disclosure

d) The aggregate amount of surplus capital of insurance subsidiaries (whether deducted or subjected to an alternative method) included in the capital of the consolidated group.

Not Applicable.

B. CAPITAL STRUCTURE

Qualitative Disclosures

a) The regulatory capital under Basel-III is comprised with i) Tier-1 (Going Concern Capital) and ii) Tier-2 (Gone Concern Capital).

Tier-1 Capital (Going Concern Capital) has two components of Tier 1 Capital which are Common Equity Tier 1 Capital and Additional Tier 1 Capital. It consists of highest quality capital items which are stable in nature and allows a bank to absorb losses on an ongoing basis.

Common Equity Tier 1 Capital includes paid-up capital, statutory reserve, general reserve and retained earnings etc. and **Additional Tier 1 Capital** will include perpetual bond or non-cumulative preference shares etc.

Tier-2 Capital (Gone Concern Capital) lacks some of the characteristics of the going concern capital but also bears loss absorbing capacity to a certain extent. General provision on unclassified loans and advances, Subordinated debt/instruments issued by the Bank that meet the qualifying criteria for Tier 2 capital, Minority interest i.e. Tier-2 issued by consolidated subsidiaries to third parties.

Compliance Status of MMBPLC as per Conditions for Maintaining Regulatory Capital:

The Bank complied with all the requirement of regulatory capital as stipulated in the revised RBCA Guidelines by Bangladesh Bank as per following details:

SI. No.	Limits (Minima and Maxima)	Status of Compliance	
		Complied (✓)	Non-complied(✓)
1	Common Equity Tier 1 of at least 4.5% of the total RWA	✓	
2	Tier 1 capital will be at least 6.0% of the total RWA	✓	
3	Minimum CRAR of 10% of the total RWA	✓	
4	Additional Tier 1 capital can be admitted maximum up to 1.5% of the total RWA or 33.33% of CET-I, whichever is higher	✓	
5	Tier 2 capital can be admitted maximum up to 4.0% of the total RWA or 88.89% of CET-I, whichever is higher	✓	
6	Capital conservation buffer at 2.50% of total RWA	✓

C. CAPITAL ADEQUACY

Qualitative Disclosures

a) Approach to assess the adequacy of capital:

The Bank follows the approaches below for calculating Minimum Capital Requirement (MCR) as per Pillar-I of Basel-III framework as per the guidelines of Bangladesh Bank:

- i) Standardized Approach for assessing and mitigating Credit Risk,
- ii) Standardized Rule Based Approach for quantifying Market Risk and
- iii) Basic Indicator Approach for Operational Risk.

MMBPLC has a process for assessing its overall capital adequacy in relation to the Bank's risk profile and a strategy for maintaining its capital levels. The process provides an assurance that the Bank has adequate capital to support all risks in its business. The Bank identifies, assesses and manages comprehensively all risks that it is exposed to through sound governance and control practices, robust risk management framework and an elaborate process for capital calculation and planning.

The Bank has a structured management framework in the Internal Capital Adequacy Assessment Process (ICAAP) for the identification and evaluation of the significance of all risks that the Bank faces, which may have an adverse material impact on its financial position. As per Basel III framework, the Bank faces the following material risks which are taken into consideration in assessing/ planning capital:

Risks under Pillar 1 MCR		Risks under Pillar 2 SRP	
1	Credit Risk	1	Residual Risk
2	Market Risk	2	Concentration Risk
3	Operational Risk	3	Liquidity Risk
		4	Reputation Risk
		5	Strategic Risk
		6	Settlement Risk
		7	Evaluation of Core Risk Management
		8	Environmental & Climate Change Risk
		9	Other Material Risks

The surplus capital maintained by MMBPLC will act as buffer to absorb all material risks and to support the future activities. To ensure the adequacy of capital to support the future activities, the Bank assesses capital requirements periodically considering future business growth. Risk Management Division under guidance of the SRP team/ERMC (Executive Risk Management Committee), is taking active measures to identify, quantify, manage and monitor all risks to which the Bank is exposed to.

D. CREDIT RISK

Qualitative Disclosures:

a) The general qualitative disclosure requirement with respect to credit risk:

Definition of Credit Risk:

Credit risk refers to the deterioration in the credit quality of the borrower or the counter-party adversely impacting the financial performance of the Bank. The losses incurred by the Bank in a credit transaction could be due to inability or willful default of the borrower in honoring the financial commitments to the Bank. The Bank is exposed to credit risk through its general lending and money market lending.

Credit risk management process at MMBPLC:

Bank's credit policy has been prepared in line with Bangladesh Bank guidelines illustrating the approval process and delegation of authority which require to be approved by the Board. The approval process segregates relationship management/marketing from the approval authority. The approval authorities are delegated to different levels of management and Board committees. Board of Directors of the Bank has the highest level of authority to approve any credit proposal and sub delegate such authority to the management and Executive Committee. The business proposals are initiated from the Branches which have been processed by the Business Development & Marketing Division (BDMD) at Head Office level and finally BDMD under Corporate & Investment Banking Division placed the note to the Credit Risk Management Division (CRMD). Then placed the proposal in the meeting of Credit Evaluation Committee (CEC) of the Bank after performing due diligence issues as per Credit Policy of the Bank and other policies/guidance of Bangladesh Bank. Upon final nod from the CEC, the proposals are placed in the meeting of the EC/Board by CRMD and Managing Director & CEO for final approval. CRM sends sanction letter addressing the Branch and Cc to CAD upon receiving the final approval from the competent authority.

Credit Administration:

Credit Administration Division (CAD) ensures the documentation and the other regulatory issues before making disbursements so that the Bank can reduce the potential credit risk. Branches send their request to CAD for limit loading after the completion of necessary documentation vide LDCL (Loan documentation check list). Furthermore, the Bank constantly monitors clients' repayment behaviors, fulfillment of conditions given before disbursement and compliance of covenants in post disbursement period.

Credit Monitoring:

The loan portfolio with classification status is reviewed periodically and brought to the notice of senior level management regarding down gradation, overdue, special mention account (SMA), classified and rescheduled portfolio along with early alert list for their information and guidance. The Branches are communicated through letters and circulars for implementation of efficient credit risk management in a proper manner including adherence to the Bank's and Bangladesh Bank's rules and regulations.

Past Due/Over Due:

A claim that has not been paid as of its due date is termed as past due claim. Payment may be for repayment/renewal/rescheduling or as an installment of a loan. Loans will be treated as past due and or overdue in the following cases:

- ② Any Continuous Loan if not repaid/renewed within the fixed expiry date for repayment or after the demand by the bank will be treated as past due/overdue from the following day of the expiry date.
- ② Any Demand Loan if not repaid within the fixed expiry date for repayment or after the demand by the bank will be treated as past due/overdue from the following day of the expiry date.
- ② In case of any installment(s) or part of installment(s) of a Fixed Term Loan is not repaid within the fixed expiry date, the amount of unpaid installment(s) will be treated as past due/overdue from the following day of the expiry date.
- ② The Short-term Agricultural and Micro-Credit if not repaid within the fixed expiry date for repayment will be considered past due/overdue after six months of the expiry date.

For loan classification and maintenance of specific and general provision, Bank follows relevant circulars and advices of Bangladesh Bank from time to time. Provisions and interest suspense are separately shown under other liabilities as per first schedule of Bank Company Act 1991 (amendment up to 2018), instead of netting off with loans. The summary of some objective criteria for loan classification and provisioning requirement is as below:

Subjective/Qualitative Judgment for Loan Classification:

Considering the nature and performance of a loan, the bank can also classify a particular loan on the basis of subjective judgment taking into consideration the factors such as uncertainty or doubt of repayment, continuous loss of capital, adverse situation, decrease of value of securities, legal suit etc.

Condition for Qualitative Judgment:

Classification		Conditions to be fulfilled
Special Mention	i)	Assets must be classified no higher than Special Mention if any of the following deficiencies of bank management is present: <ul style="list-style-type: none"> • the loan was not made in compliance with the Bank's internal policies; • failure to maintain adequate and enforceable documentation; and/or • poor control over collateral.
	ii)	Assets must be classified no higher than Special Mention if any of the following deficiencies of the obligor is present: <ul style="list-style-type: none"> • occasional overdrawn within the past year; • below-average or declining profitability; • barely acceptable liquidity; and • Problems in strategic planning.
Sub-standard	i)	Assets must be classified no higher than Sub-standard if any of the following deficiencies of the obligor is present: <ul style="list-style-type: none"> • recurrent overdrawn; • low account turnover; • competitive difficulties; • location in a volatile industry with an acute drop in demand; • very low profitability that is also declining;

Classification		Conditions to be fulfilled
		<ul style="list-style-type: none"> • inadequate liquidity; • cash flow less than repayment of principal and interest; • weak management; • doubts about integrity of management; • conflict in corporate governance; • unjustifiable lack of external audit; and • pending litigation of a significant nature.
	ii)	Assets must be classified no higher than Sub-standard if the primary sources of repayment are insufficient to service the debt and the bank must look to secondary sources of repayment, including collateral.
	iii)	Assets must be classified no higher than Sub-standard if the banking organization has acquired the asset without the types of adequate documentation of the obligor's net worth, profitability, liquidity, and cash flow that are required in the banking organization's lending policy, or there are doubts about the validity of that documentation.
Doubtful	:	<p>Assets must be classified no higher than Doubtful if any of the following deficiencies of the obligor is present:</p> <ul style="list-style-type: none"> • permanent overdrawn; • location in an industry with poor aggregate earnings or loss of markets; • serious competitive problems; failure of key products; operational losses; • illiquidity, including the necessity to sell assets to meet operating expenses; • cash flow less than required interest payments; very poor management; • non-cooperative or hostile management; • serious doubts of the integrity of management; • doubts about true ownership; and • complete absence of faith in financial statements.
Bad/Loss		<p>Assets must be classified no higher than Bad/Loss if any of the following deficiencies of the obligor is present:</p> <ul style="list-style-type: none"> • the obligor seeks new loans to finance operational losses; • location in an industry that is disappearing; • location in the bottom quartile of its industry in terms of profitability; • technological obsolescence and very high losses; • asset sales at a loss to meet operational expenses; • cash flow less than production costs; • no repayment source except liquidation; • presence of money laundering, fraud, embezzlement, or other criminal activity; and • no further support by owners.

However, regardless of all rules and regulations the central bank can classify any loan on the basis of their subjective judgment as well as can instruct the bank to make additional provision on non-performing loans.

F. INTEREST RATE RISK IN THE BANKING BOOK (IRRBB)**Qualitative Disclosures:**

Interest rate risk affects the bank's financial condition due to adverse movements in interest rates of interest sensitive assets and liabilities. Interest Rate Risk is managed through use of Gap analysis of rate sensitive assets and liabilities and monitored through prudential limits and stress testing. The IRRBB is monitored in movements/changes on a monthly basis and the impact on Net Interest Income is assessed. Interest rate risk is the risk where changes in market interest rates might adversely affect a bank's financial condition.

Changes in interest rates affect both the current earnings (earnings perspective) as well as the net worth of the Bank (economic value perspective). Re-pricing risk is often the most apparent source of interest rate risk for a bank and is often gauged by comparing the volume of a bank's assets that mature or re-price within a given time period with the volume of liabilities that do so. The short-term impact of changes in interest rates is on the Bank's Net Interest Income (NII). In a longer term, changes in interest rates impact the cash flows on the assets, liabilities and off-balance sheet items, giving rise to a risk to the net worth of the Bank arising out of all re-pricing mismatches and other interest rate sensitive position. The ALCO formulates the policy and strategy depending on the market conditions to maximize Net Interest Income.

Quantitative Disclosures:

Gap analysis: Duration Gap

The objective of the Duration GAP Analysis is to measure the level of the Bank's exposure to interest rate risk in terms of sensitivity of Market Value of its Equity (MVE) to interest rate movements. The duration gap tells how cash flows for assets and liabilities are matched. A positive duration gap is when the duration of assets exceeds the duration of liabilities (which means greater exposure to rising interest rates).

G) MARKET RISK

Qualitative Disclosures:

a) View of the Board of Directors on trading/investment activities:

Market risk arises due to changes in the market variables such as interest rates, foreign currency exchange rates, equity prices and commodity prices. The financial instruments that are held with trading intent or to hedge against various risks, are purchased to make profit from spreads between the bids and ask price are subject to market risk. MMBPLC is exposed to market risk mostly stemming from Government Treasury Bills and Bonds, foreign currency etc.

Methods used to measure Market Risk:

There are several methods used to measure market risk and the Bank uses those methods which deem fit for a particular scenario. For measuring interest risk from earnings perspective, the Bank uses maturity gap analysis, duration gap analysis, sensitivity analysis and mark to market (MTM) method and for measuring foreign exchange risk, the Bank uses VaR analysis.

We use standardized (Rule Based) method for Calculating capital charge against market risks for minimum capital requirement of the Bank under Basel-III.

Market Risk Management System:

The Bank has its own Market Risk Management System which includes Asset Liability Risk Management (ALM) and Foreign Exchange Risk Management under the core risk management guidelines.

Asset Liability Management (ALM): The ALM policy specifically deals with liquidity risk management and interest rate risk management framework.

Foreign Exchange Risk Management: Foreign exchange risk arises when the Bank is involved in foreign currency transactions. These include foreign currency exchange, placement, investments, loans, borrowings and different contractual agreements. We use different hedging techniques to mitigate foreign exchange risks exposed to the Bank.

Policies and processes for mitigating market risk:

- ⊕ Risk Management and reporting is based on parameters such as Maturity Gap Analysis, Duration Gap Analysis, VaR etc, in line with the global best practices.
- ⊕ Risk Profiles are analyzed and mitigating strategies are suggested by the Asset Liability Committee.
- ⊕ Foreign Exchange Net Open Position (NOP) limits (Day limit / Overnight limit), deal-wise trigger limits, Stop-loss limit, Profit / Loss in respect of cross currency trading are properly monitored and exception reporting is regularly carried out.
- ⊕ Holding equities is monitored regularly so that the investment remains within the limit as set by Bangladesh Bank.
- ⊕ ALCO analyzes market and determines strategies to attain business goals.
- ⊕ Reconciliation of foreign currency transactions.

H. OPERATIONAL RISK

Qualitative Disclosures:

a) View of the Board of Directors on system to reduce Operational Risk:

Operational risk is the risk which may arise directly or indirectly due to failure or breakdown of system, people and process. This definition includes legal risk, but excludes strategic and reputation risk. The Bank manages this risk through a control based environment in which processes are documented, authorization is independent and transactions are reconciled and monitored.

All functions, whether business, control or logistics functions, must manage the operational risks that arise from their activities. Operational risks are pervasive, as a failure in one area may have a potential impact on several other areas. The Bank has therefore established a cross-functional body to actively manage operational risk as part of its governance structure.

The foundation of the operational risk framework is that all functions have adequately defined their roles and responsibilities. The functions can then collectively ensure that there is adequate segregation of duties, complete coverage of risks and clear accountability. The practice is supported by a periodic process conducted by ICCD, and monitoring external operational risk events, which ensure that the Bank stays in line with the international best practices.

Performance Gap of Executives and Staffs:

MMBPLC is an equal opportunity employer. It recognizes the importance of having the right people at right positions to achieve organizational goals. Our recruitment and selection is governed by the philosophy of fairness, transparency and diversity.

The Bank believes that training and knowledge sharing is the best way to reduce knowledge gap. Therefore, it arranges trainings on a regular basis for its employees to develop their expertise. The Bank offers competitive pay package to its employees based on performance and merit. It always tries to develop a culture where all employees can apply his/her talent and knowledge to work for the organization with high ethical standards in order to add more value to the company and for the economy.

• **Performance Management Program**

Modhumoti Bank PLC., has a comprehensive performance management program that evaluates employee’s yearly performance against business targets at the year-end. This appraisal process also identifies the competency gap and training needs of employees. All employees (except employees under probation or training) of the Bank undergo annual performance appraisal process. The process ensures that clear feedback on improvement points (performance and professional capabilities) is provided to employees by their supervisors to promote employees’ long-term career development and improved contribution to organizational performance. All regular employees undergo the annual performance and career development review.

• **Diversity in Workplace**

Modhumoti Bank PLC., believes that diverse, heterogeneous teams generate greater creativity, innovation and business development. An inclusive culture maintains and drives workforce diversity by fostering the exchange of ideas and collaboration among individuals and across groups. To speak simply, our constant success depends on maintaining a plurality of perspectives. Employees by age group and gender are noted below:

01.	Gender diversity among members of the Board of Directors	No. of male members -13	
		No. of female members -05	
02.	Gender diversity among permanent employees	i. Entry level	No. of male employees - 211

Potential external events

- ⊕ The banking sector in Bangladesh finds itself navigating through tight liquidity conditions in 2023 which may stretch to further in the year 2024;
- ⊕ Dry liquidity situation within the banking sector has triggered a steady surge in interest rates across the financial sector;
- ⊕ Declining trend of foreign exchange reserves create pressure on import of essentials commodities which resulting continuous depreciation of local currency;
- ⊕ The Balance of Payments (BoP) encountered a substantial deficit, compounded by tightened monetary conditions in major advanced economies and escalating geopolitical tensions;
- ⊕ Capital market underwent notable fluctuations mainly due to economic challenges, including high inflation, exchange rate pressures, and economic uncertainties at home and abroad;
- ⊕ The high incidence of non-performing loans (NPLs) in Bangladesh's financial sector, significantly attributed to a prevalent willful default culture;
- ⊕ Bangladesh is likely to face a series of troubles on both economic and geo-political fronts. Economic shock will be felt immediately whereas geo-political difficulty will be visible in the near future. Being globally exposed mostly through trade, the economic shock will be transmitted at a faster rate.
- ⊕ Bangladesh is also experiencing volatile foreign currency market during the year in 2023 which may stretch to further in the year 2024.
- ⊕ Bangladesh’s export to Russia and its adjacent countries would hamper and at the same time the import prices of fertilizer’s especially urea might increase due to the war.
- ⊕ Import cost would be higher due to global inflation which creates pressure on dollar prices.
- ⊕ Bank may face issue in managing affordable fund in mid/long run due to vulnerable market condition caused by slow growth, higher inflation.
- ⊕ The sanctions against Russia will create extra pressure on the Banks of the country regarding due diligence of AMLCFT risk.

Policies and processes for mitigating operational risk:

The Operational Risk Management Function is responsible for monitoring, coordinating measures, reporting on operational risks and developing the framework models and methodologies as required. The Bank identifies and assesses the operational risk inherent in all its material products, activities, processes and systems. Furthermore the Bank ensures that before new products, activities, processes and systems are introduced or undertaken, the operational risk inherent in them is subject to adequate assessment procedures. The Bank mitigates operational risks by defining, documenting and updating the relevant business processes. Furthermore, the Bank mitigates operational risk by following strict rules for the assignment of duties and responsibilities among and within the functions and a system of internal control and supervision. The main principle for organizing work flows is to segregate the business-generating functions from the recording and monitoring functions. An important factor in operational risk mitigation is also the continuous development and upgrading of strategic information and communication systems.

The Bank has adopted policies which deal with managing different Operational Risks. Bank strongly follows KYC norms for its customer dealings and other banking operations. The Audit & Inspection Unit of Internal Control and Compliance Division of the Bank, the inspection teams of Bangladesh Bank and External Auditors conduct inspection of different branches and divisions at Head Office of the Bank and submit reports presenting the findings of the inspections. Necessary control measures and corrective actions have been taken on the suggestions or observations made in these reports.

Approach for calculating capital charge for operational risk:

The Bank applies 'Basic Indicator Approach' of Basel II as prescribed by BB in revised RBCA Guidelines. Under this approach, banks have to calculate average annual gross income (GI) of last three years and multiply the result by 15% to determine required capital charge. Gross Income is the sum of 'Net Interest Income' and 'Net non-interest income' of a year or it is 'Total Operating Income' of the Bank with some adjustments as followings:

- ③ Be gross of any provision (e.g. for unpaid interest),
- ③ Be gross of operating expenses, including fees paid to outsourcing service providers,
- ③ Exclude realized profits/losses from sale of securities held to maturity in the banking book,
- ③ Exclude extraordinary or irregular items,
- ③ Exclude income derived from insurance and
- ③ Include lost interest i.e. interest suspense on SMA and classified loans.

I. LIQUIDITY RATIO

Qualitative Disclosures:

Views of BOD on system to reduce liquidity Risk:

Liquidity risk is the risk of probability to be unable to meet short term financial demands by the bank. This may occur due to the inability to convert a security or fixed asset to cash without a loss of capital and/or income in the process.

In the recent years, banks are facing a myriad of challenges; most of them triggered by new regulatory requirements. To maintain a profitable business, however, it is not enough for a bank to simply comply with new regulatory requirements: it must also optimize its business model within regulatory constraints. To do so, the bank has already been introduced regulatory ratios (as per Basel III), the Liquidity Coverage Ratio (LCR) and the Net Stable Funding Ratio (NSFR), top-down from the Board of Directors of the Bank.

In order to reduce the liquidity risk, the Board of Directors of the Bank has formed Asset Liability Committee (ALCO) and All Risk Committee at management level as per guidelines of Bangladesh Bank. ALCO regularly monitors the maintenance of the liquidity position of the Bank. The management decided to concentrate on retail or individual (small) deposits instead of large corporate deposits. The Bank also draws up contingency plans to deal with extraordinary conditions of Liquidity Risk after comprehensive scenario analysis.

Methods used to measure Liquidity risk:

Liquidity mismatch profile:

The primary tool of monitoring liquidity risk is the maturity mismatch analysis, which presents the profile of future expected cash flows under pre-defined scenarios. The Bank conduct liquidity mismatch profiling on an ongoing basis which is ultimately monitored by Treasury, ALCO, Risk Management Division and Executive Risk Management Committee.

Stress testing:

The Bank undertook stress testing and scenario analysis periodically to determine the stress situations on the liquidity of the Bank and ultimate impact of the liquidity risk on the fund management of the Bank.

Liquidity Coverage Ratio (LCR):

LCR aims to ensure the maintenance of an adequate level of unencumbered, high-quality liquid assets that can be converted into cash to meet its liquidity needs for 30 calendar days. It measures the need for liquid assets in a stressed environment, in which deposits and other sources of funds (both unsecured and secured) run off, to various extents, and unused credit facilities are also drawn down in various magnitudes.

$$LCR = \frac{\text{Stock of high quality liquid asset}}{\text{Total net cash outflows over the next 30 days}} \geq 100$$

Stock of high quality liquid asset (SHQLA):

The following components are included in the computation of SHQLA -

1. Cash on hand (Lcy + Fcy)
2. Balance with BB (Lcy+ Fcy, excluding lien)
3. Un-encumbered approved securities (excluding lien)

Net Stable Funding Ratio (NSFR):

The NSFR aims to limit over-reliance on short-term wholesale funding during times of abundant market liquidity and encourage better assessment of liquidity risk across all on- and off-balance sheet items. The minimum acceptable value of this ratio is 100 percent, indicating that available stable funding (ASF) should be at least equal to required stable funding (RSF).

NSFR=	Available amount of stable funding (ASF)	≥100
	Required amount of stable funding (RSF)	

Liquidity risk management system:

Liquidity risk management is a key banking function and an integral part of the asset and liability management process. The fundamental role of banks is the maturity transformation of short-term deposits (liabilities) into long-term loans (assets) and this makes banks inherently vulnerable to liquidity risk. The transformation process creates asset and liability maturity mismatches on a bank’s balance sheet that must be actively managed with available liquidity. This is the process known as liquidity risk management.

The primary role of liquidity-risk management is to (1) prospectively assess the need for funds to meet obligations and (2) ensure the availability of cash or collateral to fulfill those needs duly by coordinating the various sources of funds available to the institution under normal and stressed conditions.

Policies and processes for mitigating liquidity risk:

The Bank has Treasury Policy, Contingency Funding Plan and Wholesale Borrowing and Funding Policy to combat liquidity risk of the Bank. The Board and the management implement the following processes in the bank for superior liquidity risk management:

- ⊙ **Liquidity risk tolerance:** Bank set liquidity risk tolerance (Management Action Trigger) e.g. Maximum Cumulative Outflow (MCO) at 16%, AD Ratio at 80%, LCR at 105%, NSFR at 102% etc.;
- ⊙ Maintaining adequate levels of liquidity considering the average daily withdrawal by the customers;
- ⊙ Identification and measurement of contingent liquidity risks arising from unseen scenarios.
- ⊙ **Contingency funding plan:** Contingency funding plans incorporate events that could rapidly affect the bank's liquidity arising from sudden inability to call back long-term loans and advances, or the loss of a large depositor or counterparties.
- ⊙ Public disclosure in promoting market discipline under Pillar 3 of Basel III.

J. LEVERAGE RATIO

Qualitative Disclosures:

Views of BOD on system to reduce excessive leverage:

Excessive leverage by banks is widely believed to have contributed to the global financial crisis in 2008. To address this, the international community has proposed the adoption of a non-risk-based capital measure, the leverage ratio, as an additional prudential tool to complement minimum capital adequacy requirements. Accordingly, leverage ratio has been introduced under Basel III. Leverage ratio is the relative amount of Tire 1 capital to total exposure of the Bank (not risk-weighted) which has been set at minimum 3%. Under Basel III, a simple, transparent, non-risk based regulatory leverage ratio has been introduced to achieve the following objectives:

- ⊙ constrain leverage in the banking sector, thus helping to mitigate the risk of the destabilizing deleveraging processes which can damage the financial system and the economy
- ⊙ introduce additional safeguards against model risk and measurement error by supplementing the risk-based measure with a simple, transparent, independent measure of risk

The Board Risk Management Committee regularly reviews the leverage ratios and advice the management to strictly monitor the ratio in addition to the Pillar 1 Minimum Capital Requirement.

Policies and processes for managing excessive on and off- balance sheet leverage:

The Bank reviews its leverage position as per the Guidelines on Risk Based Capital Adequacy (revised regulatory capital framework for banks in line with Basel III). In addition, the Bank has Risk Appetite as per Credit Risk Management Policy and Risk Appetite Framework of the Bank. The Bank also employ Annual Budget Plan and Capital Growth Plan for managing excessive on and off-balance sheet leverage.

Approach for calculating exposure:

The Bank calculates the exposure under standardized approach as per the Guidelines on Risk Based Capital Adequacy (revised regulatory capital framework for banks in line with Basel III).

K. REMUNERATION

Qualitative Disclosures:

a) Information relating to the bodies that oversee remuneration

Name, composition and mandate of the main body overseeing remuneration:

The Board of Directors of the Bank oversee the remuneration of the employees and members of the Board of the Bank. The Bank has no separate committee in the Board to look after the remuneration issues of the Bank. The Board set competitive salary and bonuses for the employees of the Bank. However, the Board allows the remuneration to its members as per the guidance of Bangladesh Bank.

The remuneration strategy is designed to reward competitively the achievement of long-term sustainable performance and attract and motivate the very best people who are committed to maintaining a long-term career with the Bank and performing their role in the long-term interests of our shareholders.

To achieve this objective, the Bank believes that effective governance of our remuneration practices is a key requirement. Governance of remuneration principles and oversight of its implementation by the Board ensures what we pay our people is aligned to our business strategy and performance is judged not only on what is achieved over the short and long term but also importantly on how it is achieved, as we believe the latter contributes to the long-term sustainability of the business.

External consultants for remuneration process:

There is no external consultant in the bank for setting remuneration for its employees of the Bank.

Scope of the Bank's remuneration policy:

The Board formulate different policies e.g. HR Policy, Increment Policy, Promotion Policy, Provident Fund Policy and Gratuity Fund Policy which eventually supplement the remuneration of the employees.

The Board periodically reviews the adequacy and effectiveness of the Bank's remuneration policy and ensures that the policy meets the commercial requirement to remain competitive, is affordable, allows flexibility in response to prevailing circumstances and is consistent with effective risk management.

Types of employees considered as material risk takers and as senior managers:

There are 56 employees are considered as material risk takers which include the Managing Director & CEO, Chief Risk Officer, Chief Operating Officer, Chief Business Officer, Head of Treasury, Head of Corporate & Investment Banking Division and 50 branch managers.

Apart from that EVP and above employees can be considered as senior managers who eventually perform management role in achieving the organization's goal. Accordingly, the Bank has 9 senior managers working in different areas of the Bank.

b) Information relating to the design and structure of remuneration processes

Overview of the key features and objectives of remuneration policy:

Key features of the remuneration policy and the structure of remuneration process of the Bank are noted below:

Fixed pay	:	The purpose of the fixed pay is to attract and retain employees by paying market competitive pay for the role, skills and experience required for the business. This includes salary, fixed pay allowance, cash in lieu of pension and other cash allowances in accordance with local market practices These payments are fixed and do not vary with performance.
Benefits	:	The Bank provides benefits in accordance with the industry practice of the country. This includes but is not limited to the provision of provident fund, gratuity fund, medical allowances, transport loan and house building loan etc.
Annual incentive	:	The Bank provides annual incentive based on the achievement of the business and profit target of the Bank. The Bank provide performance based incentive to its employees. Bonus paid based on the last basic salary of the employee of the Bank. However, bonus for MD & CEO has maximum limit of Tk.10.00 lac as per guidelines of Bangladesh Bank.

Only cash, and cash equivalent remuneration shall be permitted – no equity or equity linked payments are permitted in the bank.

Objectives of remuneration policy:

The main objectives of the remuneration policy are to attract, retain and reward talented staff and management, by offering compensation that is competitive within the industry, motivates management to achieve the bank's business objectives and encourage high level of performance and aligns the interests of management with the interests of shareholders.

Whether the remuneration committee reviewed the firm's remuneration policy during the past year, and if so, an overview of any changes that were made:

The Bank has no remuneration committee comprising the members from the Board. However, the Board of Directors determine the policies relating to the remuneration for the employees and review time to time if necessary. The Board of Directors approved a performance bonus for the eligible employees of the Bank for the year 2023.

Whether risk and compliance employees are remunerated independently of the businesses they oversee:

The Bank has no separate policy for remuneration of the risk and compliance employees of the Bank.

c) Description of the ways in which current and future risks are taken into account in the remuneration processes**Overview of the key risks that the Bank takes into account when implementing remuneration measures:**

The Bank's policy is to ensure that the level and composition of remuneration is appropriate and fair having regard to competitive forces and the interests of the Bank, its shareholder's and that its relationship to performance is clear in present and future environment.

The Bank considers the general inflation, pay structure of the banking industry and national pay-scale in determining the salary structure of the employees. If the pay structure cannot be competitive then good employees may leave the organization i.e. employees turnover will increase which may negatively impact the business of the Bank.

Overview of the nature and type of the key measures used to take account of these risks, including risks difficult to measure:

The management proposes competitive remuneration and other non-financial benefits like promotion, training etc. so that employees turnover ratio can be kept under tolerable limit. Sometimes few issues are difficult to measure relating to employees e.g. creativity, helpfulness to customers, commitment risk etc. In such cases, management applies qualitative judgment for determining the remuneration especially annual incentive or bonuses.

A discussion of the ways in which these measures affect remuneration:

Qualitative judgment may affect the remuneration as there is no direct way to determine the remuneration.

A discussion of how the nature and type of these measures has changed over the past year and reasons for the change, as well as the impact of changes on remuneration:

No visible changes have been made in respect to the nature and type of the measures used regarding the key risks take into account when implementing remuneration.

d) Description of the ways in which the Bank seeks to link performance during a performance measurement period with levels of remuneration**An overview of main performance metrics for bank, top-level business lines and individuals:**

Staff are subject to performance management reviews annually. Remuneration, including bonuses, are in alignment with the outcome of these reviews. The reviews are being done based on annual confidential report (ACR) and annual performance appraisal report (APR) including the business performance of the employees.

A discussion of how amounts of individual remuneration are linked to bank-wide and individual performance:

Remuneration is based on bank-wide business performance including achievement of profit target, loans and advances target etc. These have impact on the number and amount of incentive bonuses for the respective year.

Remuneration increases will only take place if the Bank's overall performance is positive, and the individual's performance is considered to be exceeding expectations.

A discussion of the measures the Bank will in general implement to adjust remuneration in the event that performance metrics are weak:

If the performance metrics of the Bank are found weak, then no increases in remuneration may take place despite personal achievements of employees. In such case, the management takes initiative to improve the performance metrics so that individual remuneration of the employees cannot be hampered for prolonged period.

SUSTAINABILITY ANALYSIS

Managing Director & CEO's message on **Sustainability Reporting**

Modhumoti Bank PLC. acts as responsible corporate citizen and formulates strategies for sustainable financing. We have prepared Sustainability report to communicate Bank's performance and evaluation of socioeconomic and environmental performance, Bank's advancement toward the Sustainable Development Goals (SDGs), enhancing transparency, and ensuring that it is held responsible to internal and external stakeholders. It enables us to be more transparent about the risks and opportunities the Bank faces, giving stakeholders greater insight into performance beyond the bottom line.

Our world is going to witness a paradigm shift in Banking Services in the era of 4th Industrial revolution. Banking Service is transforming with align to Artificial intelligence, Internet Availability and Cashless Services. In the early months of 2023, the country's economy showcased a significant turnaround to the threads of recession but later half of the year global economy witnessed a new challenge because of Russia-Ukraine War leading to energy crisis, shortage of dollar due to high interest rate of Federal Reserve Bank of America and supply chain disruption.

Though we have passed a year full of uncertainty, we warmly accepted the challenge of transformation toward digitalization and resilient growth providing the best service to our customers. Most importantly, as both individuals and businesses, we have developed a deeper appreciation for our responsibility as citizens of one planet. We have seen the spirit of cooperation that will keep humanity and the purpose of businesses alive for generations. We manage our business and people with the responsibility of delivering sustainable financial returns. A commitment to principle of good governance and the strategic role of our Board, Senior Leadership and skilled workforce collectively contribute to shaping a profitable organization.

From the very beginning of journey of Modhumoti Bank PLC. involved in Banking Service a view to support sustainable and inclusive growth by connecting the ideas, innovations and aspirations of our customers and clients. We are involved in banking with the firm commitment of excellence in customer services and with a mission to be an efficient, market driven, customer focused institution with good corporate governance structure through designing and adopting policies to embed sustainability into our operations, undertaking awareness and capacity building activities, supporting & financing environment friendly business initiatives, and ensuring transparency in financial as well as sustainability reporting.

Right after circulation of Mujib Climate Prosperity Plan, Modhumoti Bank PLC believes in improvising robust socio-economic development integrating climate resilience and building Zero Carbon economy. Modhumoti Bank PLC. is focusing on improvements of our business and operational policies & procedures so that we can act sustainably in our everyday business. In our view, sustainability presents an opportunity to use our skills, expertise and relationships to make a positive difference to individuals, society and environment. Building trust by being open, approachable, transparent and acting with integrity is vital to achieving this objective.

Complying with Sustainable Finance Policy of Bangladesh Bank, Modhumoti Bank PLC. has already established an independent 'Sustainable Finance Unit (SFU)' which is working on formulation, amendment & up-gradation of policies related to green banking, Corporate Social Responsibility, Environmental and Social Risk Management, Green Office Guide, Green Strategic Plan etc. The Unit also ensures implementation of directives related to Sustainable Development Goals (SDGs) provided by the Bangladesh Government and Bangladesh Bank from time to time. We aligned our policies according to Vision 2031 to make Bangladesh 100% Literacy rate and inclusion of 75% of the population of the universal health care and we are pleased to contribute in Education, health and other infrastructure development of Bangladesh through our CSR wing under Sustainable Finance Unit in association with other concerned Divisions.

In the year of 2023, Modhumoti Bank PLC. disbursed Tk. 5.95 crore as a part of Corporate Social Responsibility Program with a view to development of Education, Culture, Sports and Disaster Management Sectors in Bangladesh and accelerating philanthropic activities in our country. Besides, Modhumoti Bank PLC. has disbursed Tk138.46 crore under Green Finance Program against regulatory requirement of 105 crore taka in the year of 2023.

Sustainability reporting can help organizations to measure, understand and communicate their economic, environmental, social & governance performance, and then set goals, and manage change more effectively. It presents how the activities of a Bank are supporting the achievement of SDGs which embrace a universal approach to the sustainable development agenda. Sustainability reporting related issues are reviewed & executed by the Sustainable Finance Unit in association with 'Finance & Accounts Division (FAD)'. In this regard, Sustainability Reporting Standards issued by the Global Reporting Initiatives (GRIs) are being followed by the Bank.

In conclusion, Modhumoti Bank PLC. is working relentlessly for implementing Green Transition Strategies to create more responsible Financial System and again we would like to make the promise to our esteemed stakeholders and the society at large on behalf of Modhumoti Bank family that we strive to allocate capital to projects and businesses that create positive environmental and social impacts to create bridge between shareholder's values, profitability and legacy of responsible business entity.

Message from the Chairman

Sustainable Finance Committee

“Sustainability is our New Product in the sense of Customer choice Bank as well as Employee choice Bank” The world economy and Banking industry had yet another turbulent year. The international community was put to the test by one crisis after another, including ongoing inflation, climatic change, food insecurity, and both civil and intergovernmental cold war, even as impact of the COVID-19 pandemic started to settle down. Many developing nations have to deal with declining economic prospects, declining investment, and rising debt. These patterns are endangering the advancement of the Sustainable Development Goals and undoing hard-won development gains.

After an initial post-pandemic recovery of GDP 7.2 percent in 2022, GDP of Bangladesh is predicted to grow by 6.00 percent in 2023 and to stay moderate at 5.6 percent in 2024. Uncontrolled Inflation, Tightening Fiscal Policy, volatile exchange rate has made Bangladesh's economic prospects less favorable, with most nations facing significant downside risks as a result of constrained fiscal space and decreasing reserves. Moreover, since 2022, start of Russia-Ukraine war, shipping cost has increased by 10-12% and in 2024 shipping cost has increased by 40% due to turmoil in Red sea, leading to higher trade tension of Bangladeshi Exporters and Importers.

COP- 28 held on 2023 come up with a new agenda of transition away from fossil fuels to renewables energies to reduce climate related risk around the world. In Mujib Climate Prosperity Plan for decade 2030, it has been predicted that, impact of climate change could result in 6.8% loss in GDP per year by 2030, if not addressed. For which Modhumoti Bank PLC is taking a balanced approach in terms of financing aligning

The terms "sustainable finance" and "green banking" gained popularity when Bangladesh Bank published policy recommendations for green banking in February 2011 that were applicable to non-bank financial institutions (NBFIs) as well as banks. Bangladesh Bank issued Guidelines on Environmental & Social Risk Management (ESRM) in 2017 and also issued Sustainable Finance Policy in 2020 for ensuring the sustainable banking practices to achieve the SDGs target of the country. Modhumoti Bank PLC. has already formulated ESRM Policy as per the guidelines of Bangladesh Bank which is duly approved by the Board of Directors of the Bank.

There is a growing movement, worldwide, to not only be a more responsible corporate citizen, but to trade on that fact and Sustainability Reporting is the prerequisite of this undertaking for diverse organizations in the recent time. Sustainable Business, Corporate Social Responsibility, Environmental and Social Risk Assessments are other terms heard increasingly in business, investment and governance forums today and this believes the growing significance of this activity.

Bangladesh is aspiring to be an upper middle- income country within 2031. Aligning the vision of our country Modhumoti Bank PLC. is trying to contribute in Infrastructure development, and qualitative development in our country like cultural and educational development. It is our immense pleasure that the Bank believes in ethical banking business which takes into consideration of the environment and society in lending and also creating different deposit products. The Bank has extended loans in environment friendly brick kiln and green feature building and also has provided around 20.73% of its financing in CMSME sectors which creates huge job opportunities for the communities involved. The Bank has already established more than 611 agent points increasing by 50 agents in 2023 across the country from a view point of financial inclusion, an effort to include the unbanked population of the country in the formal banking channel. The Bank has also contributed to a wide range of local initiatives which includes relief and medical support to poverty-stricken people of the country, donations to fire, flood and cold wave affected people through Bank's own channel and Prime Minister's Relief & Welfare Fund under CSR activities of the Bank.

We hereby presenting our Sustainability Report which will demonstrate the effort of Modhumoti Bank PLC. in ensuring the sustainable growth of the Bank complying the Environmental and Social Risk Management Guidelines, Sustainable Finance Policy of Bangladesh Bank and also the SDGs of UNDP. And last but not the least; we will continue to value the demand of the society as a whole including the people, customers, shareholders, communities and all other stakeholders under a fiduciary duty to invest in a sustainable future, not only for financial returns but for the well-being of our planet and society.

Sustainable Banking

Sustainability is identified as basic driver for the growth of developing economies. Sustainable banking is a strategy that refers to banking and investment practices that pursue profit, while prioritizing social responsibility and/or environmental sustainability. Sustainability is the process of change, in which the exploitation of resources, the direction of investments, the orientation of technological development and institutional change are all in harmony and enhance both current and future potential. Sustainable development is such development that meets the needs of the present without compromising the ability of future generations to meet their own needs.

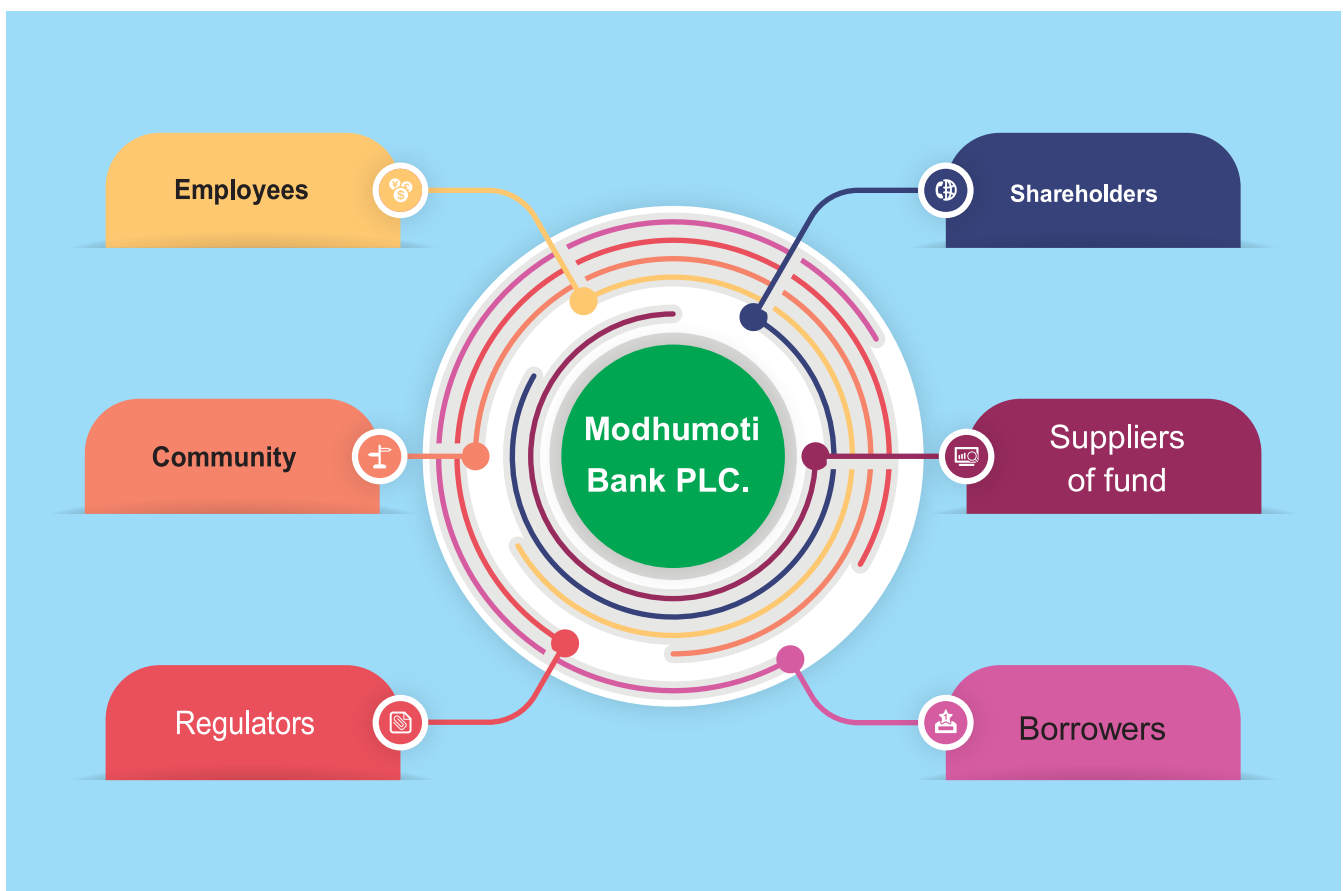

Moving towards sustainability is also a social challenge that entails international and national laws, urban planning and transport, local and individual lifestyles and ethical consumerism. By integrating social and environmental responsibility into core business processes and stakeholder management, the Bank recognizes its ability to achieve the ultimate goal of creating both social and corporate value.

Modhumoti Bank PLC. is growing both in terms of asset and liability, profit and human resources. We are committed to serve all strata of society and through careful customer segmentation that provide financial access and services across the continuum of socio-demographic groups.

The Bank believes that growth should be both inclusive and environmentally sound to reduce poverty and build shared prosperity for our society to continue to meet up the needs of future generations. We are working towards building a solid business model capable of generating stable revenue, delighted customers, disciplined use of capital, rationalization of cost, prudent risk management, and strength of brand to become sustainable banking institute of the country. Being sustainable also means taking responsible decisions in context of ethical, social and environmental issues as well as long sustainable development of the country.

Stakeholders of sustainable banking

Commitment to Sustainable Development

The United Nations General Assembly formally adopted the 2030 Agenda for Sustainable Development on 25 September 2015, along with a set of 17 Sustainable Development Goals and 169 associated targets. Building upon the success of the Millennium Development Goals, this new development agenda is the international community's primary guide for sustainable development in the years to come. Like never before, the sustainability aspects of development are considered of primary concern at local, national, regional and international levels.

Modhumoti Bank is in a process of managing relationships with stakeholders in the context of the world's foremost sustainability challenges and committed towards these goals and is helping to achieve them through its business activities and its community investment program.

Social Development

Inclusive Social Development encompasses a wide range of issues, including but not limited to: poverty eradication, the reduction of inequalities, employment generation, the promotion of cooperatives, family, the role of civil society, older persons and ageing, youth, disability, and indigenous peoples.

In this aspect, Modhumoti Bank PLC. has taken a number of initiatives including opening of Tk.10 account for the marginal farmers, employment of 825 employees including 154 support staffs, CSR expenditure for the society, opened 611 Agent Banking Points (as on 31.12.2023) for bringing unbanked population in the formal banking channel.

Environmental & Social Risk Management

The ESRM Policy of the Bank has been outlined as per the Guidelines on Environmental & Social Risk Management (ESRM) for Banks and Financial Institutions in Bangladesh issued by Bangladesh Bank through SFD Circular No.2, dated February 08, 2017. The policy has duly been approved by the Board of Directors of the Bank.

The Policy has been introduced to analyse relevant Environment & Social (E&S) risks and incorporate appropriate risk mitigation measures in overall credit management to be able for expanding the credit portfolio rather than avoid investing in high E&S risks.

The ESRM Policy of the Bank has been incorporated in the Bank in order to

- ④ incorporate environmental risk in overall credit management;
- ④ fortify the risk management process and structure of the Bank;
- ④ integrate ESRM considerations into the Bank's credit and investment decision-making processes;
- ④ fully implement and comply with regulatory and national requirements for E&S risk management of the country;
- ④ promote greater transparency and accountability on E&S issues internally and externally through disclosure and reporting.

Online & SMS Banking

The customers can transact online through all the branches of the Bank i.e. 100% online banking network. The internet banking of the Bank is also getting momentum. Presently 100 per cent of the total accounts are facilitated with SMS Banking. In addition, the Bank has already been connected to the National Payment Switch of Bangladesh (NPSB) which enables the Bank widely through almost all the ATM Booths of the country.

Corporate Social Responsibility

In the context of Banking, Corporate Social Responsibility is the commitment of the Bank to the stakeholders in conducting business in an economically, socially and environmentally sustainable manner that is transparent and ethical so that stakeholders are not negatively impacted for the activities of the Bank. The stakeholders include employees, investors, shareholders, customers, business partners, clients, civil society groups, Government and non-government organizations, local communities, environment and society at large.

On the other hand, Corporate Social Responsibility (CSR) refers to self-regulatory mechanism whereby a bank ensures its active compliance with the spirit of the law, ethical standards and national or international norms. Bangladesh Bank CSR Guideline is the guiding principle in designing our CSR roadmap. MMBPLC prioritizes on long-term programs rather than the short-term ones that have sustainable and lasting impact on the people and society of the country.

Our system of corporate governance provides the basis for the responsible management, transparency of processes and compliance to regulatory bodies with a focus on sustainable value creation. Since inception, the Bank actively participated in many endeavor as part of the CSR activities of the Bank. Sustainable Finance Unit of the Bank presently looks after the CSR activities of the Bank including reporting on CSR activities in the prescribed format to Bangladesh Bank in timely manner.

In this respect, the Bank has a well-defined policy titled 'Corporate Social Responsibility (CSR) Policy of Modhumoti Bank PLC.' with the following objectives:

- ② The policy acts as the guiding principles for implementing CSR initiatives of the Bank;

Preventive and Curative Healthcare

Health is one of the prime parameters to indicate the development of a nation. The need for healthcare is increasing everyday due to rapid growth of population. MMBPLC has identified health care as a priority sector and helped the people to prevent the diseases in this sector. In 2023, MMBPLC has spent Taka 8.41 million in the Preventive and Curative Healthcare sector.

Contribution to National Exchequer

Being a responsible and tax abiding corporate citizen, the Bank regularly pays corporate tax on time, sometime even before it falls due as required and asked by the tax authority. We also deposit excise duty, withheld tax and VAT to govt. exchequer on time by deducting from employees' salary as well as payments to customers and vendors according to rules. Contribution of the Bank to the national exchequer in 2023 is noted below:

BDT in million

SL No.	Particulars	Amount
1	Excise duty	111.52
2	Withheld tax	1,072.74
3	VAT	165.14
4	Corporate income tax	602.88
	Total	1,952.29

Environmental aspect

The Bank believes that every small 'GREEN' step taken today would go a long way in building a greener future. As an environment responsive bank we initiated Go Green campaign in our Bank. After reducing the use of electricity and paper at the office, Modhumoti Bank is now gearing up for carbon trading to show its commitment to environment-friendly funding. Some of our branches and ATMs of the bank are now run partially on solar power. The Bank also ensures that customers having production facilities susceptible to damage environment has due environmental clearance certificate from the concerned ministry while granting or renewing credit facilities.

Empowering women

Empowering women to participate fully in economic life across all sectors is essential to build stronger economies, achieve internationally agreed goals for development and sustainability, and improve the quality of life for women, men, families and communities. The Bank has special products for women entrepreneurs at special discounted loan pricing to provide growth support. Women clients can avail Modhumoti Labonnyo Loan up to Tk.0.08 million without any collateral security but up-to Tk.5.00 million with collateral under SME Loans. It is to be noted that the outstanding loan for women entrepreneur was Tk.337.78 million as of December 31, 2023.

Community Services

To serve the community as part of our responsibility, the Bank introduced Agent Banking services in 2016 and there are 611 agent points across the country till December 2023 and 353,269 deposit accounts maintained in the agent points of the Bank. The agent points are located in the Union Digital Center, rural/remote area of the country which facilitate less privileged population segments and underserved economic sectors of the country. The Bank facilitates the freedom fighters, senior citizens and women with higher interest rate for deposits and lower interest rate for loans & advances. The Bank is also serving the underprivileged people, especially who get allowances under Social Safety Net of the Government, through disbursement of Govt. allowances through accounts maintained with agent points of the Bank. The Bank also sponsors different sports and individual adventure for enriching the image of the country.

FINANCIAL STATEMENTS

Independent Auditor's Report

To the Shareholders of
Modhumoti Bank PLC.

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Modhumoti Bank PLC. (the "Bank"), which comprise the balance sheet as at 31 December 2023 and the profit and loss account, statement of changes in equity and cash flow statement for the year then ended, and notes to the financial statements, including a summary of Material accounting policy information.

In our opinion, the accompanying financial statements of the Bank give a true and fair view of the Balance Sheet of the Bank as at 31 December 2023, and of its profit and loss account and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs) as explained in note 2.1.

Basis for Opinion

We conducted our audit in accordance with the International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Bank in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code), Bangladesh Securities and Exchange Commission (BSEC) and Bangladesh Bank, and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code and the Institute of Chartered Accountants of Bangladesh (ICAB) Bye Laws. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

Management is responsible for the other information. The other information comprises all of the information in the Annual Report other than the financial statements and our auditors' report thereon. The Annual Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements, or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, on the other information obtained prior to the date of this audit report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements and Internal Controls

Management is responsible for the preparation and fair presentation of the financial statements of the Bank in accordance with IFRSs as explained in note 2.01, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error. The Bank Company Act, 1991 and the Bangladesh Bank Regulations require the Management to ensure effective internal audit, internal control and risk management functions of the Bank. The Management is also required to make a self-assessment on the effectiveness of anti-fraud internal controls and report to Bangladesh Bank on instances of fraud and forgeries.

In preparing the financial statements, management is responsible for assessing the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Bank or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Bank's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- ② Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ② Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances.
- ② Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- ② Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Bank's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Bank to cease to continue as a going concern.
- ② Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- ② Obtain sufficient appropriate audit evidence regarding the financial information of the Bank or business activities within the Bank to express an opinion on the financial statements. We are responsible for the direction, supervision and performance of the Bank audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on other Legal and Regulatory Requirements

In accordance with the Companies Act, 1994, the Bank Company Act, 1991 and the rules and regulations issued by Bangladesh Bank, we also report that:

- (i) we have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit and made due verification thereof;

- (ii) to the extent noted during the course of our audit work performed on the basis stated under the Auditor's Responsibility section in forming the above opinion on the financial statements of the Bank and considering the reports of the Management to Bangladesh Bank on antifraud internal controls and instances of fraud and forgeries as stated under the Management's Responsibility for the financial statements and internal control:
 - a. internal audit, internal control and risk management arrangements of the Bank as disclosed in the financial statements appeared to be materially adequate;
 - b. nothing has come to our attention regarding material instances of forgery or irregularity or administrative error and exception or anything detrimental committed by employees of the Bank and its related entities.
- (iii) in our opinion, proper books of accounts as required by law have been kept by the Bank so far as it appeared from our examination of those books;
- (iv) the records and statements submitted by the branches have been properly maintained in the financial statements;
- (v) the balance sheet and profit and loss account together with the annexed notes dealt with by the report are in agreement with the books of account and returns;
- (vi) the expenditures incurred were for the purpose of the Bank's business for the year;
- (vii) the financial statements of the Bank have been drawn up in conformity with prevailing rules, regulations and accounting standards as well as related guidance issued by Bangladesh Bank;
- (viii) adequate provisions have been made for advance and other assets which are in our opinion, doubtful of recovery;
- (ix) the information and explanations required by us have been received and found satisfactory;
- (x) we have reviewed over 80% of the risk weighted assets of the Bank and spent over 1,320 person hours; and
- (xi) Capital to Risk-weighted Asset Ratio (CRAR) as required by Bangladesh Bank has been maintained adequately during the year.

Notes to the Financial Statements

As at and for the year ended 31 December 2023

1. Reporting entity

1.1 Legal status and nature of the Bank

Modhumoti Bank PLC. (the "Bank") is a scheduled commercial bank in the private sector established under the Bank Companies Act 1991 and incorporated in Bangladesh as a public limited company to carry out banking business in Bangladesh. The registered office of the Bank is located at Banglar Bani Bhaban, 81, Motijheel C/A, Dhaka-1000. The Bank has been running its banking operation following the Bank Companies Act 1991 (as amended up to the date), Central Bank's (Bangladesh Bank) regulation, Bangladesh Securities and Exchange Commission (BSEC) Rules & Regulations and all other laws & rules applicable in Bangladesh. The financial statements of the Bank as at and for the year ended December 31, 2023 provide financial information that is useful to existing and potential investors, borrowers, depositors, customers, creditors, regulators and other stakeholders to make their decision on banking & financial transactions, non-financial as well as compliance related issues.

1.2 Principal activities of the Bank

The Bank has 50 branches and 1 Off-shore Banking Unit as on 31 December 2023. The Bank offers services for all commercial banking needs of the customers, which includes deposit banking, loans and advances, export import financing, inland and international remittance facility, etc. The Bank is being run by a competent 'Management Team', under supervision of a strategic Board of Directors, having long sound background to serve the enterprises ranging from micro, small and medium enterprises and industries to large corporate houses keeping the tagline in mind, "Your Access to Success".

1.3 Off-shore Banking Unit (OBU)

The Bank obtained the Off-shore Banking Unit permission vide letter no. BRPD (P-3)744(124)/2015-2447, dated April 02, 2015. The Off-shore Banking Unit commenced its commercial operation on September 23, 2015. The Bank established its Offshore Banking Unit (OBU) with a view of catering the banking requirement of non-resident customers to increase foreign trade business at Export Processing Zones (EPZs). Over the years, OBU has become an important strategic business unit due to growing demand of cheaper foreign currency loan and Usance Payable at Sight (UPAS) Letter of Credit from the clients. The principal activities of the Unit are to provide all kinds of commercial banking services to its customers in foreign currencies approved by the Bangladesh Bank. Presently, the Bank has one Off-shore Banking Unit in operation in Bangladesh. The Unit is governed under the rules and guidelines of Bangladesh Bank.

2. Basis of preparation of Financial Statements

2.1 Statement of compliance

The financial statements of the Bank have been made for the year ended 31 December 2023 and are prepared under the historical cost basis, except for certain investments which are stated at fair/market value in accordance with the First Schedule (Sec-38) of the Bank Companies Act 1991 (as amended up to the date), BRPD Circular # 14 dated June 25, 2003 and DFIM Circular # 11, dated December 23, 2009, other Bangladesh Bank Circulars, International Accounting Standards ("IAS") and International Financial Reporting Standards ("IFRS"), the Companies Act 1994, the Securities and Exchange Rules 1987, Dhaka & Chittagong Stock Exchanges' listing regulations and other laws & rules applicable in Bangladesh. In cases where the requirements of Bangladesh Bank differ with those of IAS/IFRS, the requirements of Bangladesh Bank have been applied.

The Financial Reporting Act 2015 (FRA) was enacted in 2015. Under the FRA, there is a Financial Reporting Council (FRC) to adopt & issue financial reporting standards for public interest entities such as Banks. The Bank Companies Act 1991 has been amended to require Banks to prepare their financial statements under such financial reporting standards. The FRC has been formed but yet to issue any financial reporting standards as per the provisions of the FRA and hence International Financial Reporting Standards (IFRS) as issued by the Institute of Chartered Accountants of Bangladesh (ICAB) are still applicable.

Accordingly, the financial statements of the Bank continue to be prepared in accordance with International Financial Reporting Standards (IFRS) and the requirements of Bank Companies Act 1991, the rules and regulations issued by Bangladesh Bank, the Companies Act 1994, Securities and Exchange Rules 1987. In case, any requirement of the Bank Companies Act 1991, and provisions and circulars issued by Bangladesh Bank differ with those of IAS/IFRS, the requirements of the Bank Companies Act 1991, and provisions and circulars issued by Bangladesh Bank shall prevail.

2.1.2 Use of estimates and judgments

In preparation of the financial statements management is required to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amount of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on a going concern basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

The most significant areas where estimates and judgments have been applied are to calculate provision for loans, advances and investments as per Bangladesh Bank guideline.

2.1.3 Foreign currency transaction

Foreign currency transactions are converted into equivalent BDT using the prevailing exchange rates on the dates of respective transactions as per IAS-21, "The Effects of Changes in Foreign Exchange Rates". Foreign currency balances held in US Dollar are converted into BDT at weighted average rate of inter-bank market as determined by Bangladesh Bank on the closing date of every month. Balances held in foreign currencies other than US Dollar are converted into equivalent US Dollar at buying rates of New York closing of the previous day and converted into equivalent BDT.

Assets and liabilities & income and expenses of Off-shore Banking Units have been converted into BDT currency @ US\$1 = Taka 109.7500 (closing rate as at 31st December 2023) & Taka 107.7241 (average rate at year-end).

Commitments

Commitments for outstanding forward foreign exchange contracts disclosed in these financial statements are translated at rates mentioned in contracts. Contingent liabilities / commitments for letters of credit and letters of guarantee denominated in foreign currencies are expressed in BDT terms at the rates of exchange prevailing on the balance sheet date.

Translation gains and losses

The resulting exchange transaction gains and losses are included in the profit and loss account.

2.1.4 Statement of cash flows

Statement of cash flows have been prepared in accordance with the BRPD Circular No. 14, dated June 25, 2003 issued by the Banking Regulation & Policy Department of Bangladesh Bank.

2.1.5 Liquidity statement

2.2 Assets and basis of their valuation

2.2.1 Cash and cash equivalents

Cash and cash equivalents include notes and coins on hand, unrestricted balances held with Bangladesh Bank and highly liquid financial assets which are subject to insignificant risk of changes in their fair value, and are used by the Bank management for its short-term commitments.

2.2.2 Loans, advances and lease / investments

- a) Loans and advances are stated in the balance sheet on gross basis.
- b) Interest is calculated on a daily product basis but charged and accounted for on accrual basis. Interest on classified loans and advances is kept in suspense account as per Bangladesh Bank instructions and such interest is not accounted for as income until realised from borrowers. Interest is not charged on bad and loss loans as per guidelines of Bangladesh Bank. Records of such interest amounts are kept in separate memorandum accounts.
- c) Commission and discounts on bills purchased and discounted are recognized at the time of realization.
- d) Provision for loans and advances is made on the basis of year-end review by the management following instructions contained in Bangladesh Bank BCD Circular no. 34, dated November 16, 1989, BCD Circular no. 20, dated December 27, 1994, BCD Circular no. 12, dated September 4, 1995, BRPD Circular no. 16, dated December 6, 1998, BRPD Circular no. 9, dated May 14, 2001, BRPD Circular no.02, February 2005, BRPD Circular no. 09, August 2005, BRPD Circular no. 17, dated December 06, 2005, BRPD circular no.32, dated October 27, 2010, BRPD Circular no.14, dated September 23, 2012, BRPD Circular no19, dated December 27, 2012, BRPD Circular no 05, dated May 29, 2013, BRPD Circular no 16, dated November 18, 2014, BRPD Circular no12, dated August 20, 2017, BRPD Circular no 15, dated September 27, 2017, BRPD Circular No. 07, dated June 21, 2018, BRPD Circular No. 13 dated October 18, 2018, BRPD Circular No. 52 dated October 20, 2020, BRPD Circular No. 16 dated July 21, 2020, BRPD Circular No. 56 dated December 10, 2020, BRPD Circular No. 3 dated January 31, 2021, BRPD Circular No. 5 dated March 24, 2021, BRPD Circular No. 19 dated August 26, 2021, BRPD Circular No. 50 dated December 14, 2021, BRPD Circular No. 53 dated December 30, 2021, BRPD Circular Letter No. 53 dated December 22, 2022 and BRPD Circular Letter No. 03 dated February 02, 2023. The rates of provision for loans and advances are given below:

Particulars	Rate
General provision on unclassified general loans and advances / investments	1%
General provision on unclassified small enterprise financing	0.25%
General provision on interest receivable on loans / investments	1%
General provision on unclassified loans / investments for housing finance, loans for professionals to set-up business and loans to share business	1%-2%
General provision on unclassified consumer financing other than housing finance, loan for professionals and loans for BGs/MBs/SDs	1%-2%

Specific provision on bad / loss loans and advances / investments	100%

- e) Loans and advances / investments are written-off to the extent that (i) there is no realistic prospect of recovery, and (ii) against which legal cases are pending for more than five years as per guidelines of Bangladesh Bank. These write-off however will not undermine / affect the claim amount against the borrower. During the year no loan account has been written off from the loan book of the Bank.
- f) Amounts receivable on credit cards are included in advances to customers at the amounts expected to be recovered.

- g) General Provision has been calculated against all unclassified Credit Card loans under Consumer Financing as per Bangladesh Bank guideline.
- h) Provision for Short-term Agricultural and Micro-Credits as per Bangladesh Bank guideline.

2.2.3 Investments

All investment securities are initially recognised at cost, being fair value of the consideration given, including acquisition charges associated with the investment. Premiums are amortized and discounts accreted, using the effective yield method to discount income. The valuation method of investments used are:

Held to maturity (HTM)

Investments which have 'fixed or determinable payments', and are intended to be 'held to maturity', other than those that meet the definition of 'held at amortized cost-others' are classified as held to maturity.

Held for trading (HFT)

Investments classified in this category are acquired principally for the purpose of selling or repurchasing -in short-trading or if designated as such by the management. After initial recognition, investments are measured at fair value and any change in the fair value is recognised in the statement of income for the period in which it arises. These investments are subsequently revalued at current market value on weekly basis as per Bangladesh Bank Guideline. Revaluation gain has been shown in revaluation reserve account & revaluation loss has been shown in Profit & Loss account.

Value of investments has been enumerated as follows :

Items	Applicable accounting value
Government treasury bills-HTM	Amortized value
Government treasury bills-HFT	Market value
Government treasury bonds-HTM	Amortized value
Government treasury bonds-HFT	Market value
Prize bond	At cost

2.2.4 Property, plant and equipment

Property, plant & equipments are recognized if it is probable that future economic benefits associated with the assets will flow to the Bank and the cost of the assets can be reliably measured.

- a) All fixed assets are stated at cost less accumulated depreciation as per IAS-16 " Property, Plant and Equipment". The cost of acquisition of an asset comprises its purchase price and any directly attributable cost of bringing the asset to its working condition for its intended use inclusive of inward freight, duties and non-refundable taxes.
- b) The Bank recognises, in the carrying amount of an item of property, plant and equipment, the cost of replacing part of such an item when that cost is incurred if it is probable that the future economic benefits embodied with the item will flow to the company and the cost of the item can be measured reliably. Expenditure incurred after the assets have been put into operation, such as repairs and maintenance, is normally charged off as revenue expenditure in the period in which it is incurred.
- c) Depreciation is charged for the year at the following rates on straight line depreciation method on all fixed assets is followed and no depreciation is charged on land:

Category of fixed assets	Rate of depreciation
Land	Nil
Buildings	2.50%
Furniture and fixtures	10%
Office equipments	20%
Library books	30%
Electrical equipments	20%
Computer equipments	20%
Motor Vehicles	20%

- d) For additions during the year, depreciation is charged for the remaining days of the year and for disposal depreciation is charged up to the date of disposal.
- e) On disposal of fixed assets, the cost and accumulated depreciation are eliminated from the fixed assets schedule and gain or loss on such disposal is reflected in the income statement, which is determined with reference to the net book value of the assets and net sale proceeds.
- f) Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset have been capitalized as part of the cost of the asset as per IAS-23.
- g) Leasehold properties are recorded at present value of minimum lease payments or fair market value, whichever is lower as per the provisions of IAS-17. The carrying value of leasehold properties is amortized over the remaining lease term or useful life of leasehold property, whichever is lower.

2.2.5 Intangible assets

- a) An intangible asset is recognized if it is probable that the future economic benefits that are attributable to the asset will flow to the entity and the cost of the assets can be measured reliably.
- b) Software represents the value of computer application software licensed for use of the Bank, other than software applied to the operation software system of computers. Intangible assets are carried at its cost, less accumulated amortization and any impairment losses.

Initial cost comprises license fees paid at the time of purchase and other directly attributable expenditure that are incurred in customizing the software for its intended use.

- c) Expenditure incurred on software is capitalized only when it enhances and extends the economic benefits of computer software beyond their original specifications and lives and such cost is recognized as capital improvement and added to the original cost of software.
- d) Software is amortized using the straight line method over the estimated useful life of 10 (ten) years commencing from the date of the application. Software is available for use over the best estimate of its useful economic life.

2.2.6 Impairment of Assets:

The policy for all assets or cash-generating units for the purpose of assessing such assets for impairment is as follows:

The Bank assesses at the end of each reporting period or more frequently if events or changes in circumstances indicate that the carrying value of an asset may be impaired, whether there is any indication that an asset may be impaired. If any such indication exists, or when an annual impairment testing for an asset is required, the bank makes an estimate of the asset's recoverable amount. When the carrying amount of an asset or cash-generating unit exceeds its recoverable amount, the asset or cash-generating unit is considered as impaired and is written down to its recoverable amount by debiting to profit & loss account.

Fixed assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may be impaired.

2.2.7 Other assets

Other assets include all balance sheet accounts not covered specifically in other areas of the supervisory activity and such accounts may be quite insignificant in the overall financial condition of the Bank.

2.2.8 Securities purchased under re-sale agreement

Securities purchased under re-sale agreements are treated as collateralized lending and recorded at the consideration paid and interest accrued thereon. The amount lent is shown as an asset either as loans and advances to customers or loans to other banks.

The difference between purchase price and re-sale price is treated as interest received and accrued evenly over the life of Repo agreement.

2.2.9 Receivables

Receivables are recognised when there is a contractual right to receive cash or another financial asset from another entity.

2.2.10 Inventories

Inventories are measured at the lower of cost and net realizable value.

2.2.11 Leases

IFRS 16 defines that a contract is (or contains) a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. IFRS 16 significantly changes how a lessee accounts for the transactions under operating leases.

Recognition & Measurement of Leases as a Lessee (detail accounting policy in Note 9)

Under IFRS 16, an entity shall be recognizing a Right-of-Use (ROU) Asset (i.e. the right to use the office building, branches, service center, call center, warehouse, etc.) and a corresponding lease liability. The asset and the liability are initially measured at the present value of unavoidable lease payments. The Depreciation on the ROU Assets and the Interest Expense on the lease liability is recognized in the Profit or Loss account over the lease term replacing the previous treatment as per IAS 17 i.e. charging 'lease rent expenses' under Operating Lease.

Accordingly, the Bank assesses whether a contract is a lease, in accordance with the guidance stated in the IFRS 16: Leases, by determining whether the contract gives it the right to use a specified underlying physical asset for a lease term greater than 12 months, unless the underlying asset is of low value. Office premises for which monthly lease rental is the amount not exceeding Taka 25,000, ATM Booths and other installations are considered as low value asset.

2.2.12 Non-banking assets:

Non-banking assets are acquired on account of the failure of a borrower to repay the loan on time after receiving the decree from the Court regarding the right and title of the mortgage property. The Banks are awarded ownership of the mortgage properties according to the verdict of the Honorable Court in accordance with the section 33 (7) of "Artharin Adalat-2003". The value of Non-Banking Assets are determined and reported in the financial statements on the basis of valuation report of an Independent valuer. The Modhumoti Bank PLC. is yet to acquire any non-banking asset till to the date of December 31, 2023.

2.2.13 Reconciliation of inter-bank and inter-branch account

Accounts with regard to inter-bank are reconciled regularly and there are no material differences which may affect the financial statements significantly. Un-reconciled entries / balances in the case of inter-branch transactions as on the reporting date are not material.

2.3 basis for valuation of liabilities and provisions

2.3.1 Borrowings from other banks, financial institutions and agents:

Borrowed funds include call money deposits, borrowings, re-finance borrowings and other term borrowings from banks, financial institutions and agents. These are stated in the balance sheet at amounts payable. Interest paid / payable on these borrowings is charged to the profit & loss account.

Disclosures of borrowings against Repo are shown in notes - 7.

2.3.2 Deposits and other accounts

Deposits by customers and banks are recognised when the Bank enters into contractual provisions of the arrangements with the counterparties, which is generally on trade date, and initially measured at the consideration received.

2.3.3 Other liabilities

Other liabilities comprise items such as provision for loans and advances/investments, provision for taxation, interest payable, interest suspense, accrued expenses, obligation under finance lease etc. Other liabilities are recognised in the balance sheet according to the guidelines of Bangladesh Bank, the Income Tax Ordinance 1984 and internal policy of the Bank. Details are shown in Notes 13.

2.3.4 Provision for liabilities

A provision is recognised in the balance sheet when the Bank has legal or constructive obligation as a result of a past event and it is probable that an outflow of economic benefit will be required to settle the obligations, in accordance with the IAS 37 "Provisions, Contingent Liabilities and Contingent Assets". Provision for loans and advances have been accounted for in the financial statements following the Bangladesh Bank circulars & guidelines.

2.3.5 Provision for Off-balance sheet exposures

Off-balance sheet items have been disclosed under contingent liabilities and other commitments as per Bangladesh Bank guidelines. As per BRPD Circular # 14, dated September 23, 2012, banks are advised to maintain provision @1% against off-balance sheet exposures. The instructions mentioned in the BRPD Circular # 07, dated June 21, 2018 and BRPD Circular # 13, dated October 18, 2018 have also been followed for calculating provision against off-balance sheet exposures.

2.3.6 Provision for nostro accounts

As per instructions contained in the circular letter no. FEPD (FEMO) / 01 / 2005-677 dated 13 September 2005 issued by Foreign Exchange Policy Department of Bangladesh Bank, provision is to be maintained for the un-reconciled debit balance of nostro account more than 3 months as on the reporting date of these financials. Since there is no unreconciled entries which are outstanding more than 3 months, no provision is required to be maintained.

2.3.7 Provision for rebate to good borrowers

Previously commercial banks were required to maintain provision @10.0% of interest charged against loans to good borrowers, identified on the basis of prescribed guidelines stated in BRPD Circular no. 06 (19 March 2015) and BRPD Circular Letter no 03 (16 February 2016) for onward rebate to the recognized good borrowers. However, Bangladesh Bank during 2020 issued another circular (BRPD Circular No. 14 dated 18 June 2020), wherein it is mentioned that from 2020 banks need not to provide any rebate to good borrowers. Hence, during 2023, no further good borrowers' provision was accounted for in the financials.

2.3.8 Provision for climate risk fund

As per GBCSRD Circular No 04 (9 July 2015) issued by Bangladesh Bank, Banks are required to maintain a climate risk fund of 10% of the CSR budget. To comply with this requirement the Bank has kept provision in the financial statements for the year ended 31 December 2023.

2.3.9 Provision for current taxation

Provision for current income tax has been made as per prescribed rate in the Finance Act, 2023 on the accounting profit made by the Bank after considering some of the add backs to income and disallowances of expenditure as per income tax laws in compliance with IAS-12, "Income Taxes".

2.3.10 Deferred taxation

Deferred tax is accounted for in accordance with IAS 12, "Income Taxes". Deferred tax is recognized on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and are accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognized for all taxable temporary differences and deferred tax assets are recognized to the extent that it is probable that taxable profits will be available against which deductible temporary differences, unused tax losses or unused tax credits can be utilized. Such assets and liabilities are not recognized if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the company intends to settle its current tax assets and liabilities on a net basis.

2.3.11 Benefits to the employees

The retirement benefits accrued for the employees of the Bank as on reporting date have been accounted for in accordance with the provisions of International Accounting Standard-19, "Employee Benefit". Bases of enumerating the retirement benefit schemes operated by the Bank are outlined below:

a) **Provident fund**

Provident fund benefits are given to the permanent employees of the Bank in accordance with Bank's service rules. Accordingly a trust deed and provident fund rules were prepared. The Commissioner of Income Tax, National Board of Revenue, Dhaka has approved the Provident Fund as a recognized provident fund within the meaning of section 2(52), read with the provisions of part - B of the First Schedule of Income Tax Ordinance 1984. The recognition took effect from June 04, 2013. The Fund is operated by a Board of Trustees consisting six members (03 members from the Management and other 03 members from the Board of Directors) of the Bank. All confirmed employees of the Bank are contributing 10% of their basic salary as subscription to the Fund. The Bank also contributes equal amount of the employees' contribution. Interest earned from the investments is credited to the members' account on yearly basis.

b) **Gratuity fund**

The Bank operates a funded gratuity scheme on "Continuing Fund basis", in respect of which provision will be made annually according to the recommendation based on Actuarial valuation covering all of its permanent eligible employees in accordance with Bank's Service Rules. The Fund will be operating by a Board of Trustees consisting members from the Board of Directors and Management of the Bank. Actuarial valuation of gratuity scheme will be made to assess the adequacy of the liabilities provided for the scheme as per IAS-19 "Employees Benefit". Contributions to the fund shall be made on the basis of actuarial recommendations.

Recognition of Gratuity fund has been done by the National Board of Revenue vide their letter number 08.01.0000.035.02.264.19/603 dated January 16, 2020 and actuarial valuation for assessing the adequacy of liabilities of the fund is under process which will be completed within a short time.

c) **Incentive bonus**

Incentive bonus is given to the employees every year considering the overall performance of the Bank as well as individual's performance. This bonus amount is distributed among the employees based on their performance. The bonus amount is paid annually, normally in first quarter of every following year and the costs is accounted for in the period to which it relates. Generally, a certain percentage of disclosed net profit is disbursed among the employees. The aforesaid percentage is approved in the Board meeting so that adequate provision can be made for Incentive Bonus as per IAS-37.

2.3.12 Start-up Fund

In compliance with Bangladesh Bank SMESPD Circular no.-04, dated 29 March, 2021; Modhumoti Bank PLC. has formed start-up fund in order to facilitate innovations for marketing new products, services and technologies, and such enterprises would create employment and assets in the country.

2.4 Share Capital

Ordinary shares are classified as equity when there is no contractual obligation to transfer cash or other financial assets.

2.4.1 Authorised Capital

Authorised capital is the maximum amount of share capital that the Bank is authorised by its Memorandum and Articles of Association. Details are shown in note 14.1.

2.4.2 Paid up Capital

Paid up capital represents total amount of shareholders' capital that has been paid in full by the ordinary shareholders. Holders of ordinary shares are entitled to receive dividends as declared from time to time and are entitled to vote at shareholders' meetings. In the event of winding-up of the Bank, ordinary shareholders are ranked after all other shareholders and creditors and are fully entitled to any residual proceeds of liquidation. Details are shown in note 14.2.

2.4.3 Statutory Reserve

As per Bank Companies Act, the Bank requires to transfer 20% of its current year's profit before tax to statutory reserve until such reserve equals to its paid up capital. The Bank does comply with this requirement of law every year.

2.4.4 Revaluation reserve on government securities

When an asset's carrying amount is increased as a result of revaluation, the increased amount is credited directly to equity under the Head of Revaluation Surplus. Revaluation reserve arises from the revaluation of land and buildings as well as the revaluation of Treasury bills and bonds (HFT & HTM) in accordance with the DOS circular no. 5 dated 26 May 2008 and DOS(SR) 1153/120/2010 dated 8 December 2010. The Bank has not yet recognized any revaluation surplus against any kind of its fixed assets till to the balance sheet date. The tax effect on revaluation gain is measured and recognised in the financial statements as per IAS 12: Income Taxes.

2.5 Contingent liabilities

A contingent liability is -

A possible obligation that arises from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Bank;
or

A present obligation that arises from past events but is not recognised because:

- a) it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or
- b) the amount of the obligation cannot be measured with sufficient reliability.

Contingent liabilities are not recognised but disclosed in the financial statements unless the possibility of an outflow of resources embodying economic benefits is reliably estimated.

2.6 Revenue recognition

2.6.1 Interest income

In terms of the provisions of the IAS-18 "Revenue", the interest income is recognised on accrual basis. Interest on unclassified loans and advances are calculated at the prescribed rates to be taken into income. Interest is ceased to be taken into income when such loans and advances are marked as classified as per criteria prescribed by the Bangladesh Bank. It is then kept in interest suspense account. Interest on classified advances is accounted for on a cash receipt basis.

2.6.2 Investment income

Interest income on investments is recognised on accrual basis. Capital gain on investments in shares is also included in investment income. Capital gain is recognised when it is realised.

2.6.3 Fees and commission income

Fees and commission income arising on services provided by the Bank are recognised when those are realized. Commission charged to customers on letters of credit and letters of guarantee is credited to income at the time of transactions being recorded in the books of accounts.

2.6.4 Income on Bills Purchased and Discounted

Income on Bills Purchased and Discounted is recognised upon realisation since there is no uncertainty as to its realisation and accrued on a monthly basis

2.6.5 Interest and fees receivable on credit cards

Interest and fees receivable on credit cards are recognised on an accrual basis. Interest and fees cease to be taken into income when the recovery of interest and fees is in arrear for three months. Thereafter, interest and fees are accounted for on realisation basis.

2.6.6 Dividend income on shares

Dividend income on shares is recognised during the period when right to receive is established.

2.6.7 Interest paid and other expenses

In terms of the provisions of IAS-1 "Presentation of Financial Statements", interest and other expenses are recognised on accrual basis.

2.6.8 Dividend payments

Interim dividend is recognised when they are paid to shareholders. Final dividend is recognized when it is approved by the shareholders.

The proposed dividend for the year 2023 has not been recognized as a liability in the balance sheet in accordance with the IAS-10 : Events After the Reporting Period.

Dividend payable to the Bank's shareholders is recognized as a liability and deducted from the shareholders' equity in the period in which the shareholders' right to receive payment is established.

2.7 Risk management

Risk and return are inversely related. Making perfect balance between these two aspects is a classical predicament to successful growth of a business. The role of risk management started from this point which actually is the process of identification, assessment, and prioritization of risks followed by coordinated and economical application of resources to minimize, monitor, and control the probability and/or impact of uncertain events or to maximize the realization of opportunities.

The MANCOM, All Risk Committee (Management Level), Credit Evaluation Committee (CEC), Asset Liability Management Committee (ALCO), Supervisory Review Process (SRP) Team and IASel Unit (Supervisory Committee) comprising Executive and Senior Management, are high level management committees responsible for the overall management of the risk profile of the Bank. In view of core risk guidelines, the bank has established various divisions/units to address specific risk, e.g. credit risk management, credit administration, internal control & compliance, anti- money laundering, ICT, treasury division etc. Further to manage the overall risks of the Bank in line with Basel accords, the Bank has formed a dedicated a Risk Management Division (RMD).

The Bank faces a number of risks stemming from credit risk, liquidity risk, market risk, foreign exchange risk, interest rate risk, equity price risk, operational risk, legal risk and also reputation risk. The risk management systems in place at the Bank are discussed below:

2.7.1 Credit risk

Credit risk is the risk of loss that may occur from the default of any counterparty to repay in accordance with agreed terms and conditions and/or deterioration of creditworthiness. The failure may result from unwillingness of the counter party or decline in his / her financial condition. Therefore, the Bank's credit risk management activities have been designed to address all these issues.

A methodical assessment & due diligence are done before sanction of any credit facility at Credit Risk Management Division of the Bank. The risk assessment includes borrower risk analysis, financial analysis, industry analysis, historical performance of the customer, security of the proposed credit facilities and various critical risk factors. The assessment process starts at Branch Credit department by the Officer and ends at Credit Risk Management Division in Head Office where it is approved / declined by the competent authority. Credit approval authority has been partially delegated to the individual executives. Proposal beyond their delegation are approved / declined by the Board / Executive Committee (EC) of the Board.

Credit Administration (CAD) monitors the documentation aspects of approved credits and also manages the deteriorating accounts as there is no Legal & Recovery Unit yet in the Bank.

All other remaining risk in regards to credit portfolio are addressed by the Risk Management Division (RMD), the primary responsibility of this Division is to identify and assess the severity of risks and highlight the same to the management for strategic decision making in regard to Residual Risk (documentation risk, valuation error etc.) and concentration risk etc.

2.7.2 Foreign Exchange Risk

Foreign exchange risk is the exposure of an institution to the potential impact of movements in foreign exchange rates. The risk is that adverse fluctuations in exchange rates may result in a loss in earnings. As per the guidelines of Bangladesh Bank, Modhumoti Bank PLC. has developed a detailed Foreign Exchange Risk Management policies to minimize different types of risks associated with foreign exchange transactions. The Bank has also developed different strategies to handle foreign exchange risk by setting different types of limits and risk parameters to measure and monitor foreign exchange risk exposure of the Bank.

The foreign exchange desk of treasury division is involved in foreign exchange dealing activities with different counterparts; the treasury back office is engaged in transfer of funds and passing of the transaction entries in the books of accounts, and the mid office is responsible for verification of the deals. All foreign exchange transactions are revalued at market rate as per the directive of Bangladesh Bank. All Nostro Accounts are reconciled on a monthly basis and outstanding entries beyond 30 days are reviewed by the management for its settlement.

2.7.3 Asset Liability Management

Responsibility of managing and controlling liquidity of the bank lies with Asset Liability Committee (ALCO) that meets at least once in a month. Asset Liability Management (ALM) desk being primarily responsible for management of liquidity risk closely monitors and controls liquidity requirements on a daily basis by appropriate coordination of funding activities. A monthly projection of fund flows is reviewed in ALCO meeting regularly. On monthly basis, ALCO monitors liquidity management by examining key ratios, maximum cumulative outflow, upcoming funding requirement from all business units, asset-liability mismatch etc.

Asset-Liability Committee (ALCO) reviews country's overall economic position, the Bank's liquidity position, key performance ratios, interest rate risk, deposit and advance growth, cost of deposit & yield on advances, deposit & lending pricing strategy and different forecasted balance sheet risks of the Bank.

By strongly monitoring the maturity GAP of assets and liabilities and interest rates movement, Bank is able to maintain optimum liquidity with required regulatory compliances. A policy guideline on Assets Liability Management is formulated and approved by the Board of Directors of the Bank and revise it from time to time.

2.7.4 Money Laundering Risk

The bank has board approved 'Money Laundering and Terrorist Financing Risk Management Guidelines' to prevent the money laundering and terrorist financing risk of the Bank. For mitigating the risks, the Bank has a designated Chief Anti Money Laundering Compliance Officer (CAMLCO) and Deputy Anti Money Laundering Compliance Officer (De-CAMLCO) at Head Office and Branch Anti Money Laundering Compliance Officer (BMALCO) in the Branches, who independently review the transactions of the accounts to verify suspicious transactions. Training is continuously given to all category of Officers and Executives for developing awareness and skill for identifying suspicious activities / transactions.

The CAMLCO, De-CMALCO and BAMLCO ensures the reporting of Suspicious Transactions Reports (STR), and ensure AML & CFT compliance culture throughout the bank.

2.7.5 Internal Control & Compliance Risk

Internal control is the process, effected by the Board of Directors, Management & other personnel designed to provide reasonable assurance regarding the achievement of objectives with effectiveness & efficiency of operations. It encompasses all controls incorporated into the strategic, governance and management processes, covering the bank's entire range of activities and operations, and not just those directly related to financial operations and reporting. Its scope is not confined to those aspects of a business that could broadly be defined as compliance matters, but extends also to the performance aspects of a business.

Modhumoti Bank PLC. has established a System of Internal Control, which is designed to manage all the risks of failure to a reasonable level, achieve aims and objectives/goals of the Bank and this System provides reasonable assurance of effective & efficient operations covering all controls including financial & operational controls, reliability of the financial information, compliance with applicable laws & regulations, adherence to management policies, safeguarding of Bank's Assets, prevention & detection of fraud & errors, and accuracy & completeness of the accounting records.

2.7.6 Information and communication technology

With the increasing use of Information and Communication Technology in the activities of the Banks, risk management for Information and Communication Technology has become important. ICT Division is aimed to provide uninterrupted & efficient operations of all products, services and deliverables – Banks already offered or intends to do in future. In banking institutions, all risks should be recognized, addressed and managed in a prudent manner according to the fundamental characteristics and challenges. ICT risk is the risk associated with the use, ownership, operation, involvement, influence and adoption of ICT within an organization. Risks surrounding Information Technology, such as unauthorized access to a system, network failure, software failure, lack of skills, hacking, viruses attack and poor system integration poses threat for the organization. ICT risk of the Bank is addressed by finding out the weakness in a particular operation and initiating appropriate/ suitable strategy within the approved policies and procedures. To assist Risk Management Committee of Board of Directors, ICT Risk Management committee has been formed from Management team on 07th Sep. 2016 vide Office Order# HO/HRD/2016/1072 as per guideline of Bangladesh Bank.

MMBPLC has a comprehensive ICT Security Policy and procedures which are formally documented and approved by the Board of Directors of the Bank. The Bank follows the bottom-up approach that has been proven helpful in developing a set of relevant and important risk scenarios as followings:

2.7.7 Liquidity risk

The objective of liquidity risk management is to ensure that all foreseeable funding commitments and deposit withdrawals can be met when due. To this end, the Bank is maintaining a diversified and stable funding balance comprising of core retail and corporate deposits and institutional balance. Management of liquidity and funding is carried out by Treasury Department under approved policy guidelines. Treasury front office is supported by a very structured Mid office and Back office. The Liquidity management is monitored by the Asset Liability Committee (ALCO) on a regular basis. A written contingency plan is in place to manage extreme situation.

2.7.8 Market risk

The exposure of market risk of the Bank is restricted to foreign exchange risk, interest rate risk and equity risk.

Foreign exchange risk

Foreign exchange risk is defined as the potential change in earnings due to change in market prices. The foreign exchange risk of the Bank is minimal as all the transactions are carried out on behalf of the customers against underlying L/C commitments and other remittance requirements. No foreign exchange dealing on Bank's account was conducted during the year.

Treasury Department independently conducts the transactions and the back office of treasury is responsible for verification of the deals and passing of their entries in the books of account. All foreign exchange transactions are revalued at Mark-to-Market rate as determined by Bangladesh Bank at the month-end. All Nostro accounts are reconciled on a monthly basis and outstanding entry beyond 30 days is reviewed by the management for its settlement. The position maintained by the bank at the end of day was within the stipulated limit prescribed by the Bangladesh Bank.

Interest rate risk

Interest rate risk may arise either from trading portfolio or non-trading portfolio. The trading portfolio of the Bank consists of Government treasury bills held for trading. The short-term movement in interest rate is negligible or nil. Interest rate risk of non-trading business arises from mismatches between the future yield of an asset and its funding cost. The Asset Liability Committee (ALCO) monitors the interest rate movement on a regular basis.

Equity risk

Equity risk arises from movement in market value of equities held. The risks are monitored by the Investment Committee under a well designed policy framework.

2.7.9 Reputation risk arising from money laundering incidents

Money laundering risk is defined as the loss of reputation and expenses incurred as penalty for being negligent in prevention of money laundering. For mitigating the risks, the Bank has a designated Chief Compliance Officer at Head Office and Compliance Officers at branches, who independently review the transactions of the accounts to verify suspicious transactions. Manuals for prevention of money laundering have been established and transaction profile has been introduced. Training is continuously given to all category of Officers and Executives for developing awareness and skill for identifying suspicious activities / transactions.

2.7.10 Operational risk

Operational risk may arise from error and fraud due to lack of internal control and compliance. Management through Internal Control and Compliance Division controls operational procedure of the Bank. Internal Control and Compliance Division undertakes periodical and special audit of the Branches and Divisions at the Head Office for review of the operation and compliance of statutory requirements. The Audit Committee of the Board subsequently reviews the reports of the Internal Control and Compliance Division.

RISK MITIGATION PROCESS

Risk mitigation involves prioritizing, evaluating, and implementing the appropriate risk-reducing controls recommended from the risk assessment process. Risk mitigation is a systematic methodology used by senior management to reduce mission risk. Risk mitigation can be achieved through any of the following risk mitigation options:

Risk Assumption: To accept the potential risk and continue operating the IT system or to implement controls to lower the risk to an acceptable level."

Risk Avoidance: To avoid the risk by eliminating the risk cause and/or consequence (e.g., forgo certain functions of the system or shut down the system when risks are identified)

Risk Limitation: To limit the risk by implementing controls that minimize the adverse impact of a threat's exercising vulnerability (e.g., use of supporting, preventive, detective controls)

Risk Planning: To manage risk by developing risk mitigation plan that prioritizes, implements, and maintains controls

Research and Acknowledgment: To lower the risk of loss by acknowledging the vulnerability or flaw and researching controls to correct the vulnerability

Risk Transference: To transfer the risk by using other options to compensate for the loss, such as purchasing insurance.

Risk mitigation strategy was articulated in the following rules-

Option-1: When vulnerability (or flaw, weakness) exists, implement assurance techniques to reduce the likelihood of vulnerability's being exercised.

Option-2: When vulnerability can be exercised, apply layered protections, architectural designs, and administrative controls to minimize the risk of or prevent this occurrence.

Option-3: When the attacker's cost is less than the potential gain, apply protections to decrease an attacker's motivation by increasing the attacker's cost (e.g., use of system controls such as limiting what a system user can access and do can significantly reduce an attacker's gain).

Option-4: When loss is too great, apply design principles, architectural designs, and technical and non-technical protections to limit the extent of the attack, thereby reducing the potential for loss.

2.8 Earnings per share

Basic earnings per share

Basic earnings per share is calculated in accordance with IAS 33 "Earnings per Share" and is shown on the face of the profit and loss account. This has been calculated by dividing the IAS earnings by the weighted average number of ordinary shares outstanding during the year.

Diluted earnings per share

Diluted earnings per share is not required to be calculated for the year as there was no scope for dilution during the year under review.

2.9 Events after the reporting period

Where necessary, all the material events after the reporting period have been considered and appropriate adjustment / disclosures have been made in the financial statements.

The Bank has changed its name from "Modhumoti Bank Limited" to "Modhumoti Bank PLC." as per decision of the shareholders in their Extra-Ordinary General Meeting held on July 29, 2023. The relevant approval from Registrar of Joint Stock Companies & Firms (RJSC) has been received on October 08, 2023, following which Bangladesh Bank has accorded approval with effect from January 28, 2024, i.e after the reporting date.

2.10 Memorandum items

Memorandum items are maintained to have control over all items of importance and for such transactions where the Bank has only a business responsibility and no legal commitment. Bills for collection, savings certificates, wage earners bonds etc. fall under the memorandum items. However, Bills for Collection is shown under contingent liabilities as per Bangladesh Bank's format of reporting.

2.11 Related party transaction

Related party transaction is a transfer of resources, services or obligation between related parties, regardless of whether a price is charged. Detail of related parties transaction are given in note- 37.

2.12 IFRS 16 Leases

IFRS 16, issued in January 2016 replaces existing guidance related to lease transactions and effective for reporting period beginning on or after 1 January 2019. IFRS 16 'Leases' replaces IAS 17 'Leases' along with three Interpretations (IFRIC 4 'Determining whether an Arrangement contains a Lease', SIC 15 'Operating Leases-Incentives' and SIC 27 'Evaluating the Substance of Transactions Involving the Legal Form of a Lease'). It will result in almost all leases being recognised on the balance sheet, as the distinction between operating and finance leases is removed. Under the new standard, an asset (the right to use the leased item) and a financial liability to pay rentals are recognised. The only exceptions are short-term and low-value leases. Interest expense on lease liability and depreciation on ROU assets are charged in the Profit and Loss Account. Detail accounting policy is stated in note no. 9.

	<ul style="list-style-type: none"> • IFRS S1 General Requirements for Disclosure of Sustainability-related Financial Information.
	<ul style="list-style-type: none"> • IFRS S2 Climate-related Disclosures.

There are no other standards that are yet to be effective and that would be expected to have a material impact on the Bank's financial statements in the current or future reporting periods and on foreseeable future transactions.

3.2 Departures from IAS/IFRS

The financial statements of the Bank as at and for the year ended 31 December 2023 have been prepared under the historical cost convention except investments and in accordance with the "First Schedule" (section 38) of the Bank Companies Act 1991, as amended by Bangladesh Bank (the Central Bank of Bangladesh) through BRPD Circular No. 14 dated 25 June 2003, other Bangladesh Bank Circulars, International Financial Reporting Standards (IFRSs), the Companies Act 1994, the Securities and Exchange Rules 1987 and Dhaka & Chittagong Stock Exchange's listing regulations. In case, any requirement of provisions and circulars issued by Bangladesh Bank differs with those of other regulatory authorities, the provisions and circulars issued by Bangladesh Bank shall prevail. Material departures from the requirements of IFRS/IFRS are stated as under:

i) Investment in shares and Securities

IFRS: As per requirements of IFRS 9, classification and measurement of investment in shares and securities will depend on how these are managed (the entity's business model) and their contractual cash flow characteristics. Based on these factors it would generally fall either under "at fair value through profit or loss account" or under "at fair value through other comprehensive income" where any change in fair value (as measured in accordance with IFRS 13) at the year end is taken to profit and loss account or other comprehensive income respectively.

Bangladesh Bank: As per BRPD circular no. 14 dated 25 June 2003, investments in quoted shares and unquoted shares are revalued at the year end at market price and as per book value of last audited balance sheet respectively. Provision should be made for any loss arising from diminution in value of investment; otherwise investments are recognized at costs.

ii) Revaluation gain/loss on Government securities

IFRS: As per requirement of IFRS 9 where securities will fall under the category of fair value through profit or loss account, any change in the fair value of assets is recognised through the profit and loss account. Securities designated as amortised cost are measured at effective interest rate method and interest income is recognised through the profit and loss account.

T-bills and T-bonds designated as 'held to maturity' are measured at amortized cost method and interest income is recognized through the profit & loss account.

Bangladesh Bank: HFT securities are revalued on the basis of mark to market and at year end any gains on revaluation of securities which have not matured as at the balance sheet date are recognised in other reserves as a part of equity and any losses on revaluation of securities which have not matured as at the balance sheet date are charged in the profit and loss account. Interest on HFT securities including amortisation of discount are recognised in the profit and loss account. HTM securities which have not matured as at the balance sheet date are amortised at the year end and gains or losses on amortisation are recognised in other reserve as a part of equity.

iii) Provision on loans and advances

IFRS: As per IFRS 9 an entity shall recognise an impairment allowance on loans and advances based on expected credit losses. At each reporting date, an entity shall measure the impairment allowance for loans and advances at an amount equal to the lifetime expected credit losses if the credit risk on these loans and advances has increased significantly since initial recognition whether assessed on an individual or collective basis considering all reasonable information, including that which is forward-looking. For those loans and advances for which the credit risk has not increased significantly since initial recognition, at each reporting date, an entity shall measure the impairment allowance at an amount equal to 12 month expected credit losses that may result from default events on such loans and advances that are possible within 12 months after reporting date.

Bangladesh Bank: As per BRPD circular no. 14 dated 23 June 2012, a general provision at 0.25% to 5% under different categories of unclassified loans (good/standard loans) has to be maintained regardless of objective evidence of impairment. Also provision for sub-standard loan, doubtful loans and bad losses has to be provided at 20%, 50% and 100% respectively for loans and advances depending on the duration of overdue. Again as per BRPD circular no. 14 dated 23 September 2012, a general provision at 1% is required to be provided for all off-balance sheet exposures. Such provision policies are not specifically in line with those prescribed by IFRS 9.

iv) Recognition of interest in suspense

IFRS: Loans and advances to customers are generally classified at amortised cost as per IFRS 9 and interest income is recognised by using the effective interest rate method to the gross carrying amount over the term of the loan. Once a loan subsequently becomes credit-impaired, the entity shall apply the effective interest rate to the amortised cost of these loans and advances.

Bangladesh Bank: As per BRPD circular no. 14 dated 23 September 2012, once a loan is classified, interest on such loans are not allowed to be recognised as income, rather the corresponding amount needs to be credited to an interest in suspense account, which is presented as '**liability**' in the Balance Sheet.

v) Other comprehensive income

IFRS: As per IAS 1, Other Comprehensive Income is a component of financial statements or the elements of Other Comprehensive Income are to be included in a Single Other Comprehensive Income (OCI) Statement.

Bangladesh Bank: Bangladesh Bank has issued templates for financial statements which will strictly be followed by all Banks. The templates of financial statements issued by Bangladesh Bank do not include Other Comprehensive Income or the elements of Other Comprehensive Income allowed to include in a Single Other Comprehensive Income (OCI) Statement. As such the Bank does not prepare the other comprehensive income statement. However elements of OCI, if any, are shown in the statements of changes in equity.

vi) Financial instruments – presentation and disclosure

In several cases Bangladesh Bank guidelines categorize, recognize, measure and present financial instruments differently from those prescribed in IFRS 9. As such some disclosure and presentation requirements of IFRS 7 and IAS 32 cannot be made in the financial statements.

vii) Repo and Reverse Repo transactions

IFRS: As per IFRS 9 when an entity sells a financial asset and simultaneously enters into an agreement to repurchase the asset (or a similar asset) at a fixed price on a future date (repo), the arrangement is treated as a loan and the underlying asset continues to be recognised at amortised cost in the entity's financial statements. The difference between selling price and repurchase price will be treated as interest expense. The same rule applies to the opposite side of the transaction (reverse repo).

Bangladesh Bank: As per DOS Circular letter no. 6 dated 15 July 2010 and subsequent clarification in DOS circular no.2 dated 23 January 2013, when a bank sells a financial asset and simultaneously enters into an agreement to repurchase the asset (or a similar asset) at a fixed price on a future date (repo or stock lending), the arrangement is accounted for as a normal sales transactions and the financial assets are derecognized in the seller's book and recognized in the buyer's book. However, as per DMD circular letter no.7 dated 29 July 2012, non primary dealer banks are eligible to participate in the Assured Liquidity Support (ALS) programme, whereby such banks may enter collateralised repo arrangements with Bangladesh Bank. Here the selling bank accounts for the arrangement as a loan, thereby continuing to recognise the asset.

viii) Financial guarantees

IFRS: As per IFRS 9, financial guarantees are contracts that require the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtors fails to make payment when due in accordance with the original or modified terms of a debt instrument. Financial guarantee liabilities are recognised initially at their fair value plus transaction costs that are directly attributable to the issue of the financial liabilities. The financial guarantee liability is subsequently measured at the higher of the amount of loss allowance for expected credit losses as per impairment requirement and the amount initially recognised less, income recognised in accordance with the principles of IFRS 15. Financial guarantees are included within other liabilities.

Bangladesh Bank: As per BRPD circular no: 14 dated 25 June 2003, financial guarantees such as L/C, L/G will be treated as Off-Balance Sheet items. No liability is recognized for the guarantee except the cash margin.

ix) Cash and cash equivalent

IFRS: Cash and cash equivalent items should be reported as cash item as per IAS 7.

Bangladesh Bank: Some cash and cash equivalent items such as 'money at call and on short notice', Treasury bills, Prize bond are not shown as cash and cash equivalent. Money at call and on short notice is shown as a face item in balance sheet, and Treasury bills, Prize bonds are shown in Investment.

x) Non-banking asset

IFRS: No indication of Non-banking asset is found in any IFRS.

Bangladesh Bank: As per BRPD circular no: 14 dated 25 June 2003, there must exist a face item named Non-banking asset.

xi) Cash flow statement

IFRS: Cash flow statement can be prepared either in direct method or in indirect method. The presentation is selected to present these cash flows in a manner that is most appropriate for the business or industry. The method selected is applied consistently as per IAS 7.

Bangladesh Bank: As per BRPD circular no: 14 dated: 25 June 2003, cash flow is the mixture of direct and indirect method.

xii) Balance with Bangladesh Bank: (CRR)

IFRS: Balance with Bangladesh Bank should be treated as other asset as it is not available for use in day-to-day operations as per IAS 7.

Bangladesh Bank: Balance with Bangladesh Bank is treated as cash and cash equivalents.

xiii) Presentation of intangible asset

IFRS: An intangible asset must be identified and recognized, and the disclosure must be given as per IAS 38.

Bangladesh Bank: There is no requirement for regulation of intangible assets in BRPD circular no: 14.

xiv) Off-balance sheet items

IFRS: There is no concept of off-balance sheet items in any IFRS; hence there is no requirement of disclosure of off-balance sheet items.

Bangladesh Bank: As per BRPD circular no. 14 dated 25 June 2003, off balance sheet items (e.g. Letter of credit, Letter of guarantee etc.) must be disclosed separately on the face of balance sheet.

xv) Disclosure of appropriation of profit

IFRS: There is no requirement to show appropriation of profit in the face of statement of comprehensive income.

Bangladesh Bank: As per BRPD circular no: 14 dated: 25 June 2003, an appropriation of profit should be disclosed in the face of Profit and Loss Account.

xvi) Loans and advance net of provision

IFRS: Loans and advances should be presented net of provisions.

Bangladesh Bank: As per BRPD circular no: 14 dated: 25 June 2003, provision on loans and advances are presented separately as liability and cannot be netted off against loans and advances.

3.3 Disclosure of FRC Policy on Use of Audited Financial Statements in Processing Loans

Audited Financial Statements are mandatory documents for any existing company applying for new loan facility for the first from bank. The bank uses the Audited Financial Statements while assessing any new credit / Loan facilities to any new customers. In compliance with BRPD Circular Letter No. 04, dated January 04, 2021, the bank obtained audited financial statements while approving any new loan. It is also mandatory to the client of the bank to submit annual audited financial statements of the company to the bank on an annual basis. Audited Financial Statements are preserved with the loan file by the bank. However, in some special circumstances where latest Audited Financial Statements may not be available, the bank uses interim Management Accounts for the Borrower Risk Rating (BRR) or ICRR for the purpose of renewal of any loan facilities. Such BRR or ICRR is approved by the Management only for Interim use with an instruction to update the same with the Audited Financial Statements. Regarding the BRPD Circular Letter 35 dated July 06, 2021, and FRC Letter No. 178/FRC/APR/2021/27(28) dated December 8, 2021, From September 2021 the Bank verifying the Financial Statements using the Document Verification System (DVS).

3.4 The Bank's compliance with related pronouncements by Bangladesh Bank:

i) Internal Control

Main objective of internal control is to ensure that management has reasonable assurance on some issues such as (i) operations are effective, efficient and aligned with strategy, (ii) financial reporting and management information is reliable, complete and timely accessible, (iii) the entity is in compliance with applicable laws and regulations as well as its internal policies and ethical values including sustainability, and (iv) assets of the company are safeguarded and frauds & errors are prevented or detected.

Modhumoti Bank PLC. has established an effective internal control system to ensure the overall control of risks and provide reasonable assurance that the objectives set by the Bank will be met. It has designed to develop a high level risk culture among the Bank officials, establish efficient and qualified operating model of the Bank, ensure reliability of internal and external information including accounting and financial information, secure the Bank's operations and assets, and comply with laws, regulatory requirements and internal policies.

The Board of Directors of Modhumoti Bank PLC., through its Audit Committee, periodically reviews the effectiveness of Bank's internal control system covering all the material controls, including financial, operational and compliance controls, risk management systems, the adequacy of resources, qualifications and experience of staff of the accounting and financial reporting function, training programs, budget, etc. Audit Committee of the Board reviews the actions taken on internal control issues identified by the Internal & External Auditors and Regulatory Authorities. It has active oversight on the internal audit's independence, scope of work and resources and it also reviews the functions of Internal Control & Compliance Division (ICCD) of Head Office, particularly the scope of the annual audit plan and frequency of the internal audit activities.

ii) Internal Audit

Internal Audit Mechanism is used as an important element to ensure good governance of Modhumoti Bank PLC. Internal Audit is the continuous and systematic process of examining and reporting on the activities of an organization undertaken by the specially assigned staff(s). They assure the Bank management that the Internal Controls are adequate and in operations, the policies and systems laid down are being adhered to and accounting records provided by the lower level are correct. Bank's internal audit Activities are effective and provide senior management with a number of important services. These include detecting and preventing fraud, testing internal control, and monitoring compliance with own policies & procedures, applicable rules & regulations, instructions/ guidelines of regulatory authority etc.

During the year 2023, ICCD conducted inspection on many of the Branches and Divisions of Head Office of the Bank and submitted reports presenting the findings of the audits/ inspections. Necessary control measures and corrective actions have been taken on the suggestions or observations made in these reports. The reports or key points of the Reports have also been discussed in the meetings of the Audit Committee of the Board and necessary steps have been taken according to the decision of the said Committee for correct functioning of Internal Controls & Compliance.

iii) Fraud and Forgeries

The term 'fraud' commonly includes activities such as theft, corruption, conspiracy, embezzlement, money laundering, bribery and extortion. The increasing wave of fraud and forgery cases in the banking sector of Bangladesh in recent time calls for concerted steps in identifying ways for reducing or preventing frauds and forgeries by analyzing the causes and effect of frauds and forgeries, and prescribing effective control strategies for salvaging frauds. Modhumoti Bank PLC. does always pay due attention on anti-fraud internal controls for prevention of fraud and forgery. The Bank has already implemented some strategies like Financial Control Strategy, Personnel Control Strategy, Credit Control Strategy, Administrative Control strategy, Process Control Strategy etc. in order to strengthening the control system further. Pre-employment screening process has been adopted for verifying the qualification, experience, credit check, criminal history search etc. in case of recruitment of officials. Although it is not possible to eliminate all frauds because of the inherent limitations of Internal Control System, the Board of Directors and Bank Management have taken all the measures to keep the operational risk in a very minimum level. Internal Control and Compliance Division (ICCD) assesses and evaluates the effectiveness of Bank's anti-fraud internal control measures, recommends for further improvement in implementation of aforesaid strategies and reports to the Bangladesh Bank on effectiveness of controls at the end of each quarter following their prescribed format.

3.5 Operating segments

The Bank have no identified operating segment and as such presentation of segmental reporting is not made in the financial statements as per IFRS 8.

Leased Assets: Accounting Policy:

The Bank assesses whether a contract is a lease, in accordance with the guidance stated in the IFRS 16: Leases, by determining whether the contract gives it the right to use a specified underlying physical asset for a lease term greater than 12 months, unless the underlying asset is of low value. Office premises for which monthly lease rental is the amount not exceeding Taka 25,000, ATM Booths and other installations are considered as low value asset.

Where the Bank is a lessee and the lease is deemed in scope, it recognizes a liability equal to the present value of lease payments over the lease term, discounted using the incremental borrowing rate applicable in the economic environment of the lease. It is considered as 5%. The liability is recognized in 'Other liabilities'. A corresponding right-of-use (ROU) Asset equal to the liability, adjusted for any lease payments made at or before the commencement date, is recognized in 'Property, plant and equipment'. The lease term includes any extension options contained in the contract that the Bank is reasonably certain, it will exercise.

The Bank subsequently depreciates the right-of-use (ROU) asset using the straight-line method over the lease term and measures the lease liability using the effective interest method. Depreciation of the asset is recognized in 'Depreciation and amortization', and interest on the lease liability is recognized in 'Interest expense'.

The judgements in determining lease balances are the determination of whether the Bank is reasonably certain that it will exercise extension options present in lease contracts. On initial recognition, the Bank considers a range of characteristics such as premises function, conditions mentioned in the lease contracts and the term remaining on the lease to determine whether it is reasonably certain that a contractual right to extend a lease will be exercised.

Existing lease liabilities may change in future periods due to changes in assumptions or decisions to exercise lease renewal or termination options, changes in payments due to renegotiations of market rental rates as permitted by those contracts and changes to payments due to rent being contractually linked to an inflation index. In general, the remeasurement of a lease liability under these circumstances leads to an equal change to the right-of-use asset balance, with no immediate effect on the income statement.

Prior period information is not restated, i.e. it is presented, as previously reported, under IAS 17 and related interpretations in which the Bank as lessee recognized lease payments in operating expenses on a straight-line basis.

The total rental expense during the year 2023 for premises leases was Taka 168,917,144 out of which Taka 167,013,157 has been presented in accordance with the IFRS 16: Leases and remaining Taka 1,903,987 is presented as stated above as per IAS 17. Reconciliation of rental expense has been presented in Note 26.1 for detail.

The right-of-use asset balances and depreciation charges are disclosed in Note 9 & Note 31 respectively. The lease liability balance is disclosed in Note 13 and the interest expense on lease liabilities is disclosed in Note 21.

Capital to Risk weighted Asset Ratio (CRAR):

On Core Capital, i.e. CET 1 - (against standard of minimum 6%)	14.17%	14.26%
On Total Capital to Risk Weighted Asset Ratio (CRAR)- [against standard of minimum 10% plus Capital Conservation Buffer 2.50% (total 12.50%)]	16.08%	16.07%

Any Bank with a Common Equity Tier 1 (CET 1) Capital ratio below 7% is required to conserve a certain percentage of its earnings in the subsequent year. In that case, a restriction is imposed on dividend payout as stated in the Basel III guideline. Above Calculation reveals that CET 1 ratio of Modhumoti Bank PLC. (14.17%) is well above the required level.

Leverage Ratio (against standard of 3.25%):	7.68%	7.89%

Since 'IFRS 16: Leases' has already been implemented in Bangladesh, The Bank started to comply with the reporting requirements as prescribed in IFRS 16 from the year 2019. To comply with the accounting treatment prescribed in this IFRS, out of total rental expense of Taka 168,917,144, an amount of rental expenses (office premises for head office & thirty one branches) of Taka 167,013,157 is converted into the Interest expense on lease liability and Depreciation expense on ROU Assets. The changes have been adopted only for disclosure purpose which are not affecting the payments of actual rental expense (there is no impact on cash outflow).

Reconciliation of rental expense is presented as under:

A) Total Rent expense incurred for office premises paid during 2023:

Rent Expenses	146,258,088	151,881,672
VAT on Rent	22,659,056	22,086,241
Total Rent expense incurred in 2023	168,917,144	173,967,913

B) Rental expense converted into the Interest expense on lease liability & depreciation expense on ROU Assets:

Rent Expenses	145,228,832	139,077,971
VAT on Rent Expenses	21,784,325	20,861,697
Rent expense considered for IFRS 16- Leases	167,013,157	159,939,668

C) = (A-B), Rent Expenses presented in Note 26.1:

Rent Expenses	1,903,987	14,028,245
---------------	-----------	------------

D) Expenses charged during 2023 for IFRS 16- Leases:

Interest Expenses on lease liability (Note 21)	16,773,789	20,561,096
Depreciation Expenses on ROU Assets (Note 31)	141,508,362	137,318,493

Segment Reporting

"IFRS 8 Operating Segments, requires particular classes of entities (essentially those with publicly traded securities) to disclose information about their operating segments, products and services, the geographical areas in which they operate, and their major customers.

An operating segment is a component of an entity that engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the same entity), or whose operating results are reviewed regularly by the entity's chief decision maker to make decisions about resources to be allocated to the segment and assess its performance, and, for which discrete financial information is available. IFRS 8 requires an entity to report financial and descriptive information about its reportable segments who have earned at least 10% revenue compared to the entity's total revenue, or, earned at least 10% profit/ (loss) compared to cumulative profit/ (loss), or, have at least 10% assets compared to total assets of all operating segments.

The Bank has not yet assessed its Operating Segments in terms of the criteria stated above as it is too early to identify. But, operating profit, assets & liabilities of main two operating segments i.e. on-shore banking business (main operation) and off-shore banking unit (OBU) are presented below:

Off-shore Banking Unit

Notes to the Financial Statements

As at and for the year ended 31 December 2023

1. Reporting entity

1.1 Status of the units

The Bank obtained the Off-shore Banking Unit permission vide letter no. BRPD (P-3)744(124)/2015-2447, dated 02 April 2015. The Off-shore Banking Unit commenced its commercial operation on 23 September 2015. The Bank established its Offshore Banking Unit (OBU) with a view of catering the banking requirement of non-resident customers to increase foreign trade business at Export Processing Zones (EPZs). Over the years, OBU has become an important strategic business unit due to growing demand of cheaper foreign currency loan and Usance Payable at Sight (UPAS) Letter of Credit (L/C) from the clients.

1.1.1 Principal activities

Presently, the Bank has one Off-shore Banking Unit operating in Bangladesh. The principal activities of the Unit are to provide all kinds of commercial banking services to its customers in foreign currencies approved by the Bangladesh Bank. The Unit is governed under the rules and guidelines of Bangladesh Bank.

1.2 Significant accounting policies and basis of preparation of financial statements

1.2.1 Basis of accounting

The Off-shore Banking Unit maintains its accounting records in USD from which accounts are prepared according to the Bank Companies Act, 1991 (as amended in 2013), International Financial Reporting Standards and other applicable directives issued by Bangladesh Bank.

1.2.2 Use of estimates and judgments

The preparation of financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised and in any future periods affected.

1.2.3 Foreign currency transaction

a) Foreign currencies translation

Foreign currency transactions are converted into equivalent Taka using the ruling exchange rates on the dates of respective transactions as per IAS-21 "The Effects of Changes in Foreign Exchange Rates". Foreign currency balances held in US Dollar are converted into Taka at weighted average rate of inter-bank market as determined by Bangladesh Bank on the closing date of every month. Balances held in foreign currencies other than US Dollar are converted into equivalent US Dollar at buying rates of New York closing of the previous day and converted into Taka equivalent.

b) Commitments

Commitments for outstanding forward foreign exchange contracts disclosed in these financial statements are translated at contracted rates. Contingent liabilities / commitments for letter of credit and letter of guarantee denominated in foreign currencies are expressed in Taka terms at the rates of exchange ruling on the balance date.

c) Translation gains and losses

The resulting exchange transaction gains and losses are included in the profit and loss account.

1.2.4 Cash flow statement

Cash flow statement has been prepared in accordance with the International Accounting Standard-7 "Cash Flow Statement" under direct method as recommended in the BRPD Circular No. 14, dated June 25, 2003 issued by the Banking Regulation & Policy Department (BRPD) of Bangladesh Bank.

1.2.5 Reporting period

These financial statements cover one calendar year from 1st January to 31st December 2023.

1.3 Assets and basis of their valuation

1.3.1 Cash and cash equivalents

Cash and cash equivalents include notes and coins on hand, unrestricted balances held with Bangladesh Bank and highly liquid financial assets which are subject to insignificant risk of changes in their fair value, and are used by the unit management for its short-term commitments.

1.3.2 Loans, advances and lease / investments

a) Loans and advances are stated in the balance sheet on gross basis.

b) Interest is calculated on a daily product basis but charged and accounted for on accrual basis. Interest is not charged on bad and loss loans as per guidelines of Bangladesh Bank. Records of such interest amounts are kept in separate memorandum accounts.

1.3.3 Fixed assets and depreciation

a) All fixed assets are stated at cost less accumulated depreciation as per IAS-16 "Property, Plant and Equipment". The cost of acquisition of an asset comprises its purchase price and any directly attributable cost of bringing the asset to its working condition for its intended use inclusive of inward freight, duties and non-refundable taxes.

b) Depreciation is charged for the year at the following rates on reducing balance method on all fixed assets.

Category of fixed assets	Rate of
Furniture and fixtures	10%
Office equipments	20%

c) For additions during the year, depreciation is charged for the remaining days of the year and for disposal depreciation is charged up to the date of disposal.

1.4 Basis for valuation of liabilities and provisions

1.4.1 Benefits to the employees

The retirement benefits accrued for the employees of the Unit as on reporting date have been accounted for in accordance with the provisions of International Accounting Standard-19, "Employee Benefit". Bases of enumerating the retirement benefit schemes operated by the Bank are outlined below:

a) Provident fund

Provident fund benefits are given to the permanent employees of OBU under the provident fund rule of the Bank. The Commissioner of Income Tax, National Board of Revenue, Dhaka has approved the Provident Fund as a recognized provident fund within the meaning of section 2(52), read with the provisions of part - B of the First Schedule of Income Tax Ordinance 1984. The recognition took effect from June 04, 2013. The Fund is operated by a Board of Trustees consisting six members (03 members from management and other 03 members from the Board of Directors) of the Bank. All confirmed employees of the Unit are contributing 10% of their basic salary as subscription to the Fund. The Unit also contributes equal amount of the employees' contribution. Interest earned from the investments is credited to the members' account on yearly basis.

b) Gratuity fund

The Bank operates a funded gratuity scheme on "Continuing Fund Basis", in respect of which provision will be made annually according to the recommendation based on Actuarial valuation covering all its permanent eligible employees in accordance with Bank's Service Rules. The Fund will be operating by a Board of Trustees consisting members from the Board of Directors and Management of the Bank. Actuarial valuation of gratuity scheme will be made to assess the adequacy of the liabilities provided for the scheme as per IAS-19 "Employees Benefit". Contributions to the fund shall be made by the Unit on the basis of actuarial recommendations.

c) Incentive bonus

Incentive bonus is given to the employees every year considering the overall performance of the Bank as well as individual's performance. This bonus amount is distributed among the employees based on their performance. The bonus amount is paid annually, normally first quarter of every following year and the costs is accounted for in the period to which it relates. Generally, a certain percentage of disclosed net profit is disbursed among the employees. The aforesaid percentage is approved in the Board meeting so that adequate provision can be made for Incentive Bonus as per IAS-37.

1.4.2 Provision for liabilities

A provision is recognized in the balance sheet when the unit has a legal or constructive obligation as a result of a past event and it is probable that an outflow of economic benefit will be required to settle the obligations, in accordance with the IAS 37 "Provisions, Contingent Liabilities and Contingent Assets".

1.5 Revenue recognition

1.5.1 Interest income

In terms of the provisions of the IAS-18 "Revenue", the interest income is recognised on accrual basis.

1.5.2 Fees and commission income

Fees and commission income arising on services provided by the Bank are recognised when those are realized. Commission charged to customers on letters of credit and letters of guarantee is credited to income at the time of transactions being recorded in the books of accounts.

1.5.3 Interest paid and other expenses

In terms of the provisions of BAS-1 "Presentation of Financial Statements", interest and other expenses are recognised on accrual basis.

2.00 General

- a) These financial statements are presented in BDT (Taka), which is the Bank's functional currency. Figures appearing in these financial statements have been rounded off to the nearest BDT (Taka).
- b) Assets and liabilities & income and expenses have been converted into Taka currency @ US\$1 = Taka 109.7500 (closing rate as at 31st December 2023) & Taka 107.7241 (average rate which represents the year end).
- c) Figures of previous year have been rearranged whenever necessary to conform to current year's presentation.
